Kellar of Bristol and Elmer Babcock of Clay were in town Saturday on business connected with an attempt to remove the school house adjoining their farms to a point some two miles distant, and entirely outside their covenant school limit. Of course the boys are kicking against the change which necessitates the division of the present school districts into three instead of two districts, and we do not blame them. There were some twenty other residents of that section, pro and con, who were in on the same line of interest. We acknowledge a pleasant call from the two progressive friends above mentioned.

On Tuesday evening of this week, several couple of our young people gave the Messrs. Henry and Art Eisner a genuine surprise party at their comfortable home. The evening was passed with whist and other games, after which refreshments were served and at a late hour the guests repaired to their several homes, well repaid for the evening spent, and leaving their hosts highly pleased over the surprise given them. One of the features of the evening were musical selections by several of the young men present. Those who were in attendance were: The Misses Belle Mulick, Edna Minshull, Henry Young, Ernestine Odendahl, Gladys O'Bryan and Louise Zelow and the Messrs. John O'Bryan, Chas. Minshull, Dr. S. A. A. Len Newton Vance and Joe Thompson.

The Arcadia Champion was edited last week by Rev. W. E. Mathews of the M. E. church there and devoted almost wholly to church work. Editor Preacher Mathews, or Preacher-Editor Mathews, we should judge, was born for either position.
Rev. McEwen of Fonda, Iowa, filled the Presbyterian pulpit last Sunday morning and evening, and delivered two very able discourses to crowded houses. We understand the church were so well pleased that they unanimously gave him a call for the coming year, but he was unable to accept until he consulted his church at Fonda, who are loth to give him up.
The bridge across Loup river west of town, is in bad condition and farmers living in the territory adjacent are thus compelled to come around by way of the south bridge to get to town. The current has undermined the east approach, and until the bridge has needed repairs our farmer friends from Washington and Webster townships will be compelled to travel about four extra miles to get to town.
