He is not certain that he will re-engage in business pursuits till he has taken a needed rest.

Mrs. J. M. O'Bryan narrowly escaped a serious accident at her home in St. Paul last Thursday morning. She had gone to the basement to look after the furnace fire, and in an endeavor to get it started poured a quantity of kerosene on the coal, which exploded as she touched a match to the contents, severely burning her hands and setting her clothing on fire, but fortunately extinguished by the lady before serious consequences ensued. A NEW LINE TO THE NORTHWEST

Through the Big Horn Basin

The Big Horn Basin is fast settling up and offers the greatest opportunities for farmers, and especially farm renters to secure fine government irrigated farms at the mere cost of the waters, and often a single crop can be made to pay for the farm. Ten yearly payments without interest. This is cheaper than paying rent in any locality. With the completion of the new line this promises to become a great wealth producing region.

The oil, gas, and irrigation of the Big Horn Basin will make that country a combination of farm and industrial prosperity.

Write me for full descriptive literature. Go with me to the Basin and let me help you select a new home.

Dollars paid for rent are lost.
