

STATE LIVE STOCK INTERESTS

Gov. Sheldon Calls a Meeting of Those Interested.

It is for This and Adjoining States, and to Be Held at South Omaha, Wednesday, October 2.

Governor Sheldon has officially called a meeting of all those interested in the advancement of live stock interests in Nebraska and adjoining states, to be held at South Omaha Stock Exchange, Wednesday, October 2. State Veterinarian McKim, ably assisted by Dr. A. T. Peters, of the University of Nebraska, has arranged a very fine program, and addresses will be made by the leading representatives of live stock interests in the west. The meeting will convene at 10 o'clock a. m., and will be welcomed by the Mayor of South Omaha. Dr. Peters will deliver the response.

The remainder of the program is as follows: "The Agricultural College and Experiment Station a Factor in Preventing Animal Diseases," Prof. E. A. Burnett, Dean of the Nebraska Agricultural College, Lincoln; "Co-operation with the Federal Government in Eradicating Contagious Diseases," Dr. Ramsey, Chief of Field Inspectors, Bureau of Animal Industry; "How to Keep a Herd Free from Disease," Dr. O. E. Dyson, formerly Chief of Bureau of Animal Industry, Chicago; "What the State Sanitary Board Has Accomplished for the State of Minnesota," Dr. M. H. Reynolds, Minnesota Agricultural Experiment Station, St. Anthony Park, Minn.; "What a Clean Bill of Health Means to the Stock Owner," Viewed from a Commission Man's Standpoint," response by a representative commission man of South Omaha; "The Relation of the Packer and the Commission Man to the Stockman," Hon. J. J. Ferguson, Chicago; "What Missouri is Doing for Its Live Stock Interest," Dr. D. F. Luckey, State Veterinarian, Columbia, Mo.; "Report of Sheep Scab, Cattle Mange, and Tuberculosis," Dr. Wm. F. Pfeisinger, State Veterinarian, Cheyenne, Wyo.; "The Agricultural Press and the Live Stock Interest," Hon. W. A. Hervey, Twentieth Century Farmer, Omaha; "The Needs of Nebraska," Dr. C. A. McKim, State Veterinarian, Lincoln; "Towa's Campaign Against Diseased Animals," Dr. P. O. Koto, State Veterinarian, Forest City, Iowa.

These papers will be freely discussed by the stockmen and five minute addresses on important topics relating to live stock will be given by prominent stockmen of the state.

CAKE OF DRIED APPLES.

Molasses Adds Gratiety to Flavor of the Dish.

Soak a cup and a half dried or evaporated apples overnight in cold water, then stew soft the day before using in a half cupful molasses. Cream together one cup sugar and half cup butter. Add two-thirds of a cup of sour milk, then the apples. Add next two well beaten eggs, a tablespoonful cloves, two teaspoonful cinnamon, a grating of nutmeg and three cupfuls flour sifted three times over with a half teaspoonful soda. Mix thoroughly, using the hands. Have ready one cupful seeded raisins, two-third cup currants and a little shredded citron. A few finely chopped butternut or hickory nut meats are an addition. Put a layer of the batter in a paper lined cake tin, then sprinkle in some of the fruit and nut mixture. Follow with the dough, then more fruit, and so on, having the batter at the top. Bake in a slow bread oven, covering the cake with a buttered paper if inclined to brown too fast on top.

Household Economy.

The legs from our hose, which have the feet worn, make fine stockings for baby while creeping. Yarn raveled from worn stockings makes a good rug for the dining room, when hooked through a coffee sack on which is drawn some neat but simple design. Worn bedspreads are fine for the dining table, under the tablecloths. When they no longer will do for that, then a large enough piece that is without holes may be had for baby's crib. Good goose feathers or down are rather expensive for scuff cushions. Such cushions may be filled with paper folded and cut into small strips. Wood frames that protect lawn cans which your grocery receives may be had cheap. With a small can of paint, a can of varnish, a brush, and some one to use it, one can make a jardiniere stand. Flour sifter stands, ripped, hemmed and washed, make good dish towels. Small boxes, a foot square, covered with a piece of ingrain or velvet carpet make foot stools.

