WHERE ROBE WOULD COUNT

Under Friendly Cover Preacher Might Safely Proceed to Split His Infinitives.

"I tried to get a chance to speak to you at church Sunday," said Mrs. Oldcastle, "but the crush was so great that I couldn't push through to where you were." "Yes, wasn't it awful?" replied her hostess, as she beckoned a bit of dust from the Gobelin tapestry. "All the common folks in town seem to want to crowd into our church lately. It's too bad they ain't satisfied to stay where they belong. How did you like the sermon?" "Well, as a sermon it was fairly good, but I do wish Doctor Goodman would quit splitting his infinitives. I try not to let it make me nervous, but I can't keep from being shocked every time he does it." "I never let these kind of things bother me, but that's where the Episcopalians have the advantage of us. If our preacher would wear a long robe he could split them and we would never notice it."—Kansas City Star.

Our Hebrew Fellow Citizens.

It is said that the total number of Jews in the United States is now not less than 1,600,000, and may reach a total of 2,000,000. There are about 1,600,000 Jews in New York city, 180,000 in Chicago, and 100,000 in Philadelphia. Several other American cities contain from 20,000 to 50,000 Jews. Throughout the south in the largest towns the Jews are coming to exercise so much influence as factors in the business world, and the positions of influence occupied by many of the people gives the race a power far beyond what might be indicated by its numbers. It is said that there are about 2,000 Jewish lawyers and 1,000 Jewish physicians in New York city. Jews own some of the greatest daily papers in the country, such as the Philadelphia Public Ledger, the New York Times, World and Press, the St. Louis Post-Dispatch, and the Chattanooga Times.

Gentlemen Two.

Two street cleaning department men were having an altercation as they were driving their carts side by side along upper Broadway the other afternoon. One was red-faced and hulked-out, the typical "rummy." The other was an address-headed negro. Both looked utterly disreputable. "Get out of my way!" yelled the red-faced man. "Don't ever know enough to get out of my way when you see a gentleman?"

"I'm more of a gent'leman than you, you big run," retorted the negro. "You'll drive a garbage cart, an I only picks up ashes."—New York Press.

The Doctor's Data.

A Howard girl who was uncertain as to her exact age, as her father and mother were not agreed on the year of her birth, decided to go to the physician who "attended the case." He said: "Why, certainly, my dear girl, I'll go and examine my old books." When he came back to report, he said: "I find your father charged with a girl baby born on the 'teenth day of April, 189—, and I also observe he still owes me for you."—Howard (Kan.) Courier.

Explaining the Soul.

The following dialogue took place between two very small boys on their way home from Sunday school: Willie—Where is my soul? Bobby—It isn't any place, it's just air. Willie—How can it go to heaven when it's just air? Bobby—Why, your body goes, too. Willie—How and all? Bobby—Yes, everything but your clothes.

A Witty Bishop.

"The late Bishop Fox," said a Philadelphia physician, "once visited me for some trifling ailment. 'Do you, sir,' I said to him, in the course of my examination, 'talk in your sleep?' 'No, sir,' he answered, 'I talk in other people's. Aren't you aware that I am a divine?'"

Comfort and New Strength

Await the person who discovers that a long train of coffee ails can be thrown off by using

POSTUM in place of Coffee

The comfort and strength come from a rebuilding of new nerve cells by the food elements in the roasted wheat used in making Postum.

And the relief from coffee ails come from the absence of caffeine—the natural drug in coffee.

Ten days trial will show any

"There's a Reason" for POSTUM

SCARCITY OF DESIRABLE STOCKERS AND FEEDERS

Important Feature of Cattle Trade in These Days Is Lack of Cattle of Right Kind in Many Western States—Value of Feeding Ensilage Is Clearly Shown.

