PRESCRIPTION WHICH ANYONE CAN EASILY MIX.

Caid to Promptly Overcome Kidney and Bladder Afflictions—Shake Simple Ingredients Well in Bottle.

Mix the following by shaking well in a bottle, and take in teaspoonful doses after meals and at bedtime: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. A prominent physician is the authority that these simple, harmless ingredients can be obtained at nominal cost from any druggist even in the smallest towns.

The mixture is said to cleanse and strengthen the clogged and inactive kidneys, overcoming Backache, Bladder weakness and Urinary trouble of all kinds, if taken before the stage of Bright's disease.

Those who have tried this say it positively overcomes pain in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or ailing in a healthy manner should mix this prescription at home and give it a trial, as it is said to do wonders for many persons.

The Scranton (Pa.) Times was first to print this remarkable prescription, in October, of 1906, since when all the leading newspapers of New York, Boston, Philadelphia, Pittsburg and other cities have made many announcements of it to their readers.

The Bright Firstborn. They were discussing the law of entail—the English law bequeathing the bulk of the family property to the eldest son.

"There is 50 per cent. of logic in that law," said a physician, "and if the family property went to the firstborn, whether son or daughter, the law would contain 100 per cent. of logic. For the first born child is practically always the best—best in brain, in build, in beauty, in everything."

"Why is this so? It is because married people love one another more profoundly at the beginning than afterward; for love, like all things, grows old, grows weak, often dies."

"Mrs. Craigie—John Oliver Hobbes—was a first born child. So was Marie Corelli. So was Richard Mansfield. So were Joseph Chamberlain, Lord Kitchener, Max Muller, Henry Irving, George Meredith."

"Look back into the past, and we see again the prominence of the first-born, among them Mohammed, Confucius, Raphael, Milton, Dante, Goethe, Byron, Shelly and Heine."

To Err is Human. Robert Browning once found himself at a dinner, at a great English house, sitting next to a lady who was connected with the highest aristocracy. She was very graciously inclined, and did her utmost to make conversation.

"Are you not a poet?" she finally asked.

"Well," said Browning, "people are sometimes kind enough to say that I am."

"Oh, please don't mind my having mentioned it," the duchess hastened to say, with the kindest of smiles. "You know Byron and Tennyson and others were poets."

A Value. "Nonsense," said the high financier, "we did not sell a worthless franchise."

"But such is current report," ventured the interviewer.

"The high financier made a gesture of impatience. 'Young man,' he returned, severely, 'if you got hold of any old franchise that you could unload for two millions, would you regard it as worthless?'

"No reply being possible to this, none was made."

Too Many Islands. LARRY—Too many islands has made a lot of money and gone to spend the summer in the Thousand Islands. He invited me.

Denny—Faith, they don't see you? Larry—Bedad, he didn't see which island was OI might have to hunt over some hundred and ninety-nine before OI found him. By that time me vacation would be over.

HER "BEST FRIEND." A Woman Thus Speaks of Postum.

We usually consider our best friends those who treat us best.

Some persons think coffee a real friend, but watch it carefully while and observe that it is one of the means of all enemies for it stabs one while professing friendship.

Coffee contains a poisonous drug—caffeine—which injures the delicate nervous system and frequently sets up disease in one or more organs of the body, if its use is persisted in.

"I had heart palpitation and nervousness for four years and the doctor told me the trouble was caused by coffee. He advised me to leave it off, but I thought I could not," writes a Wis. lady.

"On the advice of a friend I tried Postum Food Coffee and it so satisfied me that I did not care for coffee after a few days' trial of Postum.

The State Capital

Matters of General Interest FROM Nebraska's Seat of Government

Commission of the Court.

A letter was received from Passenger Traffic Manager P. S. Eustis of the Burlington informing the railroad commission that the new cream rates promulgated to go into effect on November 1 must await judicial determination of the Chicago federal court. Mr. Eustis says the Burlington would gladly place the rates on its tariff sheets, and, in fact, had the new schedules already prepared, but for the order of the federal court. Now he indicates there is nothing to do but to let the courts decide.

This presents an actual conflict between the federal court and the railroad commission, and it is certain the commissioners will at once take steps to enforce their order. No restraining order of any federal court has been served upon the board, and they are of the opinion that the order of a Chicago federal judge on the Burlington has little weight in Nebraska under the circumstances. A notification to this effect will be sent to Mr. Eustis, and then the battleground will change from Chicago to the Cornhusker state.

