

A NERVOUS WRECK

Mrs. Green Gained 26 Pounds and Recovered Her Health by Taking Dr. Williams' Pink Pills.

General debility is a term that covers a multitude of cases where there is no acute disease, yet the patient continues to lose strength and the doctor's medicines have no apparent effect. This is the decline that leads to death if means are not found to check it. In a great majority of cases Dr. Williams' Pink Pills will check it and restore health and strength because they actually make new blood and so send renewed vitality to every organ and tissue of the body.

Mrs. S. A. Green, whose address is Box 29, R. F. D. No. 4, Franklin, Ga., says: "For three and a half years I suffered with weakness and nervousness, complicated with stomach trouble. At times I was confined to my bed for periods ranging from three weeks to two months and was under the physician's care most of the time for three years. I do not know the cause of my trouble but I was prostrated with weakness and, although I took a great deal of medicine, nothing seemed to give me strength. At times my stomach hurt me something fearful and my head often troubled me. I was sleepless and what sleep I did get did not refresh me.

"When I began taking Dr. Williams' Pink Pills, I weighed but 104 pounds. I knew I was so bad that a few doses would not cure me and I had patience. Soon the pills began to give me strength, my blood got in better condition, I could sleep at night and my appetite with the housework. Now I weigh 130 pounds and think nothing of walking half a mile. Dr. Williams' Pink Pills have done wonders for me and the neighbors all know this statement is true."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

Kemp's Balsam

Will stop any cough that can be stopped by any medicine and cure coughs that cannot be cured by any other medicine.

It is always the best cough cure. You cannot afford to take chances on any other kind. KEMP'S BALSAM cures coughs, colds, bronchitis, grip, asthma and consumption in first stages.

Education in Sweden.

Nowhere else, unless in America, is education so universal as in Sweden. Every child must go to school between the ages of seven and 14, unless the parents can show that they are being privately educated. There are about twelve thousand common schools in Sweden, even the thinly populated districts having "ambulatory schools," held in various parts of the district. When this is the case the school term is reduced to about half the ordinary duration.—The Craftsman.

Tolstoy's Latest Work.

Count Tolstoy has completed a new work entitled, "The Divine Human." The characters depicted include the principal revolutionary leaders in Russia during the years from 1880 to 1890. He is already engaged upon the work of dealing with current events in Russia.

Tank Wasn't Filled.

"I want to see your tank," said the waterworks man at the kitchen door. "Then you'll have to come around after midnight," answered Mrs. McSosh, savagely. "He's never home at this time of day."—Cleveland Leader.

VAST GOVERNMENT PROJECTS IN LAND RECLAMATION

How Thousands of Acres of Arid Soil are Being Converted Into Productive Farms.

Probably no legislation since the passage of the United States homestead laws and the Morrill act, by which a large part of the public lands of the west were dedicated to the education of the people, has been so beneficial and contained so much promise for the future as the reclamation act of June 17, 1902. Under this act surveys have been made for thirteen great irrigation projects. Two of the most important of these are known as the North Platte project and the Belle Fourche project. The large sums invested by the government in these irrigation plans are derived from the sale of public lands. Water rights under each project are sold to settlers at actual cost and the money thus received is turned back into the reclamation fund for further and more extended operations.

The purpose of the law is to make large tracts of land in regions of the west where rainfall is small capable of cultivation without expense to the taxpayer. It applies the proceeds of the sale of irrigated lands to the construction of irrigating systems and reservoirs in the manner stated, selling the public lands to the people on easy terms, ten years' time, the land and water rights to be paid

for in ten annual installments. The law allows enough land to each settler to support a family, eighty acres being the maximum, except where it is adjacent to a town site, in which case the maximum is forty acres. No cash payment is required until after the first year's crop has been raised and no commutations are allowed, but the settler must actually live on the land and cultivate it for five years. The land will produce alfalfa, sugar beets, potatoes and the usual root crops of the temperate zone.

Main Canal in Belle Fourche Project.

When work was begun in the different projects a great many people flocked to the regions and took up land with the intention of working for the government. A good many of these people tire of the country in a short time and are willing to relinquish their claims for a small bonus.

One of the big feats of engineering in the Uncompahgre valley project in Colorado consists of a tunnel 30,000 feet long. The tunnel passes under a high divide and carries the water to Uncompahgre valley, where it will be utilized for the reclamation of 120,000 acres of land in Montrose and Delta counties. Construction of the tunnel was begun in 1904 and work thereon has since been progressing rapidly. Nearly two miles are completed.

That irrigation is not a new thing in New Mexico is proved by the fact that there is a ditch there now which has been in use for 300 years. The Rio Grande project now under way involves the construction of a storage dam opposite Eagle across the Rio Grande, which will form a reservoir 175 feet deep at its lower end and forty miles long, with a storage capacity of 2,000,000 acre feet, for the irrigation of 180,000 acres of land in New Mexico, Texas and Mexico. The

Main Inlet to Belle Fourche Canal.