A prominent feature of the trade in stockers and feeders these days is the scarcity of desirable kinds and the poor quality of the rank and file offerings. General complaint is made by prospective buyers that they are unable to secure anywhere near the number of either stocker or feeder cattle of a desirable class, although they seem willing to pay the prevailing prices for them. And there seems to be no relief from this condition in the near future. The run of western hay feeds for this season is near an end. Many states that are usually sellers at this time of the year are buyers now. The shortage seems most pronounced

with light feeding of concentrates at first, and increase them as their condition will indicate. Thirty pounds of silage per day is about right for young cattle growing rapidly, and for roughing corn fodder and hay, with silage morning and night. It is suggested by good feeders that while there is a considerable amount of corn in silage, it is still necessary to feed some grain along with it, for we must remember that the grain in the silage is not concentrated, as in the case of the mature corn. Give the animals the same amount of cover hay and whatever roughness in the form of stover or corn fodder they will consume. In the beginning

Angus Steer, Black Rock.

In Iowa, Illinois, Indiana, Wisconsin, Minnesota and South Dakota, the states that usually ship many thin cattle to the Chicago market. Advice from South St. Paul, Sioux City, Kansas City and Omaha are to the effect that the desirable stockers and feeders are also comparatively scarce there. Bulk of the thin cattle coming to Chicago consist mostly of common, light stockers from the dairy and other districts.

Purdue university has shown very clearly the value of silage in feeding beef cattle, and Indiana has become noted for its beef cattle growers with part corn silage. During the winter season the cattle in addition to silage should have two parts of cottonseed meal and one of corn. Commence

it better to feed a larger proportion of cottonseed meal, say perhaps at the rate of two-thirds cottonseed meal and one-third corn or corn and meal.

As the season advances these proportions should be reversed. Keep the animals growing for the first three months of the feeding period and during the last two or three months finish them. If we attempt to feed corn straight from the beginning they will not grow as well, nor will they gain as rapidly as if fed a larger amount of a concentrate rich in protein and a smaller amount of corn.

The Angus steer shown in the illustration was one of the grand champions at the Chicago International Live Stock show. He was fed and exhibited by the Iowa State college.

INDIVIDUAL HOUSE FOR HOGS

The type of hog house illustrated herewith is one of the very best for combined winter and summer use. It is warm in winter and airy in summer. When the sides are raised as shown, excellent shade is furnished for the pigs, says American Agriculturist.

PLANNING FOR HOME GARDENS

Procure Well Known and Thoroughly Tested Varieties of Seeds and Those Best Suited to Locality.

(By HESSIE L. PUTNAM) The selection of seeds should not be delayed until congested mails render the delivery too slow to enable one to plant early. For whether for home use or marketing, the earlier a vegetable can be secured, the greater its value to us.

If for home use, the season is thus prolonged; if for the market, the cash value represented is greatly increased. Before ordering, look over your own supply carefully, and note what seeds are lacking; what are so old that vitality may be impaired—and replace all doubtful ones with new seed. Select a reliable firm. Cheap seeds are too often a bitter disappointment.

If you have saved beans or peas and find them infested with weevil, treat with carbon bisulphide or destroy. Never plant them to scatter the insects broadcast.

Onion seed is one of the most difficult seeds to secure in a fresh state. For early use, the "sets" are preferred; and for very early the winter or "top onions" are always welcome.

Not every one recognizes the fact that there are two distinct types of lettuce, the cabbage or heading varieties, and the curled or loose-leafed sorts. For the entire season Improved Hanson is one of the best, being slow to run to seed, hence adapted to summer use.

Beets may be sown in the open ground early, but are more fastidious, liking a rich, mellow soil.

While the main crop of turnips may go into the corn field after the last cultivation, a few in the garden for early use will be appreciated, the

means. When many of one kind of animals are kept on the farm the more they can be segregated the healthier they will be and the better gains they will make on their feeds. The "colony plan" on the pig and hog farm is a good one. Cholera among hogs and cholera among poultry is less liable to break out and spread, and is more easy to handle, with a few animals in each of a number of lots than with many animals in a single lot.

