Safety in Proprietary Medicines.

Replying to the charge that certain opular proprietary medicines contain narcotic drugs, an authority says:

"Some years ago one of the leading pharmacists of America, in connection with some official work, undertook to ascertain, by an elaborate inquiry in representative cities of the country. what percentage of physicians' prescriptions contained a narcotic drug this world I owe all to my wife. From of some kind. Out of 100,000 reprethe day I first knew her she has been sentative prescriptions, dispensed in drug stores in all parts of the United States, it was found that 70 per cent contained opium or some one of its preparations.

"Proprietary medicines are almost invariably accompanied by the most detailed and specific directions for use, while the directions accompanying physicians' prescriptions are generally very brief and sometimes illegible. It is also true that but a moderate proportion of proprietary medicines contain any poison or narcotic, and, when quantities or so protected by accompanying antidotes, as to carry with it no danger whatever."

Deafness Cannot Be Cured Dealness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbiling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh that cannot be cured by Hail's Catarrh Cure. Send for circulars, free.

But in sickness or old age his case is pitiable indeed. ard we have a curious proof of this in a letter written in 1465 by the mother of Filippo Strozzi, at Florence. She is speaking of some old people on her estate in the country: 'Piero and Monna Cilia are both alive and infirm. I have overflowed the field for next year, and as I must put it in order. these two old people, if they do not die, must go and beg. Heaven will provide.' This is no passing thought of the good lady, who was pious and highly esteemed-a friend of the Medici; but it is a firm resolution in her own mind. A few months later she writes to her son: 'Piero is still alive, so he must put up with it and go away and beg. It would be best, of course if heaven would take him.' Apparently a merciful Providence had already provided for Monna Cilia!"

RECOVERED HEALTH IN DESERT Iowa Professor Starts with New Lease on Life.

In the desert of southern Arizona, with an Indian, two centipedes and a gila monster as his companions, Prof. W. J. McGee of Farley, Iowa, suffering from lost health, slept for four months without bed or covers upon the hot sands of the desert and regained all his former vigor. McGee has just returned home, a veritable athlete, in place of the weakened and emaciated man who struggled out of a severe attack of typhoid fever with only enough strength to drag himself west. While on the desert he amused and edified himself by studying the habits of the insects, reptiles and plants which exist there. He believes that his experiment has disclosed a cure for men suffering from mental and physical collapse.

J. S. Janssen, President of the Milwaukee Retail Druggists' Association,

Talks on the Dangers of Constipation and Stomach Trouble.

"Have you noticed the large number of cases f typhoid fever lately!" said Mr. J. S. Janssen "have you noticed the large number of cases of typhoid fever lately?" said Mr. J. S. Janssen to a Daily News representative. "To my notion typhoid fever, malarial fever, appendicitis and many kindred complaints are the result of constipation, which in many cases is allowed by the patient to run along without proper treatment. You will remember when you were a child and the doctor was called, his first prescription was a dose of castor oil! All physicians know the value of having the bowels thoroughly opened. People, when they grow physicians know the value of having the bowels thoroughly opened. People, when they grow up, allow constipation to become chronic through lack of attention. Constipation is the failure of the bowels to carry off the undigested food, which collects in the alimentary canal and there decays, generating poisonous disease germs. These germs find their way into the blood by means of which they are carried to every tissue. The fever thus created affects not only the lungs, kidneys, stomach, heart and nervous system, but in fact any organ of the body is liable to break down as a result. The blood becomes thin and watery. The sufferer loses in fiesh and strength. Castor oil and pills will not cure an affliction like this. Something more than a laxative is needed. There are many physics on the market and we sell a great many, having probably the most popular store more than a larative is needed. There are many physics on the market and we sell a great many, having probably the most popular store of the kind in the city. I do not often talk about manufactured medicine, but the high esteem in which Mull's Grape Tonic is held by the drug and medical frateraities has impressed me and I know from actual experience right here in our store that Mull's Grape Tonic cures constipation and stomach trouble positively and permanently. Mull's Grape Tonic is not a physic, but it immediately clears the bowels of the decaying food because of the peculiarly strengthening effects it exerts over the organs of the digestive system. As a tonic it is superior to the naus atting cod liver oil compounds. It builds flesh faster and creates strength quicker than any other preparation known to medical science. The ingredients are positively harmless, made mainly from crushed grapes and fruits. Although a full bottle might be taken at once, no inconvenience would result. I only wish that people paid more attention to these little details, which in themselves in the beginning are of so slight importance, but which grow in magnitude until the most serious trouble and some deadly disease fastens itself on the constitution. There is really nothing easier to take than Mull's Grape Tonic. I hope you, through the influence of your paper, can bring the readers to a sense of the gravity of allowing constipation to become chronic." WRITE FOR THIS FREE BOTTLE TO-DAY.