Dinner Gowns.

Chiffon dinner gowns over silks of a contrasting color such as black or white over rose or green are simple, pretty and inexpensive for the autumn vacation. They have skirts made on similar lines to the soft poplins and silks, but require scarcely any lace or embroidery as trimming. The waists, preferably high, for any but very large parties, have transparent sleeves and the lining cut away about the shoulders. Pattern robes of embroidered mulls and chiffons and nets slightly spangled are also used for autumn evening frocks and may be put together by almost any seamstress if the silk lining upon which they are mounted is carefully cut, fitted and feathered. And it must be remembered that a well-made silk lining, or rather slip, of first-class quality may use time and again and is really a valuable asset in any woman's wardrobe.

How to Make Eyelets.

There's a new way of making those troublesome eyelets, discovered by a girl who is locally famous for inventing labor-saving ideas, says the Washington Star. It consists of washing the eyelet around and then cutting it from end to end and buttonholing it, making the stitches as deep as those upon the usual buttonhole, but reversing the stitch so that the edge stitches back upon the material instead of around the open edge of the eyelet. It is about one-fifth as hard to do as the usual way, and the difference in length of time is even more marked.

Brakeman Killed at Elwood.

An accident occurred at Elwood by which Charles Reynolds, aged 22, brakeman on the Burlington, lost his life. Reynolds was riding on the pilot of the engine. He fell in front of the engine and was dragged about thirty yards before it was discovered he was under the engine. He was badly mutilated and life was extinct when he was gotten out.

Bodwell Gets Appointment.

E. J. Bodwell, superintendent of the Norfolk schools and formerly county superintendent of Douglas county, has been appointed a member of the board to examine teachers for state certificates. He takes the place on the board formerly occupied by E. B. Shuman, who is now superintendent of the Kearney Industrial school.

Two Jobs Confict.

A letter has been received by Adjutant General Charles Schwarz from Private C. W. Martin of Company G, Nebraska National Guard, who is also a clerk in the Department of the Missouri of the regular army, in which Martin asks whether it is possible for him to be released from his enlistment in the guard. He has discovered a military rule which specifies that no member of a state guard may, while holding his enlistment in the guard, be an attaché of the regular army.

Revolutionist Under Arrest.

Willemsland, island of Curacao—Letters received here from Bogota announced that General Juan Pablo Lennox, the leader of Venezuela's last revolution in March of this year, who sought refuge in Colombia, has been arrested by the Colombian government at Coenta and taken to Bogota the capital.

Big Hole in the Ground.

Nebraska City—The deep well being sunk by the Oteo Development company at this point is now down 700 feet and the drill is still going through Mississippi lime stone. The work on the well has been delayed by a number of accidents, among which was the losing of the drill and the breaking of the 2,000 feet of cable. The drill has been recovered and a new cable secured. The contract calls for the sinking of the well which is a test one, to the depth of 2,700 feet and deeper if the prospects look good.

Man Who Passes Bad Draft Caught.

Fremont—G. T. Durst, who succeeded in obtaining a ticket to Denver and \$29 in money from City Ticket Agent H. B. Beller of the Union depot by means of a fraudulent draft, was arrested at Evanston, Wyo., and is now in the jail at that place. Sheriff Baldwin left and expected to bring him back without regulation papers, as Durst had said that he would come all right. It appears from the bank at Knightsstown, Ind., that issued the draft that payment on it had been stopped.

A MISSOURI WOMAN

Tells a Story of Awful Suffering and Wonderful Relief.

Mrs. J. D. Johnson, of 603 West Hickman St., Columbia, Mo., says: "Following an operation two years ago, dropsy set in, and my left side was so swollen the doctor said he would have to tap out the water. There was constant pain and a gurgling sensation around my heart, and I could not raise my arm above my head. The kidney action was deranged and passages of the secretions too frequent. On the advice of my husband I began using Doan's Kidney Pills. Since using two boxes my trouble has not reappeared. This is wonderful after suffering two years."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

KNEW VALUE OF AN OATH.

