Whether the irregularities are actionable or not is now under consideration by United States Attorney Baker of the District of Columbia

The matter has been under investigation by the treasury department for about a year, and has been kept very quiet. It finally transpired through the publication of the hearings on the sundry civil bill before the house committee on appropriations,

For several years the government paid from 45 to 60 cents a pound for these colors. Concerns which had lost in the bidding finally made charges that something was wrong. It developed that the ink used was made by a process invented by a man in the bureau. The government paid 45 cents a pound for a "hard black" and as high as 65 cents a pound for a "soft black." When the charges were made last year, Director Sullivan of the bureau made a personal investigation of the manner in which the color contracts were made, and found that a satisfactory black could be produced for 12 cents a pound.

Thereupon the price was reduced,

After Mrs. Dewey's marriage the I and wife are to rent out the street house was leased first to the Secretary Hitchcock. Mr. Hitchcock recently gave up the place, and immediately workmen began making repairs and alterations. Their orders were so imperative that they worked
