The rainfall for Loup City for the months of June and July was 2.46 inches, according to E. S. Hayhurst, our weather man. This is 1 1/2 inches less than for the same months last year. There was less moisture in July of this year than in July of last year and more in June of this year than in the June preceding.

Hans Thiesen, the Danish wrestler, who went from here to Ord, seems to be winning laurels in our sister city. Last week he placed a Burwell man on the mat after 44 minutes of good work and the Burwell man refused to continue the exercise, giving up the contest with the remark that the Dane was too much for him. Thiesen has gone east and into training for scheduled future events.

A. O. Hall of Molina, Co. O. last Thursday joined his wife here, where she has been visiting her parents, Mr. and Mrs. B. T. Snyder. He will visit here for some time. Mr. Hall and Mr. Snyder left Monday morning for Garfield county to look over the country.

Ed Manchester was Tuesday from the North Loup country, Tuesday, looking after his taxes. Ed says his section is doing very well, while it could stand much more moisture, while a good deal of the country in and around here have been getting plenty of crop inspiration from above.

Mr. Rub of the Keystone received his household goods yesterday and will occupy the Enevoldsen house formerly occupied by the Northwestern family and later by Jang's baker, the latter moving into the residence vacated by Claude McCall, who moved into the house vacated by B. Pagelet.

This month started in all right on Monday night, the 1st, gave a fine half inch of rain south in the Wiggle Creek country; Tuesday evening, the 2nd, brought another dandy wet effect, covering the country to the north. As it rained in the hands of a husky man, laid with a vim on the back of such a dastardly creature would be small punishment.

Death of George Gilbert

Last Monday morning, Aug. 1st, 1910, Mr. George Gilbert, one of the oldest pioneers of Sherman county, passed away at the home of his sister-in-law, Mrs. Abbie Gilbert, in Webster township. Uncle George had been in ill health for a number of years and his death was not unexpected. He was born in New York state in June, 1833, and was thus in his 77th year at the time of his death. He moved from New York to Iowa, where he lived in the early 50's, married and thence in the early 70's to Nebraska and Sherman county, where he has since lived. He leaves two daughters, Mrs. Alice Eyster of Keystone, this state, who arrived Tuesday noon, and Mrs. Clara McCall of this city, and his brother, James Gilbert, the soldier, who died at Marshalltown, Iowa, who is ill in the hospital there and unable to come here to attend the last rites. Outside of these he had no near relatives, his wife dying some years ago. The funeral occurred from the residence last Monday afternoon, the day morning at 10 o'clock, the services being conducted by Rev. Miller, a retired minister living in Webster township, burial being in Sunny Slope cemetery. Deceased had made his home with Aunt Abbie Gilbert thence as Illinois where he declined several years, where he had received the best care and his every want supplied, and to whom will be given the grand reward of a duty well done.

Animal Hurt on Disc

The saying that it is always the most valuable of our possessions that suffer accidents, proved true last Thursday noon at the farm of Milo Gilbert in Webster township, when one of his best mares was badly hurt. The team had just been unhitched, when the mare stepped backward into the disc, severing two tendons in one leg and one tendon in the other. It is thought the animal can be saved.

Kicked by Vicious Horse

Last week Wednesday, while Frank Brewer was driving his gray mare up the valley some five miles north, the animal became frightened and kicked the buggy to pieces and incidentally landed four hoof prints on Frank's left leg, from the effects of which he is compelled to use crutches in order to navigate. Being near the home of W. R. McCullough, he managed to reach there and was brought to town, where he has time to ruminate over the impressions made upon his overburdened back.

Nearly Dragged to Death

While riding horseback after the cows last Sunday morning, the 13-year-old son of Ed Flynn on Wiggle Creek was thrown from the horse, his foot being caught in the stirrup and was dragged some forty rods before getting loose. The lad had two ribs broken and was badly cut about the head and face, a number of stitches being necessary to sew up the wounds. He was also bruised over the entire body and is at present in a rather precarious state at the home. It is to be hoped he may pull through all right.

Aeroplane Stunt

C. J. Tracy's little black team furnished a lively item last Saturday evening. They were tied to a telephone pole in Sweetland's yard when becoming restive they broke loose and started for home. Near the A. E. Chase residence they attempted to turn the corner too short, landing the wagon upside down and themselves on their backs with their feet in the air. They had evidently heard of the Curtiss flights at Omaha and concluded they might cut a swath in the same line. No damages.

