FARMERS ATTENTION

Do not Fail to Witness the Famous

LIGHTNING FEED GRINDER EXHIBIT

THIS IS A GRINDER NOT A CRUSHER

And while you are here, we want to show you the merits of the best feed grinders ever invented. They have roller bearings, chilled steel burrs, friction plates to take up the wear, and nine lugs to force the grain into the burrs, which make three revolutions to one of the sweep, and the bearings run in oil.

THE FAMOUS LIGHTNING FEED GRINDER

grinds faster, runs easier and lasts longer than any other mill made, and you never have to grind your grain a second time to get it fine enough.

You can grind
Wheat, Rye, Oats, Kaffir Corn and Corn, shelled or in the ear
at the rate of twenty-five to fifty bushels an hour with one horse.

REMEMBER THE DATE

Friday and Saturday, November 17th and 18th.

Do not fail to witness this exhibition and secure a **Lightning Grinder**. Beware of imitations. The original and only genuine **LIGHTNING GRINDER** is sold at our store on above dates. Bring your grain along and have it ground while you wait.

E. S. HAYHURST, LOUP CITY, NEBRASKA.

P. S. While here we would be pleased to have you examine our immense line of buggies, wagons and implements.