This is practically the first order of the board that has gone far enough to enable a test of this character, and that it will be made is certain unless the Burlington changes front and decides to enforce the new tariff on cream. For each offense on the part of a road in disregarding an order of the commission the penalty fixed is a fine of not less than \$1,000 or more than \$5,000, and officers and employees of the road involved may be fined from \$100 to \$500 for each offense. These provisions are certain to be used, and prompt action on the part of the commissioners may be looked for.

Later—Notice was received Friday by the railroad commission in the shape of a telegram from Traffic Manager P. S. Eustis of the Burlington that his road would enforce the new cream rates in Nebraska beginning November 4. Friday was the time fixed by the commission for the new charges to be effective. While on the face of the situation the attitude of the railroad appears favorable, the members of the board will take steps to secure evidence of violation of their order should any occur. This means that if the commissioners ascertain that cream is being shipped at the old rate the road so offending will be amenable to the state courts for violation.

The St. Joe & Grand Island road at first accepted the new cream rates, and filed its schedules with the board, but later withdrew the new rates, giving the same reason as the Burlington.

Brief in Pure Food Law.

General Cowin, attorney for the packers, has filed a brief with the pure food commissioner in which he contests the interpretation put on the pure food law by the commissioner. General Cowin expressed the opinion that where meat packages are not stamped at all with the weight, the law has not been disobeyed. But if the weight is stamped on the package incorrectly, then the law has been violated. He calls attention to the national law and the laws of other states which are like the national law in this respect, and these provide for the stamping of the net weight when the contents is set out in the weight, he says. The law in for the purpose of preventing deceit, said General Cowin, and if the weight is not stamped on the package, then deceit is not practiced. As for stamping the weight of a ham on the outside wrapper, the brief says it is practically impossible, as the meat constantly shrinks, the wrapper is put around the ham together with the oil paper, the brief said, to prevent it from spoiling, and when thus wrapped is guaranteed for thirty days. Otherwise the purchaser buys at his own risk.

Transferred to Federal Court.

The case of Woods Bros. against the American Express company, in which they sue for \$10,000 damages for delay on a cable of funds to Antwerp, Belgium, was transferred to the federal court from the Lancaster district court, where it was first filed by the plaintiffs. The transfer was made by the defendants in the case. The plaintiffs allege that on November 2, 1905, they called to Joseph Watson at Antwerp \$0,000 francs, or \$15,486.67, to pay for thirty-six horses. The cable was so delayed that Watson was unable to ship the horses by a certain boat, and they did not reach Lincoln in time for an advertised sale at which they were to be sold.

Railroad Commissioner Williams

last week telephoned to Secretary Clark Perkins of the commission from Sargent that a large shipment of cattle was received there, on which there was due \$1,300 freight, which the consignee was unable to pay in cash because of the recent decision of the banks not to pay currency except in small amounts. The cattle were unloaded at Sargent in the railroad yards, and as feed is scarce, there is likely to be a considerable amount of liability to some one.

E. E. Brown, one of the Bartley

bondsmen, has brought suit against Robert Ryan, his attorney, for something over \$2,000, which he claims is due on a note. On one occasion \$100 was credited on the note and on another \$3,000 for legal services. Ryan was attorney for Brown in the Bartley matter and succeeded in getting him off without the payment of the bonds. Ryan claims no settlement has been made for his services and Brown owes him considerably more than the amount of the notes.

State Treasurer Reports.

Treasurer Brian has filed his report of the months' business with the state auditor. Mr. Brian is carrying as cash items warrants which otherwise would have to be registered for payment and which would draw 4 per cent interest. By taking up these warrants with money out of the temporary school fund and merely holding them until the general fund is able to take care of them, he loses the 3 per cent interest which would accrue were the temporary school fund deposited. But in the long run he saves the state 1 per cent, inasmuch as the registered warrants would draw 4 per cent interest.

Contrary to the general impression all of the Lincoln banks save one have state deposits and are paying 3 per cent interest, while in Omaha the Brandeis bank pays the state 3 per cent. At this time Mr. Brian has on hand in currency in the neighborhood of \$800. His business has always been carried on largely with checks, and he is continuing to issue checks, giving to those who need the cash just as little as possible.

Warrants issued against the temporary university fund are being registered, but usually run only a short time.