Early White Snowball being one of the best.

Among parsnips, the Long Hollow Crown is still a standard variety.

Among beans, individual taste will dictate largely. Lightning is the earliest of early, and an excellent green podded snap bean. The Yosemite Wax is a giant podded sort with rich golden pods and bears in profusion throughout the entire season.

The Gradus is the best early pea, the pods and their contents being almost as large as those of the later varieties. Bliss' Everbearing is a profitable second early, and for the main crop the Champion or England still heads the list.

Honest to a Feather.

Are our standards high enough? At the poultry show you may examine the birds and pronounce them faultless. Yet had you seen those birds on the owner's grounds a few days previous, you had detected flaws. Perhaps you had seen the preparations for the show by the plucking of wrong feathers.

But that will not make a pure bird. It may be faultless in form, style, weight, but the tail-feather shows that it is not pure bred.

And what is the result when a new breeder buys this seemingly faultless chicken? Disappointment, of course—with a lot of more or less big birds.

PRaises BIG PHILANTHROPY

President Schurman of Cornell Thinks Well of Rockefeller Foundation.

Ithaca.—John D. Rockefeller's philanthropic scheme, which the Rockefeller foundation bill, now pending in congress, proposes to incorporate was commended by President Jacob G. Schurman in an address before the Cornell congress Friday night. In summing up an exhaustive discussion of the measure, President Schurman said:

"I recognize that section No. 2 of the bill, which defines the object of the Rockefeller foundation, authorizes and empowers that foundation to do anything and everything which may promote and advance human civilization, that is to say, morals and religion, art and science, manners and social intercourse, and all that concerns the political, economic, and material well being of individuals and communities. This is a vast field for the exercise of philanthropy.

"But Mr. Rockefeller has conceived a vast scheme of philanthropy, for the benefit of his fellow citizens and mankind. His character, ability and organizing skill are adequate guarantees that he will carry out his scheme wisely and successfully, with incalculable benefit and blessing to mankind. It is in the interest of the nation that he be given a free hand in the exercise of his colossal beneficence. So long as he is active or his influence remains it would be wise and safe to give the foundation the sort of organization he desires. Neither now nor hereafter does it seem necessary to limit the scope of his beneficence, which is coextensive with the efforts of mankind to attain a higher civilization.

"The only change I would desire to see in the proposed bill is the total or partial elimination of the method of selecting trustees by co-operation. The organization might well be left a close corporation, if Mr. Rockefeller so desires, for a generation. But after that time I am confident that it would insure both to the efficiency of the foundation and to the public welfare—to say nothing of the satisfaction of the sentiment of a democracy—if the majority of the trustees were appointed by the president of the United States, with the advice and consent of the senate, or selected by some other high abiding, governmental agency that may fairly be regarded as representing the people of the United States, whose welfare is the primary object of the immense and glorious benefaction."

HOT WAVE IN NEWFOUNDLAND

Temperature Reaches 85 Degrees in Shade Where Freezing Weather Usually Prevails This Time.

St. Johns, N. F.—Record-breaking temperatures have accompanied a hot wave that has been experienced on the west coast of Newfoundland for the last few days.

At points where the usual temperature at this season of the year would be below freezing the thermometers have registered as high as 85 degrees in the shade.

These figures are unprecedented in the history of the colony.

SHIPS COLLIDE, ONE SINKS

Two Schooners Crash in the Night Off Fortune Bay, N. F., and One Founders—Crew Saved.

North Sydney, N. S.—A collision in the night off Fortune Bay, N. F., of two Newfoundland schooners, the Edna Carter and the Victoria, by which the former vessel was sunk, was reported. For two hours the two vessels hung together with their rigging entangled, and it was feared both would founder. After they were cut apart, the Edna Carter went down. Its crew escaped to the Victoria.

