### To all Teachers

of Sherman County:

Recently, Superintendent Hendrickson mailed to each of you a booklet containing the rules of the State department for the certification of teachers under the new law.

I certainly hope that you have carefully read the booklet above referred to with much profit to yourselves; and that it has inspired you to exert yourselves to the utmost to obtain a certificate under this new law.

There can be no doubt that the first result of the operation of the new law will be a scarcity of teachers. This will cause an increase in the compensation for those who are successful in securing new certificates. You who have earnestly endeavored to qualify yourselves for the teacher's work, who have some conception of the sacredness and responsibilities of the teacher's calling, have cause to feel thankful that Nebraska had, for once at least, a Legislature, broad enough, brainy enough, and patriotic enough to place upon our Statute book one of the best school laws ever put into effect by any State of the Union.

Teachers do not be negligent nor dilatory. The time to bestir yourselves is now. By beginning in January you will have until July to complete your examination in the five essentials. By beginning in February you may finish in August, and be ready for the September schools.

Below I quote rule 22 and the amendment.

22. The five essentials.—When a first, second, or third grade county certificate granted under the old law expires, the holder thereof, in order to secure a certificate under the new law, will be required to take an examination before the state examining board in the following five essential subjects: reading, arithmetic, geography, grammar, and history. After an applicant has taken the examination in the five essential subjects and received passing grades, the state examining board will accept the remaining "passing" grades as shown by the certificate held, making them state grades for the first certificate under the new law. No grade will be accepted from a certificate not in force October 1, 1905.

AMENDMENT TO RULE 22.

"Provided, That teachers engaged in educational work, whether teaching or attending school, who have complied with the requirements as to reading circle work, attendance at the county institute and educational meetings, and who have been granted certificates since July 1, 1903, may have the grades shown on such certificates validated by the state superintendent and made state grades (except in the case of the five essentials as provided in this Rule 22 and except as governed by Rule 10), upon the request of the county superintendent of the county in which such person applies for a certificate. This provision shall take effect on this third day of November, 1905, and shall continue in full force and effect to and including the regular examination in August, 1905." Teachers who registered for the October examination may avail themselves of this provision.

Teachers wishing to profit by this proviso should note carefully Rule 2.

Time Allowed for Examination.

Teachers may begin the examination as late as February, 1906. They will need only to pay the fee and file the old certificate with the county superintendent. Then they may take such time as seems best to write on

The five essentials, always remembering that the work must be completed within six months from the date of beginning. This will permit candidates to register for examination in February, and complete the examination in August following, thereby availing themselves of home study. They may also attend the summer term at some first class college or normal school, and then complete the examination after thorough preparation.

The reading circle work referred to in this amendment is as follows: Hitchcock's "The Louisiana Purchase", Ginn & Co., White's "Elements of Pedagogy" and Putnam's "Text-book of Psychology," American Book Co. The minimum amount of reading circle work, is the reading of any two of the books of the course. It is recommended that teacher's study the culture book and either one of the professional books.
