By the program we see that the doctor has a demonstration to be given on the morning of the second day. He will probably be absent the entire week, going to Omaha and Council Bluffs to spend the latter part of the week.

While doing some repairing in the well at the St. Elmo hotel, Monday, Charley Mellor was the victim of partial asphyxiation from foul gas therein, but fortunately escaped serious consequences. While suffering from the effects, he was able to keep at work Tuesday till evening, when he was overcome, and suffered the loss of quite a quantity of blood from a nausea that seized him at the time. He was able however to reach home but at present writing is still very weak, though it is thought no serious results will follow.

The Coal Situation.

In an interview with Mr. W. L. Park, General Superintendent of the Union Pacific Railroad he states that the coal situation is the most serious that confronts the people, particularly in the west. The population is growing so fast that the demand upon the mines are very much beyond their capacity. "It is quite likely that next winter will see a much more serious condition than existed during the past, for the reason that the country west of the Rock Springs mines is settling up very rapidly and requires the entire commercial output at the present time. Recently very little Rock Springs coal has been shipped east of Chepenne and practically none has left the rails of the Union Pacific or its affiliated lines during the past year. It may be possible for the consumers along the Union Pacific, east of Rock Springs, to obtain this coal, if the dealers store it during the summer. This we are urging them to do, knowing how much the people appreciate the quality of this fuel. This would also give them some insurance against a coal famine in the winter of 1907-1908, to which they are entitled.
"As the railroads will be entirely segregated from the coal business next winter it is up to the dealers to provide such facilities for storing and it is up to the people to see that they do it. Hereofore, the railroads protected the people against coal shortages by selling from their company supply coal to individuals and to dealers. Under the Heppburn Bill this will not hereafter, be permitted.
"Personally I intend to lay in a year's supply of coal and I am glad to give the people the tip that they had better do likewise. If their dealers do not store it, it would be wise for small families to club together and put some in storage or those who can afford it, to fill their bins and cellars; of course it will be much better for the dealers to provide facilities for storing, if they will do it.
"It is by no means a question of transportation. The problem will be producing the coal in sufficient quantities to meet increased demands.
"I would not like to see the people along our line suffer as they have done in Montana and Dakota and in Canada during the past winter, and they want to get on record this early that they must look out for themselves to a greater extent than they have done heretofore, on account of the changed conditions."

LEGAL NOTICE.

In the District Court of Sherman County, Nebraska. In the matter of the application of LeVina J. Sparks, an estate and person of William A. Sparks, Walter R. Sparks, Berlie A. Sparks, Ray E. Sparks and Verne Sparks, executors of the estate of James A. Sparks, deceased, to sell real estate.
Now on this 10th day of May, 1907, this cause came on to be heard upon the petition under oath of LeVina J. Sparks, guardian of the minor children of James A. Sparks, deceased, praying for license to sell the following described real estate, to-wit: The west half of the northwest quarter and north half of the southwest quarter of Section seven (7), Township fourteen (14), North, Range sixteen (16), West of the 6th P. M., Sherman county, Nebraska, to provide means for the care, education and maintenance of said minor children, for the reason that there is not a sufficient amount of personal property in the possession of said LeVina J. Sparks, and belonging to said estate to provide said care, schooling and maintenance.
It is therefore ordered that all persons interested in said estate appear before me at the court room in Loup City, Sherman County, Nebraska, on the 20th day of June, 1907, at the hour of 10 o'clock, a. m., to show cause, if any there be, why a license should not be granted said LeVina J. Sparks, guardian, to sell the above described real estate, to-wit: the west half of the northwest quarter and north half of the southwest quarter of Section seven (7), Township fourteen (14), North, Range sixteen (16), West of the 6th P. M., Sherman county, Nebraska, and terminating on the section line on the north side of said Section twenty-nine (29), Township sixteen (16), North, Range fifteen (15), West of the 6th P. M., to be retained to said estate, on or before noon of the 15th day of July, 1907, or said road will be vacated without reference thereto.
Dated this 10th day of May, 1907.

SHOW PROPERTY DESTROYED.

Boyd Burrowes' Entire Pavilion Theater and Personal Property of Company Destroyed by Fire last Monday morning.

Between 5 and 6 o'clock Monday morning, our people were aroused by the sound of a deafening explosion, followed by the alarm of the fire bell, which proved to be from a car on the B. & M. tracks just east of the depot, in which had been placed all the tents and paraphernalia of Boyd Burrowes big show together with the trunks and effects of his company, and which were totally destroyed. The fire originated in the car from some unknown cause, followed shortly by the explosion of the big lighting tank, stored within, and within a short time all the worldly goods of Boyd Burrowes and his company, except the wearing apparel on their backs, had gone up in smoke. Among the contents were band instruments, the complete wardrobe and new costumes of the ladies and gentlemen of the company which had been specially prepared for the coming season, most elegant and costly in design, and Mr. Burrowes' fine picture machine, with some 5,000 new and latest films. Mr. Burrowes estimates his loss as exceeding \$5,000, while the loss to the members of his company will run from \$150 to \$300 each. While the fire is a staggering blow to Boyd, he is not of the kind that lays down, but like Ajax of old arises from the ashes of defeat and while the fire still smoldered over the remnants of his effects busied himself in ordering an entire new outfit, to be here as soon as wire and steam can bring them and in a few short weeks proposes to be in better shape than ever to give to the amusement loving public the choice entertainments he has been wont to give them. He has retained his entire company, informing them their salaries will go on in the meantime and to hold themselves in readiness for his orders at any time. Good for Boyd. He will win, and don't you forget it for a moment.

Imperial Cossack Troopers From Steppes of Russia.

Campbell Bros. Consolidated Shows, in perusal of their ambition to enhance the attractiveness of the Grand National and International Educational Amusement Institution, has, after many months of tenacious persistence, immense outlay of capital, combined with the consent and co-operation of both governments, secured a detachment of Imperial Cossack Troopers. This is the first appearance in America of a genuine contingent of Russia's Noted Light Horse Cavalry. They are natives of the vast steppes, stretching from the base of the Ural mountains, and universally acknowledged the Hardest and Most Expert Military Equestrians in the world. Of an individuality not characteristic of any other company of cavalrymen, in entirely original Gymnastic feats of Horsemanship phenomenally unique and peculiar to themselves; mounted on the Light Horse of their Native Steppes, fierce and active as the riders, armed with the sword, their principal weapon, which they wield with an expertness that is marvelous; arrayed in handsome and sombre uniforms; performing numberless feats of fearless skill in conjunction with illustrations of Russian Cavalry evolutions will be one of the many new features that will participate, with other detachments from the armies of many nations, in material pageants dazzling reviews, amongst whom are the master horsemen of the universe, vividly reproducing modern military movements, portraying realistic scenes from historic battle fields that eclipses in magnitude, intrinsic worth and instructive merit, all previous attempts of this unequalled exhibition, will exhibit at Loup City Tuesday, May 21.