Colored Witness at Least Was Aware of Its Pecuniary Worth.

Clarence S. Darrow, the well known lawyer and essayist, discussing the Haywood trial, in which he played so prominent a part, said the other day: "Some of the evidence in that trial was so transparently false that it reminds me of a case that came off in Alabama a few years back. One of the witnesses in this case was an extremely ignorant man. As his testimony progressed, his ignorance became so shockingly evident that the judge, looking sternly down at him said:

"Look here, sir, are you acquainted with the value of an oath?"

"The witness answered anxiously: 'Judge, I hope I am. That that lawyer on yer left hand gimme six dollars to swar agin the other side. That's the correct value of an oath, ain't it, judge?'"

Horrible Method of Suicide.

Most people have at some time witnessed revolting sights, but the falling of a suicide from the cathedral tower onto the pavement, 210 feet below, into the midst of the hurrying noonday crowd, upon whose faces and clothes his exploding debris scattered itself, which was seen in Antwerp recently, bears description. A merchant known as Jacques Simons quietly left his wife and two children at home, as if to go on some business errand, made straight for the cathedral tower, climbed it, and without an instant's hesitation, hurled himself into space. History relates that no one has jumped from this tower since the suicide of its architect, to whom a popular legend of the sixteenth century attributes the same fate, small bits of brass marking the spot on the pavement where he fell.

Hindoo Defines Billiards.

John Horgan, the champion pool player, told at a dinner in St. Louis a billiard story. "Billiards is a tame amusement beside pool," Mr. Horgan began. "Two Hindoos were once discussing the game in Calcutta, and I think that their idea of it was pretty near the right one. 'What is this white man's game of billiards I hear so much about?' said the first Hindoo. 'Don't you know?' said the second. 'No. Tell me.' 'Well,' said the second Hindoo, 'billiards is a very simple game. Two men armed with long sticks poke at a ball on a green table, and one says, 'I am' while the other says 'hard lines.'" Kismet.

Kismet.

Kismet is an Arabic word meaning "fate," or "it is fated." A belief in predestination is one of the fundamental principles in the Mohammedan faith. Not only a man's fortune, but his deeds, and consequently his future reward or punishment are, according to this faith, irrevocably, and thus un-avoidably, pre-ordained—a doctrine which has contributed largely to the success of Islam by inspiring its champions with the greatest contempt for the dangers of warfare. When a Mohammedan meets with any disaster or misfortune, no matter how great, he accepts the situation calmly, merely saying, "Kismet"—"It is fated."

PUTS THE "GINGER" IN.

The Kicker of Food Used by Athletes.

A former college athlete, one of the long distance runners, began to lose his power of endurance. His experience with a change in food is interesting. "While I was in training on the track athletic team, my daily 'jogs' became a task, until after I was put on Grape-Nuts food for two meals a day. After using the Food for two weeks I felt like a new man. My digestion was perfect, nerves steady and I was full of energy. 'I trained for the mile and the half mile runs (those events which require so much endurance) and then the long daily 'jogs,' which before had been such a task, were clipped off with ease. I won both events. 'The Grape-Nuts food put me in perfect condition and gave me my 'ginger.' Not only was my physical condition made perfect, and my weight increased, but my mind was made clear and vigorous so that I could get out my studies in about half the time formerly required. Now most all of the University men use Grape-Nuts for they have learned its value; but I think my testimony will not be amiss and may perhaps help some one to learn how the best results can be obtained."

There's a reason for the effect of Grape-Nuts food on the human body and brain. The certain elements in wheat and barley are selected with special reference to their power for rebuilding the brain and nerve centers. The product is then carefully and scientifically prepared so as to make it easy of digestion. The physical and mental results are so apparent after two or three weeks' use as to produce a profound impression. Read "The Road to Wellville," in page "There's a Reason."

Boiled Onions in Sauce.

Melt two tablespoonfuls of butter, add one tablespoonful of flour; when smooth add boiling milk or cream until thick and creamy; remove from the fire, add teaspoonful of salt, a little pepper, and pour over the onions after they have been boiled in salted water.

