Want Lynchers Punished. Governor Sheldon has received a resolution adopted by the presbytery of Nebraska City which recently met at Alexandria, asking him to cleanse the good name of the state from this disgrace by bringing the Cumming county lynchers to justice. The governor has no information before him upon which to act and it is believed that no one who has knowledge of the lynching will dare to tell what he knows. The resolution adopted was signed by Thomas L. Sexton, stated clerk of the Nebraska presbytery, 27, 1907. It is not known yet when was ordered sent to the governor and to the press. It is as follows: "Whereas, A prisoner accused of murder was taken out of the hands of the sheriff by a mob of about thirty men near Bandcroft, Neb., recently and put to death, the presbytery of Nebraska City hereby expresses its disapproval of the act of this mob in Juan Aganca Tornquist, a nephew of taking the execution of the law out of the president of the Argentine republic the hands of our courts and their and a distant relative of King Alphonofficers, and of lynch law in general, so of Spain, may enter the state and we hereby call upon the governor of this state to use all possible means of Lincoln recently received a letter to cleanse the good name of this state from Tornquist making inquiries and from this disgrace by bringing the perpetrators of this crime to justice. State university. and guarding against such occurrences in the future.

Session of Federal Court.

Attorney A. W. Lane has returned

from Omaha where he has been engaged with his chief in formulating the docket for the coming session of federal court in the Oraha division of the Nebraska district. A grand jury will be called for the northern district on September 24 and a petit jury for the Monday, following, September 30. This grand jury will consider only the cases that have orignce the new law went in

# NEW WAYS OF SERVING EGGS.

## When the Palate Becomes Tired of the Old Preparations.

There are a good many articles of lood which are digested easily, but which lack flavor and the palate easeggs, and the difficulty can be over-

come by serving them with some decided flavor. Tomato sauce, anchovy toast, stewed celery, and many other things will suggest themselves to the mind of the housekeeper who is seeking to make this easily digested nutritive food acceptable to some member of her family. Sometimes it can be flavored with a sprinkling of cheese, sometimes worked into the diet in some other form as custards. The principle in dealing with the simple foods for invalids or people who have some difficulty in nutrition is to use flavors in different forms with discretion to avoid tiring the taste and yet give the amount of nutrition necessary under cover of different

MAKES LAUNDRY WORK EASY

### Follow These Rirections and You Will Lighten Labor.

You can do a morning's work in one hour and a half by following these directions:

Put eight cents' worth of borax, five cents' worth of salts tartar, five cents' worth of powdered ammonia, and one package of potash into five quarts of boiling water. Turn one quart of water onto the potash first and let it stand until cool, then add the rest. Let the mixture stand 24 hours, and it is ready to use. This makes enough 28 states were refused licenses. With for 20 washes.

When ready to use, take one coffee cupful of the "Quick and Easy," shave half a cake of soap, and add them to your boilerful of clothes. Boil half an hour. A good rinsing in your bluing water is all that is necessary, unless some collar or wristband is very much soiled.-Harper's Bazar.

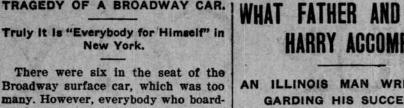

### Regenerate Salts.

Smelling salts can be made to last for years if fresh spirits are poured over the balls of salt from time to time, so as to keep up the original strength of the mixture. Many people use spirits of ammonia in this connection, but a still more powerful specific may be found in a combination of this spirit with oil of lavender, in the proportion of two parts of the former to one of the latter. In procuring the ammonia, however, care must be taken to avoid choosing aromatic spirits of ammonia in error,

would hold her own in any "fat stock show." .She has never had a drop of milk since she was four months old and has never had a mouthful of grain. A gentleman who saw her made the remark, "He bet that heifer had eaten her head off with grain," but would hardly believe she had never had any grain.

This is a great country for growing all kinds of vegetables and we are certainly enjoying our garden. The flavor of the green peas is especially fine. Last season Mrs. G. canned a lot of them, and we have enjoyed them up to the fresh crop.

I am sorry I did not have time this past season to attend to transplanting trees, but will keep the land I had prepared worked up for next season's planting. I received a number of small trees (ash and maple) from the Government Experimental Farm at Indian Head. I put them around the edge of the garden and they are doing fine. I also received quite a lot of other seeds, oats, wheat, potatoes and rhubarb roots which were acceptable.