Since January 4, 1907, the state debt has been reduced \$567,211.64. January 4 the debt was \$1,841,228.40 and at close of business Thursday the debt was \$1,284,016.76. The school fund invested in bonds since January 1 has increased \$98,713.22. January 1 the school fund invested in bonds amounted to \$5,722,244.13, and on November 1, the investment in bonds amounted to \$6,716,187.35.

Pollard Preparing for Terminal Tax.

R. D. Pollard, tax commissioner of the Burlington, accompanied by his son and assistant, Frank Pollard, called on Secretary Bennett of the state board of assessment to talk over the forms to be used in assessing the property of railroads located in towns and villages under the provisions of the terminal tax law enacted by the recent legislature. While the new law will occasion much work, especially for the engineering department, Mr. Pollard said in his department he probably would need no extra help. Mr. Pollard has already had experience with the South Dakota terminal tax law, and he said while the assessors placed the value of the property plenty high, he did not know what increase would be made in the amount of taxes, because the levies had not yet been made. In Kansas a tax commission has been created which has full charge of the matter, and the railroads are yet to test this method in that state. Heretofore the local property has been assessed by a state board there, and returned to the city or village in which the property is located.

Hay Car Case Appealed.

The Northwestern railroad has appealed to the supreme court the case brought by Frank Dalney of Stuart, before Judge Westover, asking for a mandamus to compel the road to furnish five cars a day for ten days for shipment of hay. The mandamus was granted by Judge Westover. Judge Letton has allowed a supersedeas, the bond being fixed at \$2,500 and signed by R. W. McGinnis, Northwestern agent at Lincoln. The railroad claims it is not in the jurisdiction of the district court to mandamus a railroad in this way.

Overcharges by Railroads.

Secretary of State Junkin is of the opinion that overcharges have been made by the railroads on all packages of books sent to county clerks. The total sum thus realized is estimated at about \$500, as such packages have been sent to each county. Mr. Junkin has received a letter from the Burlington agent at Mullen stating that the charges on the rejected house and senate journals, were 48 cents instead of 90 cents, as at first reported. Mr. Junkin has ascertained that the charges should have been 25 cents instead of 48 cents.

Not Admitted to Home.

Because Burdette M. Cleveland of Fremont receives a veteran's pension of \$30 per month, he cannot be admitted to the Grand Island soldier's home. This was the decision made by Secretary of State Junkin and Land Commissioner Eston, who declared that the home at Grand Island was maintained for indigent veterans, and that this man's pension was too large to allow him admittance.

Missouri Pacific Reports.

The Missouri Pacific Railroad company has made its weekly report to the railway commission showing the amount of work done on the line. To October 26 ties had been spotted to the number of 106,388; ties renewed, 67,854; ties received, 63,764; ties on hand, 910; section men employed, 256. This report was for one division.

No More Special Rates.

No more special rates for parties in special cars. The Union Pacific informed the railway commission that the present plan of carrying eighteen persons in a special car was unremunerative. After this there must be first-class fares for eighteen, unless the travelers are only going one way. This will be a hard blow to the land-seekers, who are in the habit of engaging cars for the round trip. They will be compelled to pay full fare both ways.

There is not a cent of state money

in the suspended bank at Grand Island," said State Treasurer Brian, "a balance of \$4,000 was withdrawn some months ago the treasurer added because the bank demurred to paying 3 per cent interest.

It is not improbable that the

Amour Packing company will shortly begin to brand its glomerular packages and not contest the pure food law, or rather the interpretation put on that law by Food Commissioner Johnson.

TESTED BY TIME.

A Cure That Has Held Good for Four Years.

Mrs. Mary Crumlish of 1130 West Third Street, Wilmington, Del., says: "Some years ago I began to feel weak and miserable and one day awoke from a nap with a piercing pain in my back that made me scream. For two days I could not move and after that I had backache and dizzy spells all the time. My ankles swelled and I ran down dreadfully. I was nervous and had awful headaches. I wonder what any medicine could do what Doan's Kidney Pills have done for me. They cured me four years ago and I have been well ever since."

JUST WHAT HE WANTED.

Surely Here Were Musical Tastes Enough to Suit Anybody.

