#### 16 YEARS OF SKIN DISEASE

"For sixteen long years I have been suffering with a bad case of skin disease. While a child there broke out a red sore on the legs just in back of my knees. It wared from bad to worse, and at last I saw I had a bad skin disease. I tried many widely known doctors in different cities but to no eatisfactory result. The plague bothered me more in warm weather than in winter and being on my leg joints it made it impossible for me to walk, and I was forced to stay indoors in the warmest weather. My hopes of recovery were by this time spent. Sleepless nights and restless days made life an unbeurable burden. At last I was advised to try the Cuticura remedies [Cuticura Soap, Ointment and Pilis] and I did not need more than a trial to convince me that I was on the road of success this time. I bought two cets of the Cuticura Remedies and after these were gone I was a different man entirely. I am now the happlest man that there is at least one true care for skin diseases. Leonard A. ### **GOVERNOR OF CALIFORNIA**

Sport lovers throughout the country are for James Norris Gillett, governor of California, especially those who look with favor upon the art of self-defense. The governor has said that he sees no reason to prevent the fight for the world's championship between James J. Jeffries and Jack Johnson which has been scheduled for July 4 in California, hence the sports are for him.

"As long as they keep within the law, and I believe they intend to do so, I shall not interfere with the bout, no matter what the church people may urge," said the governor a few days ago. It took some nerve for a governor to say a thing like that, but Governor Gillett has shown before that he has plenty of nerve when it comes to deciding a state question.

Little more than a year ago there was quite a muss out on the Pacific coast because the school authorities of San Francisco had barred some big Japanese boys from the schools attended by small American children.

Japan's ambassador reported the matter to his country and the affair reached Washington through diplomatic channels. The California legislature was in session and a bill was introduced which would have kept Japanese and Chinese children out of the schools. Some prominent members of the and crookedness rampant among us. legislature were behind the measure and it looked for a while as if Callfornia might do something that would bring on a war with Japan.

Colonel Roosevelt was president and he got busy with Governor Gillett. The wires were kept hot for a few days and the governor did everything in his power to carry out the wishes of President Roosevelt. He was so successful that after it was all over Rooseveit wrote him a letter commending

While in the east recently in the interests of the Panama-Pacific exposition, planned for San Francisco in 1915, the governor said: "From the questions that have been asked me everywhere I have been the reply,

in the east I have come to the conclusion that there is more interest in the fight than in the return of Theodore Rocsevelt, the happenings in the national congress, the death of King Edward or the movements of the comet." Kerby might have worked on and on for years as a stenographer in Washington without anybody outside of his own circle of friends knowing of his existence, had it not been for the Pinchot-Ballinger fight. Uncle Sam has several thousand stenographers working for him in Washington and Kerby hadn't done anything to distinguish himself until along came the said fight.

All at once Mr. Kerby got his name into the papers in black type. You will notice he spells it "Kerby," not "Kirby." Some of the papers got it wrong the first day, but they corrected it the next. Of course after Mr. Kerby had given to the newspapers the statement that Assistant Attorney General Lawler wrote for President Taft the letter which cleared Secretary Ballinger of the charges made by Glavis there wasn't much chance for Mr. Kerby to remain in the employ of your Uncle Samuel. The president came out and said it wasn't true, thus putting Mr. Kerby in the Ananias club.

Then Mr. Ballinger wrote a letter discharging Kerby and accusing him ethics. ### **ENVOY WHO WANTS TO RETIRE**

Right Hon. James Bryce, O. M., ambassador extraordinary and plenipotentiary from Great Britain, according to a report received from London a few days ago has asked to be relieved from duty in Washington. The death of King Edward is said to have had a crushing effect on the embassador and he fears he may not be able to stand the strain of work under the new regime.

Since Ambassador Bryce has been in this country he has made many friends. Few men are better fitted for such an important position. His recent visit to Kansas City gave an indication of the care he has always taken to be careful of what he has to say of affairs in this country. When a newspaper reporter was introduced to the envoy, Mr. Bryce remarked pleasantly:

"An ambassador or a diplomat never talks to a When the feet are burning, alcohol newspaper reporter without cause for regret. Not that it is any fault of is one of the best tonics for them. It the reporter or the newspaper he represents, but that the diplomat should

### HEADS WOMEN'S FEDERATION

Mrs. Phillip N. Moore of St. Louis has been reelected president of the General Federation of Women's Clubs. It has been the case of most women's organizations to consider one term enough for a president. Little jealousies have arisen in their clubs that led to bitter quarrels and a change of administration, but the ability and charm of Mrs. Moore have carried her past such things and she won with flying colors.

She had opposition, it is true, but in this great free republic it is the right of any citizen to run for president of the United States if he so wishes, consequently there was nothing to prevent any member of the federation seeking the presidency. This opposition dwindled away to almost nothing. when Mrs. Moore, a few days before the election at the convention in Cincinnati had the misfortune to fall and fracture her ankle. The womanly heart of all the delegated

was touched at once and some of those who might have voted against Mrs. Moore immediately turned to her banner and cast their ballots for her. Mrs. Moore is an Illinois woman. # Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in consed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifice and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "Just as good," It is probably better FOR HIM---it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.