BIG DAM SLOWLY BURNING

Lowlands of Mississippi Below Brainerd, Minn., Are Imperiled by Fire—People Desert Homes.

Duluth, Minn., April 25.—The lowlands on the upper Mississippi river for fifty miles below Brainerd, Minn., are imperiled. The big Weyerhaeuser dam, holding back immense head water in the height of the manufacturing season, is slowly burning. Its center piers were afire when the last word was received from there.

The city water plant was destroyed by fire of unknown origin. The city is dark, water service paralyzed and the citizens reported panic-stricken. Residents of the lower quarter have deserted their homes, couriers report, and women and children line flame-lit banks, while the men fight the fire hopelessly with buckets.

The Northwest Paper company's pulp plant was catching afire when the last mounted courier left Brainerd downstream to warn settlers to flee to the surrounding hills.

DANCERS SAVE 60 PEOPLE

Men and Women in Ball Costume Arouse Occupants of Apartment House—Woman Injured.

Chicago, April 25.—Sixty persons were rescued from the Cleidan apartment building, 740-46 East Forty-fifth street, by an evening dress brigade of men and women attending a house party near by, when fire attacked the big building. One woman, Mrs. E. E. Ballard, was burned probably fatally, and several others had narrow escapes from death.

N. Y. CITY HAS DRY SUNDAY

Saloonkeepers Obey Letter of Mayor's Order, But Smash the Spirit—Sell in Back Rooms or Homes. New York, April 25.—The city was "dry" yesterday than on any Sunday since Mayor Gaynor took office, but a third well-informed citizen with a thirst could satisfy it, if he went about it the right way. All saloonkeepers lived up to the letter of Mayor Gaynor's order that all bars must be exposed, but in some instances back rooms did a thriving business.

JOHNNY REMEMBERED.

Doctor—Now, Johnny, stick out your tongue and let me see it. Johnny—Not on your life. The last time I stuck out my tongue at you I got a lickin' for it.

AWFUL BURNING ITCH CURED IN A DAY

"In the middle of the night of March 30th I woke up with a burning itch in my two hands and I felt as if I could pull them apart. In the morning the itching had gone to my chest and during that day it spread all over my body. I was red and raw from the top of my head to the soles of my feet and I was in continual agony from the itching. I could neither lie down nor sit up. I happened to see about Cuticura Remedies and I thought I would give them a trial. I took a good bath with the Cuticura Soap and used the Cuticura Ointment. I put it on from my head down to my feet and then went to bed. On the first of April I felt like a new man. The itching was almost gone. I continued with the Cuticura Soap and Cuticura Ointment and during that day the itching completely left me. Frank Gridley, 325 East 43rd Street, New York City, Apr. 27, 1909." Cuticura Remedies are sold throughout the world; Potter Drug & Chem. Corp., Sole Props, Boston, Mass.

Didn't Drink the Stuff. Two Kentucky colonels were showing an Englishman what a wonderful country the south is. When the Briton had traveled from Baltimore to New Orleans and from the Atlantic to the Mississippi, he said: "Yes, the south is a fine country, but you have no industries here."

"No industries," retorted Colonel Smith, with indignation. "Why, sub, Robinson, in Kentucky, has a dairy where he produces a million pounds of butter and a million pounds of cheese a month."

"Impossible!" said the Englishman. Colonel Smith turned to his fellow for corroboration. "I don't know how much butter and cheese Colonel Robinson produces a month," said the second Kentuckian, "but I do know that he has 12 saw-mills and he runs them all with buttermilk."—Circle Magazine.

At or About This Time. "Why do they call them ocean liners?" she asked.

"They're getting new terms every day," he said, without looking up from the sporting page. "I never heard it before, but an ocean liner is probably a hot one that isn't inflected well and rolls into a puddle or something."

