LOUP CITY, - - - NEBRASKA.

Jay Gould reads "Virgil" for recreation .- Hartford Evening Post. Where?

If Sir Tom Lipton insists upon having another race, why, there is the dry dock Dewey.

A greater Connecticut will also be appropriate, since Connecticut so long has been the Nutmeg state.

Another genius has invented a preventive for seasickness. Still, the only real preventive is to stay on dry land.

Cuba should look at the horrible examples of the neighboring republics and beware of the revolution habit.

The real name of Gabrielle d'Annunzio, the Italian novelist, is Aapaguette. If this suggests Spaghetti to you, don't blame us.

Probably the duke of the Abruzzi will have a good time on his exploration trip in Africa, but Stanley got all the credit.

New Jersey has lost 1,500 corporations and barely misses them. The mother of trusts is not thinking of race suicide.

A Milwaukee wife has sued for \$750,000 because her husband was taken away from her. How conceited he must feel!

The hero who "picked up a skunk and carried it out of church" won much applause and temporary ostracism in that town.

It may be true that there are 5,000 cows in Philadelphia, but it is untrue that they are allowed to graze freely in the public streets.

Careless scribes continue to get Augustus Heinze into several varieties of pickle concerning which he can establish a complete alibi.

We are informed on excellent authority that even if American nickel is going up, the price of five-cent pieces will not be advanced.

The king of Portugal paints and is said to have considerable artistic ability-which is all right so long as he doesn't have to make a living by it.

The college professor who declares that women will be ruling the world fifty years hence perhaps reasons from the premise that she has begun on him.

That New Jersey dog that according to the veracious chroniclers wags his tail up and down instead of sidewise, was evidently born for existence in a city flat.

Dr. Williams' Pink Pills Actually Make New Blood and Good Health Follows.

The evil effects that follow many dis eases - particularly the grip and the wasting fevers, such as typhoid and malaria, are caused by the bad condition in which these diseases leave the blood. As a result, the flesh continues to fall away, the sufferer grows nervous and irritable, and even slight exertion causes shortness of breath. These are danger ous symptoms and indicate that the system is in a state that invites pueu

5 monia, bronchitis or even consumption. What is needed is a new supply of rich, red blood to carry health and strength to every part of the body. "I was all run down from the effects 1 tacks finally developed into a chronic case. At one time I had to use a of the grip," says Mrs. Amelia Hall, of No. 5 High street, Norwich Conn., "and crutch and cane to get about. My back was lame and weak, and besides

could not seem to get strength to walk ; could not eat a full meal, my stomach the aching, there was a distressing retention of the kidney secretions. I was so weak, and I was so nervous that was so weak, and I was so hervous that I could not sleep. I could only stay in bed a few minutes at a time, either night or day. The least little thing would startle me. I had difficulty in breathwas in a bad way when I began using Doan's Kidney Pills in 1901, but the remedy cured me and I have been well ever since." ing and had frequent fainting spells. **BE CLIPPED?** CLIPPING IN THE EARLY SPRING RECOMMENDED BY LEADING

VETERINARIANS.

All Thinking Men Readily Recognize Its Advantages.

"A horse is a valuable asset, and should receive the best care possible. He should be well fed, comfortably stabled, carefully groomed and clipped in the early spring. If he receives these attentions he will work well and improve in value. A horse lives under artificial conditions. In his wild state he required none of these attentions, for he was able to look out for himself. The domesticated animal, being worked under conditions that are in themselves artificial, must be kept in condition for such

work.

The clipping of a horse in the early spring is now conceded by all the leading veterinarians to be as essential to a horse's well being as shoeing him or giving him a comfortable bed to lie on. Farmers in England and France have been clipping their horses for many years, and American farmers are not slow to realize its advantages. A clipped horse dries out rapidly after a hard day's work. and will rest comfortably and be refreshed for the work the following day. An unclipped horse is liable to catch the heaves, pneumonia and all sorts of colds, rheumatism, etc. More especially is this so in the early spring, when his hair is long and he is "soft." If worked hard he will perspire freely and the moisture will be held by his long hair, and the food that should go to nourish him will be used to replenish the heat that is being constantly taken from his body by the mass of cold wet hair. If clipped, the perspiration will evaporate almost as soon as secreted, and when put in the stable he rests comfortably and his food does him good.

"""Maybe it would," said he, in-"'Turning to the desk I penned the