Leasburg diversion, which is a part of the Rio Grande project, calls for the construction of a low 500-foot concrete diversion dam, with pier, earthen bankment and sluice gates, head weirs and head gates. In connection with the diversion dam it will be necessary to construct two miles of full-size canal to connect with the old Las Cruces canal. Construction will soon be begun.

What to Do With Old Combs.—To render surplus combs into wax, break them into small pieces and put them into a cheesecloth bag. Then put the bag of combs into a boiler half filled with cold water, and after boiling a half hour remove from the stove and sink the bag to the bottom with a weight. Cover up and let it cool off slowly, when you will have all the wax on top of the water and the refuse in the bag.

Smut in Corn.—The only way to decrease the amount of smut in corn, is to pluck off the smut balls and burn them. Corn smut spreads rapidly if the smut balls are thrown on the manure pile and the manure spread on corn fields. Never throw a smut ball on the manure pile

AWFUL PSORIASIS 35 YEARS.

Terrible Scaly Humor in Patches All Over the Body—Skin Cracked and Bleeding—Cured by Cuticura.

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Cuticura Soap, six boxes of Ointment and two bottles of Resolvent. In thirty days I was completely cured, and I think permanently, as it was about five years ago. The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twenty-four hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable. W. M. Childster, Hutchinson, Kan., April 20, 1905."

WHAT BECAME OF OLD GLASSES?

Mother's Effort to Check Child's Curiosity Proves Futile.

A Boston three-year-old, like Mr. Kipling's elephant's child is distinguished by her "insatiable curiosity." Bitter and embarrassing experiences have led her long-suffering mother to recognize this fact.

Accordingly, when accidents in the kitchen and the expectation of guests to dine, rendered the purchase of new water glasses necessary, Mrs. S— took her daughter into her confidence. "Sarah," she said, "these are new glasses. I bought them at Stearns' yesterday afternoon at 4:30 o'clock. Robert drove me over to the shop with Jim and the runabout. Robert wore his 'butternut' livery and his brown derby. I paid six dollars for the glasses, and had them sent. Now you know all about them, and I positively forbid you to ask a single question about them when you see them on the table."

Sarah wore a subdued look during the process of the meal, and Mrs. S— was beginning to congratulate herself upon the effectiveness of her lesson, when an eager and interested expression came into Sarah's face, and she piped in her shrill but engaging voice: "Mother, what did you do with the old glasses?"

Farewell of Noted Players. Macready's farewell benefit was at the Theater Royal in 1851, but he was not buried at Kendal Green until May 3, 1873. Charles Keen's last appearance on the stage was at the Prince of Wales theater, Liverpool, on May 29, 1867. John Kemble's farewell to the stage was in "Coriolanus," June 23, 1817. Mrs. Siddon's farewell was as Lady Macbeth in 1812. Miss Cushman's farewell benefit was at Booth's theater, November 7, 1874.

Saved Many from Drowning. Five hundred persons saved from drowning in 48 years was the record achievement of Christian Langer, a Danish boatman, who has just died at Harboe, Jutland, aged 82.

Five Million Miners. The number of persons employed in the mines of the world is about 5,000,000, of whom one-fifth are in Great Britain.

Why He Wouldn't Lecture. Oliver Wendell Holmes was invited to deliver a lecture in a town in the central part of Massachusetts. He was not feeling very well and he wrote the following reply to the committee in declining to accept the invitation: "I am far from being in good physical health and I am satisfied that if I were offered a \$50 bill after my lecture I should not have strength enough to refuse it."

A FAVORITE OF AMERICAN SPORTSMEN

Sold Everywhere.

What Joy They Bring To Every Home

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

W. L. DOUGLAS

\$3.50 & \$3.00 Shoes

BEST IN THE WORLD

W. L. Douglas \$4 Gilt Edge line cannot be equalled at any price

To Shoe Dealers: Double Jobbing House is the most complete in the country. Send for Catalog.

SHOES FOR EVERYBODY AT ALL PRICES. Men's Shoes, \$5 to \$15.00. Boys' Shoes, \$3 to \$12. Women's Shoes, \$4.00 to \$12.00. Misses' & Children's Shoes, \$2.25 to \$12.00. Try W. L. Douglas Women's, Misses' and Children's shoes; for style, fit and wear they excel other makes. If I could send you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer, and are of greater value than any other make. Wherever you live, you can obtain W. L. Douglas shoes. His name and price is stamped on the bottom, which protects you against high prices and inferior shoes. Take no substitutes. Ask your dealer for W. L. Douglas shoes and insist upon having them. Fast Color Exports used; they will not wear bright. Write for illustrated Catalog of Fall Styles. W. L. DOUGLAS, Dept. 12, Brockton, Mass.