Blackberry Mash.

Use a half cupful of water to each quart of the berries, stew and pulp them. To each quart add a cupful of cereal; cook in a double boiler 45 minutes. Mold and serve cold for breakfast with sugar and cream.

NO PLACE FOR HIM HERE.

Alabama Judge Did Not Think Deceased Would Miss Much.

"Your honor," said a prosecuting attorney in an Alabama backwoods court, "the prisoner at the bar is charged with killing one of the most exemplary citizens of this county. Thomas Jones, your honor, was in every respect a model man. He was a member of the church; he was never known to bet on horses, play poker, drink whisky or use tobacco. He—

"Hold on a minute," said the judge. "You say he never bet on a horse?"

"That's what I said, your honor."

"Never was known to play a game?"

"Never your honor."

"And he never drank liquor?"

"Never drank a drop, your honor."

"And he didn't chew tobacco?"

"Never took a chew in his life."

"Well, then," said the judge, "I don't see what he wanted to live for. There wasn't anything in life for him, and I don't see why he ain't about as well off dead as alive. Release the prisoner, Mr. Sheriff, and call the next case."

FIFTEEN YEARS OF ECZEMA.

Terrible Itching Prevented Sleep—Hands, Arms and Legs Affected—Curticura Cured in 6 Days.

"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time, and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time, and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me but they could not give me a permanent cure nor even could they stop the itching. After using the Curticura, one box of Curticura Ointment and two bottles of Curticura Resolvent for about six days the itching had ceased, and now the sores have disappeared, and I never felt better in my life than I do now. Edward Worell, Bond 30th U. S. Infantry, Fort Crook, Nebraska."

A Grievous Hint.

It was growing very late, but the young man in the parlor came showed no signs of making a home run. "You evidently have a very vivid imagination, Mr. Borem," said the dear girl, as she made an unsuccessful attempt to strangle a yawn.

"Why do you think so?" queried the unsuspecting Borem.

"I thought perhaps you imagined yourself in the Arctic regions, where the nights are six months long," she explained.

And 30 seconds later he had faded into the gloomy gloom.

Would Run No Risk.

"Darling," said the young man as he bent fondly over her chair, "I would die for you." "Well," rejoined the practical but fair maid, "the rates of insurance are pretty low. Suppose you get your life insured in my favor for \$10,000 and then die for me?" "And let some other fellow luxuriate on the insurance?" exclaimed the wise young man. "Well, I guess not."

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

How She Did It.

"Mrs. Chaffurey is always running down people when I go out with her in her auto." "Doesn't she ever get arrested?" "No, they can't arrest you for gossiping, can they?"

It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, sweating, callous, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitutes. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Few German Women Matriculate.

Only 254 women were among the 45,136 matriculated students at the 21 universities of Germany last winter.

He knows not the value of flowers who never botany.

TEA FROM THE FLOWERS.

This Product Little Known in the United States.

Tea, not from leaves, but from the flowers alone of the plant, is rarely encountered in commerce. The petals, stamens, etc., are sun dried, and the resulting tea is of a rich, deep brown hue of peculiarly delicate odor, and gives a pale amber colored infusion rather more astringent in taste than that from the average fair grade leaf. The taste for it is an acquired one, and even if this tea could be made commercially possible, it is doubtful if it would ever become popular.

The American tea trade could advantageously take a suggestion from the brick tea of the far east. In our country, the tea dust, some of which is good quality, is not properly utilized. In Europe it is a regular article of trade, and it is advertised and sold as tea dust. In America it is sold to thousands of cheap restaurants, who make from it the mixture of tannic acid, sugar and boiled milk which they sell as "tea." If, as in the orient, this dust was compressed into bricks, good tea could be made from it.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

No Trouble at All.

Mrs. Peppery—The rector of that fashionable church of yours certainly has an easy thing of it.

Mrs. Swellman—But he is a good shepherd, and—

Mrs. Peppery—Oh, it's easy to be a good shepherd when the sheep are all fat and prosperous.—Philadelphia Press.