She made no answer, but when he had gone to business she phoned the doctor about him.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed it has a tendency to close, and the hearing is impaired. In such cases, Dr. Williams' Pink Pills for Pale People will cure the inflammation, and the hearing will be restored to its normal condition. Hearing will be destroyed forever, unless it is taken out and the tube restored to its normal condition. We will give One Hundred Dollars for any case of Deafness cured by Dr. Williams' Pink Pills for Pale People. Sold by Druggists.

Of Another Feather.

"Did you folks want any aigs today?" called the grocery boy from the back steps.

"Yes," answered the cook who was busy kneading dough. "Just lay 'em under the refrigerator."

"I ain't Hen; I'm the other boy," shouted the lad from the grocery.—Chicago Post.

His Face Was Turning Yellow

Someone told him that salinewass was caused by an inactive liver. He began taking NATURE'S REMEDY, his natural color returned, his brain cleared, his liver was again active. NR tablets never fail to correct the liver, they remove the bile, aid digestion and tone the system. Better than Pills for Liver Ills. Take one tonight and you'll feel better in the morning. Get a 3c Box. All Druggists. The A. H. Lewis Medicine Co., St. Louis, Mo.

Domestic Notes.

"I've noticed one thing." "And what is that?" "When one gets loaded it's usually his wife who explodes."

Red, Weak, Watery Eyes. Relieved by Murine Eye Remedy. Try Murine For Your Eye Troubles. You will like Murine. It Soothes. See at Your Druggist. Write For Eye Book. Free. Murine Eye Remedy Co., Chicago.

There's nothing in it for the under-aker when a man is buried in oblivion.

Lewis' Single Binder, straight 5c—many smokers prefer them to 10c cigars.

Let each man think he is the one man—for the time.

A Reprimand.

Mrs. Brown was on her way to prayer meeting, and as she passed the Jones' home she saw Bobby sitting on the porch.

"Aren't you afraid out here alone, Bobby?" "I'm not alone," was Bobby's answer.

"Who is with you?" asked Mrs. Brown. "Now, Mrs. Brown," said Bobby impressively, "if you was a good woman, you would know who was with me."

His Finish.

"He struck a fast gait when he first went into pediatrics." "And now?" "Now he is on the fence." Even a truthful man is occasionally guilty of exaggeration.

All Tired Out.

Do you feel dull, occasionally—out of sorts? Headaches and Dizziness? The fault is either with your stomach or your liver. The safe, sure and easy way to get rid of either trouble is to take NATURE'S REMEDY. Take an NR Tablet to-night—it will sweeten the stomach and regulate the liver, kidneys and bowels. Easy—sure to act. Get a 3c Box. The A. H. Lewis Medicine Co., St. Louis, Mo.

The Man Lower Down.

"The beef trust doesn't worry me any." "What then is your worry?" "The marketman who won't trust."—Boston Herald.

Peter J. Davis' Fainkiller

"An ounce of prevention" is as well as a pound of cure. For travel troubles, skin wounds, cuts, and other ills, see and use Davis' Fainkiller.

Poetical Truth.

Man, thou pendulum betwixt a smile and tear—Byron. Lewis' Single Binder, extra quality tobacco, costs more than other 5c cigars. The signature on a check is a sign of prosperity.

A Sad Case.

"Do you prefer your eggs poached or scrambled?" "I can't remember."

W. L. DOUGLAS \$5, \$4, \$3.50, \$3 & \$2.50 SHOES

For Infants and Children.

The Kind You Have Always Bought Bears the Signature of

Dr. J. C. Watson

In Use For Over Thirty Years

CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible

rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 & 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Standard Oil Company (Incorporated)

Honored by Women

When a woman speaks of her silent sufferer, she trusts you. Millions have trusted this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonderful, curative power of Dr. Pierce's Favorite Prescription—which saves the suffering woman from pain, and successfully grapples with woman's weaknesses and stagers ill.

IT MAKES WEAK WOMEN STRONG IT MAKES SICK WOMEN WELL

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice to the WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.