A gentleman of the most cultivated musical tastes, wishing to change his residence, advertised for rooms in a private family "fond of music." The next mail brought him the following reply:

"Dear Sir: I think we could accommodate you with rooms, and as for music one of my daughters plays the parlor organ and guitar; another one plays the accordion and banjo; I play the cornet and fiddle; by wife plays the harmonica and my son the flute. We all sing and if you are good at tenor singing you would fit right in when we get to singing gospel hymn evenings, for none of us sings tenor. Or if you plays the base viol we have one right here in the house. If you want music as well as rooms and board we could accommodate you and there would be no extra charge for it. Lippincott's."

FAMILY'S SKIN TROUBLES.

Eczema, Heat Rash, and Scalp Affections Affect Different Members, But Cuticura Cures Them.

"My wife had eczema for five or six years. It was on her face and would come and go. We thought we would give the Cuticura Remedies a trial. We did so and she has never had a sign of eczema for four years. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment, it would dry the heat up so much quicker than anything else. Mr. H. B. Springmire, 323 So. Capital Street, Iowa City, Ia., July 16, 1906, and Sept. 16, 1906."

Her New Hat.

"I believe Maude is weakening in her championship of the Audubon movement against bird plume hat trimming."

"What makes you think so?"

"I notice in public, especially at the theater, she is showing the white feather."

"With a smooth iron and Defiance Starch, you can launder your shirt-just as well at home as the steam laundry can; it will have the proper stiffness and finish, there will be less wear and tear of the goods, and it will be a positive pleasure to use a Starch that does not stick to the iron."

She Did Not Fear Death.

An old lady on her seventy-third birthday once said, "I do not mind getting old, and I do not fear death, but I live in constant fear of paralysis."

"For some time I have been wanting to tell you of the great good your wonderful Sloan's Liniment is doing here," writes Mr. James F. Abernethy, of Rutherford College, N. C. "In fact, all your remedies are doing noble work, but your Liniment beats all. In my eight years' experience with medicine I find none to go ahead of it, having tried it in very many cases. I know of one young man, a brick-mason, who suffered from a partial, yes, almost complete, paralysis of one arm. I got him to use your Liniment, and now he can do as much work as ever, and he sings your praise every day. I get all to use it if possibly can and know there is great virtue in it. I have helped the sale of your noble remedies about here greatly, and expect to cause many more to buy them, as I know they can't be beat."

Finance.

"Sammy," said a German-toned mother recently to her youngest-born. "When you divided those seven pieces of candy with your brother did you give him four?"

"No, ma'am," replied Sammy, "I knew they wouldn't come out even, so I ate one before I began to divide."—Harper's Weekly.

A Slight Misapprehension.

"Your party just now is rather in an unbecoming condition, isn't it?"

"Not at all—not at all. It only wants a leader."

Slight Misunderstanding.

They had engaged just seven-tenth minutes by the clock, yet for the last three-sevenths of that period there had been a proud, scornful look upon her fair face that was calculated to wither the orange blossoms.

"I can't imagine, dear," he said, sadly, "what has come over you so suddenly. I simply asked if you were romantic, when—"

"Oh, George, forgive me!" she exclaimed, with a convulsive sob, as she threw her arms about his neck, "I thought you asked me if I was romantic."

No Decoration Required.

It was Mr. Hobart's first experience with waffles, and he liked the taste of them. When he had been served twice, he called the waiter to him and spoke confidentially.

"I'm from Pokenville," he said, "and we're plain folks there; don't care much for style, but we know good food when we get it. I want another plateful of those cakes, but you tell the cook she needn't slip to put that fancy printing on 'em; just send 'em along plain."—Youth's Companion.

New and Liberal Homestead Regulations in

WESTERN CANADA

New Districts Now Opened for Settlement. Some of the choicest lands in the grain growing belts of Saskatchewan and Alberta have recently been opened for settlement under the revised Homestead Regulations of Canada. These lands of homesteads of 160 acres each are now available. The new regulations make it possible for entry to be made by proxy, the opportunity that many in the United States have been waiting for. Any member of a family may make entry for any other member of the family, who may be entitled to make entry for himself or herself. Entry may now be made before the Agent or Sub-Agent of the District by proxy, in certain conditions, by the father, mother, son, daughter, brother or sister of intending homesteader.

Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 2 and 3, not reserved, may be homesteaded by any citizen of the United States, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

The fee in each case will be \$20.00. Complete, accurate and convenient. Healthful, of fine, splendid crops and good lands. Grain-growing and cattle-raising principal industries. For further particulars as to rates, routes, best time to go and where to locate, apply to
