### Sunday School Convention.

There will be held in Loup City, on the 13 and 14th days of October, 1906, a Sunday-School convention, and we hope to make the convention one of the best ever held in the county. This can be done if all will put forth a little effort and do their part. We wish in the first place a full and complete report from each school, giving the attendance, number of classes, teachers, officers, name of superintendent, secretary and in fact everything of interest in regard to the school. Don't be afraid you will make your report too long, for as a general thing the reports are so short that we do not get enough to make a full report to the state convention. We also want delegates from every school in the county and we want to hear from those delegates after they get here. We want earnest, active workers from every school to be present and help in making this convention the very best ever held in the county. We are all proud of the record made at the state fair, why not make the record of this convention one to be proud of? Full programs will be published and sent out next week. Preparations will be made here for the accommodation of all delegates, so come and help make the occasion a pleasant and instructive one. **J. A. ANGER, President.**