It is useless for us to bother with garden flowers as wild ones grow in profusion. We are located near a fine creek, the water of which is soft and fine for bathing and washing. We have a well of water near the house, 32 feet deep and 21 feet of water all the time, though it is harder than the creek water.

Land which could be bought for five dollars per acre three years ago is now worth \$14 per acre and steadily advancing each year.

All kinds of improvements are going on. Steam plows and large threshing outfits are already in. Roads are being graded, bridges being built across rivers and creeks. Last year I took my family, also wagon, across the Saskatchewan river in a row boat, swam my team across and now the contract has been let for \$200,000 bridge at that place.

his desire for immediate information

in respect to this or that overdue ves-

Possibly the color scheme of the masculine individual in full dress needs relief, but the New York tailors who are going to have the clawhammer coats come in brighter hues are on the wrong track. Just let them try it if they want to have the near-swells rise up and institute a rebellion. Outside of the favored few who put on dress suits every evening, the masculine man buys only one of those harnesses, which to him are instruments of torture in a lifetime. About once every four years, perhaps, he is invited to some function where the fulldress agony is called for. Then he digs up the old dress suit, and for all he can see he looks as well as anyone when he wears it. He could see his finish if the fashions of one season called for a blue, those of the next for a green and those of the next for a magenta coat. If he raises his voice in a popular clamor there is enough of him to jar the haughty swallow tail on its throne.

In spite of the endowments of the Church of England, more than 5,000 benefices have less than \$1,000 a year, and of these 1,139 have under \$500. In order to assist the incumbents in these livings, the Queen Victoria clergy fund was started, and, as Lord Cross showed at its tenth anniversary a few days ago, it has done something -though of late the total has dwindled -to giving a living wage to the poorer clergy.

Count Boni de Castellane's perseverance in his attempts to effect a reconciliation with his wife and her family is of about the same caliber as that of a bill collector-and it is pretty likely that the motive inspiring it is the same-want of ready cash.

Men will learn after a while that ocean steamships are not front gates to parental mansions. One man went on board a liner to say good-by to the girl and he is there yet with the ship in midocean.

Maine snowshoes are the ones that will make the tracks to the North Pole, if Peary ever finds it. Sixty pairs have just been sent from the Norway factory to his island in Casco bay, where they will remain till he starts.

Word comes from Amsterdam, in the annual report of Frank D. Hill, consul at that Dutch port, that in a great diamond cutting factory three women are intrusted with the most delicate and

district. Every foot can be plowed. health which is a great blessing. When we left Chicago over a year ago acre. I sold them for 50c per bushel my youngest son's (four years of age) health was so poor that I almost de-

spaired of raising him, but he is certhis year, though we were very late tainly a hearty, healthy little fellow in seeding owing to the late spring. now. The pure fresh air has done him worlds of good.

So to sum up the whole. Why should we not be glad we made the break? A good farm, stock increasing, plenty of firewood, which we hauled health and an independent life. What four miles, we passed the winter quite | more can we expect?

Did we have to make an effort? You can bet we did and hustle, too. Should you pass this way with your shotgun this fall, we should be pleased to let we never keep fire at night, we had you shoot prairie chickens off our grain stocks.

Respectfully yours, CHAS. M. GERTS AND FAMILY.

### What the Poet Says.

After their honeymoon to Niagara. Falls they came back and settled on looked at the venerable monument in the old farm.

"Gracious, Sile!" said Cynthia, "Why are you in such a bad humor?"

"Making butter is blamed hard work," grumbled Sile, removing the beads from his brow.

"Oh, cheer up, Sile. Don't the poet say that it is 'love that makes the world go round'?"

"Yes, but, by gosh, it don't make the churn go round."

**Opening Lower Brule Indian Reserva**tion in South Dakota.

Parties wishing full information as to the character of the land, how to reach it and how to take part in the drawing in October, also information in relation to the opening of Tripp county, in the Rosebud Reservation, can secure same by sending One Dollar to Chas. H. Burke, Pierre, South Dakota, formerly Member of Congress and author of the Lower Brule and Rose-
