

Our Loans.

The loans of this bank amount to about \$160,000, which is being used by good, responsible business men and farmers of this community.

This entire sum is only a part of nearly \$200,000 of money that belongs to our depositors. \$35,000 of capital stock and surplus besides undivided profits, and private resources of stockholders.

In this way, our bank serves the community in a two-fold purpose; safe-guarding their wealth and loaning it out to produce more wealth for the community. This bank has never failed to take care of the needs and interests of its customers, whether depositors or borrowers.