There is more Catarrh in this section of the country than all other diseases put together, and until a few years ago was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly trying to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Dr. F. J. Cheney & Co. have discovered a new method of curing Catarrh, and it is now a well known fact that the only Constitutional cure for Catarrh is the only Constitutional cure on the market. It is taken internally in doses from 10 to 50 grains, and acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any cure it fails to cure. Send for free literature. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

For Saving Life at Sea.

An apparatus for life saving at sea has been invented by Mr. R. Lavachery, a Belgian engineer, residing at Chalmersville, Mass. It consists of a rifled cannon from which a projectile is fired; to the projectile are attached a cable, an anchor and a rocket. The mechanism is said to be very simple, and for humanitarian reasons the inventor has not patented it.

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance.

Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

Nobody Wanted Church.

When North Gosforth church, near Newcastle, Eng., which had never been consecrated, but in which services had been held regularly, was put up at auction, not a bid was made for the property.

TUMORS CONQUERED

Overwhelming Proof that Lydia E. Pinkham's Vegetable Compound Succeeds.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so insidious that frequently its presence is wholly unsuspected until it is well advanced.

So called "wandering pains" may come from its early stages or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain, from the abdomen through the groin and thigh.

If you have mysterious pains, if there are indications of inflammation or displacements, secure a bottle of Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, right away and begin its use.

The following letters should convince every suffering woman of its virtue, and that it actually does conquer tumors.

Mrs. May Fry, of 836 W. Colfax Ave., South Bend, Ind., writes:

Dear Mrs. Pinkham—

"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They had said that only an operation could help me. I am very thankful that I followed a friend's advice and took your medicine. It has made me a stronger and well woman and I shall recommend it as long as I live."

Mrs. E. F. Hayes, of 26 Ruggles St., Boston, Mass., writes:

Dear Mrs. Pinkham—

"I have been under different doctors' treatment for a long time without relief. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well woman. Lydia E. Pinkham's Vegetable Compound expelled the tumor and strengthened my whole system."

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes:

Dear Mrs. Pinkham—

"I was told by my physician that I had a fibroid tumor and that I would have to be operated upon. I wrote to you for advice, which I followed carefully and took Lydia E. Pinkham's Vegetable Compound. I am not only cured of the tumor but other female troubles and can do all my own work after eight years of suffering."

Mrs. S. J. Barber, of Scott, N. Y., writes:

Dear Mrs. Pinkham—

"Sometime ago I wrote you for advice about a tumor which the doctors thought would have to be removed. Instead I took Lydia E. Pinkham's Vegetable Compound and to-day am a well woman."

Mrs. M. M. Funk, Vandergrift, Pa., writes:

Dear Mrs. Pinkham—

"I had a tumor and Lydia E. Pinkham's Vegetable Compound removed it for me after two doctors had given me up. I was sick four years before I began to take the Compound. I now recommend Lydia E. Pinkham's Vegetable Compound far and near."

Such testimony as above is convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for Tumor Growths as well as other distressing ills of women, and such symptoms as Bearing-down Sensations, Displacements, Irregularities and Backache, etc. Women should remember that it is Lydia E. Pinkham's Vegetable Compound that is curing so many women. Don't forget to insist upon it when some druggist asks you to accept something else which he calls "just as good."

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass., for advice.

She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health.

W. L. DOUGLAS
\$3.00 & \$3.50 SHOES THE WORLD OVER
SHOES FOR EVERY MEMBER OF THE FAMILY, AT ALL PRICES.
\$25,000 (To any one who can prove W. L. Douglas shoes do not make a sell for their \$3 & \$3.50 shoes) Reward (than any other manufacturer).
THE REASON W. L. Douglas shoes are worn by more people in all walks of life than any other make, is because of their excellent style, easy-fitting, and superior wearing qualities. The selection of the leathers and other materials for each part of the shoe, and every detail of the making is looked after by the most complete organization of superintendents, foremen and skilled shoemakers, who receive the highest wages paid in the shoe industry, and whose workmanship cannot be excelled. If I
