Grain Receipts at Omaha Greatly Increased-Irrigation Matters to Come Before Legislature.

Wheat Comes Over Double. Omaha received last mouth two and

one-half times as much wheat as for the same month last year, and more than three times as much oats, so that in spite of the light movement of corn, total receipts for the month were 1,-617,600 bushels larger than last year.

Receipts of corn for August were 1,844,700 bushels, as compared with 2,-201,000 bushels a year ago, the decrease being due to the fact that the farmers this season have been both too busy to haul corn and have been holding for higher prices. They have taken considerable wheat to market, as they have threshed, in preference to storing it. Corn is beginning to move more freely and liberal receipts are expected this month, tverybody now feeling reasonably sure of a large | City last week on her way east. She

WILL PROBE HARVESTER TRUST

Kansas Attorney General to Determine if State Laws Are Violated.

Topeka, Kan.-Investigations of the International Harvester company have been instituted by C. C. Coleman, attorney general of Kansas, to determine whether the concern is operating in violation of the state anti-trust laws. Attorney General Coleman stated that in the district courts of Reno and Shawnee counties all of the implement dealers in Topeka and Hutchinson would be subpoenaed to appear before District Judges Dana and Galle and tell what they knew about the operations of the company. The company has storage houses for its implements at Topeka, Hutchinson, Wichita and Salina, and it was decided to begin with the investigation at two of these points. The examinations are to be in secret. Applications for subpoenas prepared by the attorney general allege that "secret arrange ments and agreements exist between dealers in various lines." The application specifies that all contracts entered into between any of the dealers and the International Harvester company for the years 1904, 1905 and 1906

PEACE COMES SLOWLY

CUBAN REBELS MAKE ONEROUS DEMANDS ON PALMA.

WANT CAPOTE FOR CHIEF

Insist That Vice President Shall Succeed to Executive Office and Restore Insurgents to Positions in the Government Service.

Havana.-While peace projects have caused a general suspension of revolutionary operations, no appreciable progress towards anything like a satisfactory understanding has been made. The liberal leaders insist that it is unjust to regard them as insurgents, and assert that they are merely seeking for peace, at the same time declaring that not only must the terms of peace be better than heretofore talked of, but that there must be some unquestionable guaranty that the conditions will be carried out to the letter. The moderates meanwhile continue in a waiting attitude.

The demands which come from the insurgents themselves as the price of a cessation of rebellion are regarded in the capital for the most part not to be considered. These demands include the restoration of deserters from the rural guards to their former positions, the reinstatement of liberals who last year were deposed from municipal offices, the retention of their arms by the insurgents, and other equally radical propositions.

The liberals have not yet relinquished the hope that they may be able to force the resignation of President Palma and all the high government officials. The succession of Vice President Mendez Capote to the presidency is also discussed, liberals seeming to think they could reach an understanding with him that would be satisfactory to all.

Many business men of Havana ridicule the whole effort for what they call a patched-up peace, which they allege can be no more than tempor ary, and some go so far as to assert that the country never can be governed rightly or investments be absolutely safeguarded unless the United States intervene. This is frankly stated in some cases, also by high government officials, and brings the retort that those who make such statements are not good Cubans.

Despite all drawbacks, however, the fact that peace proposals are pending and that hostilities have been suspended has brought more or less hopefulness to the people of Havana.

Chicago.-Paul O. Stensland is absolutely in the custody of Assistant State's Attorney Harry Olson at Tangier, Morocco. This information was obtained in a cablegram from Mr. Olson, received Friday by Acting State's Attorney Barbour, as follows: "Stensland turned over to me."

The brevity of the dispatch leaves

much to conjecture, but Mr. Barbour believes that Mr. Olson has brushed aside all difficulties and is in a position to start for home with his prisoner as soon as a ship is available. The action of the United States representatives at Tangier in turning Stensland over to Mr. Olson is believed to be due to the cablegram sent

ington, in accordance with the instructions of President Roosevelt. The president wired from Oyster Bay that he desired the department of state to go to any necessary extent in the effort to bring Stensland to

The loans made by Segal by President Hipple aggregate more than \$5 .-000,000, and his securities are believed to be worth about \$2,000,000. Consequently the directors will subscribe something more than \$3,000,000.

A statement issued by Rev. These deposits were the current funds of the board of ministerial relief, the trustees of the board of publication and Sabbath school work, the trustees of the general assembly, the stated clerk of the general assembly and the Wo-
