 Woman's Chief Need.  
 One reason why the average woman wears out and grows old and plain is that, through a mistaken idea of duty, she lays out for herself at the beginning of married life a scheme of duty of which every hour is filled with work, says a correspondent. This she follows religiously for years, feeling that she has done her duty. She, however, soon becomes merely a machine. Can any woman keep brightness, originality of thought, or even good looks, with such a life? And, without those things, how can she keep her husband and children full of loving admiration? Constant association with others of her own age, with her children and their friends, and an occasional period of recreation is what the average woman requires to make her attractive.  
 Shell Startled English Village.  
 The little Sussex fishing village of Selsey, famous for its lobsters, and lying on the south coast a few miles from Chichester, had a startling experience recently. A shell from a warship in the channel whistled over the houses and falling in a meadow just beyond the limits of the village with a loud explosion startled all the inhabitants. The projectile came to the ground within 100 yards of the Fishermen's Joy inn. Mr. H. A. Smith, brother of the innkeeper, was thrown down by the concussion. The shell in exploding plowed the earth to a depth of five or six feet over a space of nine or ten yards, and became embedded in the soil.  
 Opportunities.  
 A good many of the opportunities that seem to be golden are merely gold-plated.

## OVER \$1,000 A YEAR AND "LIVING."

That is the Story of a Michigan Farmer Who Lives in Western Canada.  
 Olds, Alberta, Dec. 10, 1906.  
 Mr. M. V. McInnes, Detroit, Michigan:  
 Dear Sir and Friend—I came to Olds, and have lived here ever since.  
 Since I came here wheat has run from 25 to 45 bu. per acre, oats from 65 to 115, that I know of. I raised that last year, 115 bu. to the acre of the finest oats I ever saw, and oats that I sowed 31st day of May this year went 72½ to the acre and weighed 41 lbs. to the bushel. My barley went 40 bu. last year and 50 this year, and was not sown until the latter part of May. I had 3 acres of potatoes this year and sold 700 bushels and put 275 bu. in the cellar, and no bugs to pick.  
 We have a fine Government Creamery at Olds. Our cows made \$41 per head and I didn't feed any grain; only prairie hay, so you see we are doing well. We have the patent for our homestead now and am very thankful that we came to Alberta.  
 We have made a little over \$1,000 each year besides making our living. I would not go back to Michigan to live for anything. If I had my choice of a ticket to Olds or a 40-acre farm in Michigan I would take the ticket and in two years I could buy any of them 40-acre farms. This is the country for a poor man, as well as a man with money.  
 I will close, thanking you for our prosperity. I remain yours truly,  
 (Signed) OTTO YETTING,  
 Olds, Alberta, Canada. Box 169.

## OPEN THE WINDOWS

FRESH AIR ESSENTIAL TO PREVENT CONSUMPTION.  
 Dangerous to Neglect Even an Ordinary Cough or Cold—Simple Remedy is Effective.  
 "Good food, fresh air and rest; keep your windows open winter and summer."  
 So we are told by the great scientists who are certainly doing wonders... reducing the death rate from Tuberculosis. They also warn us not to neglect a cold or cough, and it is most important that this advice be followed. While the cough or cold may not bring consumption, it is better to be on the safe side and take no chances.  
 Here is a simple remedy that will break up a cold in twenty-four hours, and cure any cough that is curable: Glycerine, two ounces; Virgin Oil of Pine (Pure), one-half ounce; good Whisky, a half pint. Shake well and use in teaspoonful doses every four hours. The ingredients can be secured from any good prescription druggist at small cost, but must be pure to effect the desired results. For this reason it is always best to purchase the ingredients separately and prepare the mixture at home.  
 Virgin Oil of Pine (Pure) should be purchased only in the original half-ounce vials put up for druggists to dispense. Each vial is enclosed in a round wooden case, with engraved wrapper, with the name—Virgin Oil of Pine (Pure); guaranteed under the Food and Drug Act, June 30, 1906. Prepared only by Leach Chemical Co., Cincinnati, O.—plainly printed thereon. Imitations and oils sold in bulk pay dealers larger profits, but they are dangerous to health and should never be used.  
 FOUND HE COULD MAKE TIME.

## MAN OF DELICATE NERVES.

Rosenthal, the Pianist, Made Much Trouble in Hotel.  
 Rosenthal, the pianist, is one of those entitled to have his crankiness termed "the eccentricities of genius," says the San Francisco Chronicle. When he inspected his rooms at the Majestic upon his arrival very late the other night, he went softly to the adjoining doors, and placing his ears close to the cracks, exclaimed in broken English, "Zodd, no sounds pass these." After nodding his approval of the grand piano and the furniture he frowned at the tan-colored window shades. "Must be green." He was assured that a change would be made especially for him the next day.  
 At five o'clock in the morning Rosenthal, clad only in his pajamas, came scurrying excitedly down stairs and into the office, where the drowsy night clerk was nodding at the desk.  
 "Ze street cars! Noise! Must stop! Nervous me! I cannot sleep."  
 The clerk hurriedly sent for Manager Gustav Mann, and Mann spent two hours telling Rosenthal funny stories in German trying to divert his mind while the clerk was upstairs squaring the management for waking a guest on the Gough street side and ordering him to move at once to the Sutter street side as a gas pipe had burst under the floor and had to be repaired!

## PE-RU-NA A MEDICAL COMPOUND

In any medical compound as much depends upon the manner in which it is compounded as upon the ingredients used.  
 First, there must be a due proportion of the ingredients. Each drug in the pharmacopoeia has its special action. To combine any drug with other drugs that have slightly different action, the combination must be made with strict reference to the use for which the compound is intended. The drugs may be well selected as to their efficacy, but the compound ENTIRELY SPOILED BY THE PROPORTION in which they are combined.  
 It takes years and years of experience to discover this proportion. There is no law of chemistry, of pharmacy, by which the exact balance of proportion can be determined. EXPERIENCE IS THE ONLY GUIDE.  
 In compounding a catarrh remedy Dr. Hartman has had many years' experience. In the use of the various ingredients which compose the catarrh remedy, Peru, he has learned, little by little, how to harmonize the action of each ingredient, how to combine them into a stable compound, how to arrange them into such nice proportions as to blend the taste, the operation and the chemical peculiarities of each several ingredient in order to produce a pharmaceutical product beyond the criticism of doctors, pharmacists or chemists.  
 WE REPEAT, THAT AS MUCH DEPENDS ON THE WAY IN WHICH THE DRUGS ARE COMBINED AS DEPENDS UPON THE DRUGS THEMSELVES.  
 The compound must present a stability which is not affected by changes of temperature, not affected by exposure to the air, not affected by age. It must be so combined that it will remain just the same whether used in the logging or mining camps of the northwest or the coffee plantations of the tropics.  
 A complete list of the ingredients of Peru would not enable any druggist or physician to reproduce Peru. It is the skill and sagacity by which these ingredients are brought together that give Peru much of its peculiar claims as an efficacious catarrh remedy.  
 However much virtue each ingredient of Peru may possess, the value of the compound depends largely upon the manner and proportion in which they are combined. The right ingredients, put together rightly, is the only way a medical compound can be made of real value.