Lightning Changes

Whenever a newspaper is short an item or so he can generally find one in a change in the barber shops of the town. There has been a dozen or so change the past few months. Another change occurred Tuesday of this week, Claude McCall selling his shop to the Smalley Bros. Mr. McCall does not know his future move, but says he will rest for a season, having been suffering of late with stomach troubles. Later yesterday the latter re-sold the shop to A. B. Young, a first-class barber from Grand Island. We are trying to keep up with the procession of barberic changes, even if it takes the hirsute kiver off.

Factory for Loup City

J. I. Depew last week purchased an acre of land of Ohlsen Bros. near their brick yard, between the B. & M. and U. P. tracks, on which he will build a machine shop and warehouse, 60x80, in which to build and store his product of Depew Disc Sharpeners. He is undecided as yet whether to build of cement, brick or lumber. For some time Mr. Depew has been undecided whether to build his shops here or at some other point, having been in communication with the commercial club of Lincoln and other trustees. We are glad to note that Loup City is to gain the location, which means much to this city.

Back to God's Country

A. B. Chapman and family, who left here some months since, going to Wyoming to make their home, returned here last week, plenty satisfied to leave that arid region for good for themselves. They formerly lived near Hazard, and answered the call of the wild, purchasing some forty acres in an irrigated section of Wyoming. This spring water gave out in his new home, the ditches being supplied from the headwaters of the Platte, leaving some 20,000 acres of country high and dry, on which not even a spear of grass would grow and Mr. Chapman left his little farm and came back to God's country. Mrs. Chapman is a daughter of Mr. and Mrs. S. A. Pratt.

Wife-Beater Nabbed.

Some little interest was created in Loup City Monday afternoon by the arrival of an auto from Ord, driven by a man who had given the necessary bail bond to a wife beater at Ord, and making a getaway. The auto man found Sheriff Sutton here on a visit, and learning the said wife beater was at Rockville in charge of the marshal of that village, took the sheriff with him on a hurried trip to Rockville, found the specimen and gave him a ride back to the scene of his dastardly act. If there is any semblance to a human being worse than a fellow who will whip his wife whom he has sworn to love and cherish, we have not heard of him. As it is time to take in the net of a husky man, laid with a vim on the back of such a dastardly creature would be small punishment.

TEACHERS ARE HERE

Successful Institute in Session

The annual Sherman county teachers institute opened in the Loup City high school room on Monday morning of this week. In spite of very hot weather, the attendance has been good from the start. Supt. Hendrickson has arranged a rich program of good things for the teachers and as usual they seem to appreciate his efforts to bring them helpful suggestions. Special emphasis is given to civics, geography of Nebraska, mental arithmetic and agriculture, in order to help all teachers and students who are weak in these lines.

Supt. E. L. Rouse, who has charge of the local school department of the Peru State Normal, and who is here for his third time, conducts the classes in mental and written arithmetic, geography, history and civics. He is in demand everywhere as an institute instructor and is called upon to contribute articles to the leading educational papers. His work is practical, helpful and inspiring.

Prof. J. W. Searson returns this year for the fifth time to give a series of lectures on agriculture, reading and school management. Mr. Searson leaves the Peru Normal to accept a call to the position of principal of the Agricultural College at Manhattan. The teachers have always received his work kindly.

Miss Winnie Outhouse has presided at the organ and has proved an excellent musical leader. Under her direction, special music is furnished for the afternoon sessions.

A number of prominent outside visitors attended the institute this week, among whom were Prof. Mercer of Kearney, J. W. Wilson of Chicago, Supt. E. D. Leachman of Woodward, and Supt. J. B. Gibson of Gibson.

Supt. Hendrickson has made complete arrangements for carrying on the reading circle work of the county. Sherman county has kept abreast of the best movements of the state in this regard.

A number of visitors from the city and from over the county have called at the institute during the week.

The attendance has passed the 60 mark, the largest attendance at the county institute for many years. Extra chairs have had to be placed in the assembly room to accommodate teachers and visitors.

The visiting teachers have been given some time each day to visit places of interest in and about Loup City. The program has been arranged to permit the teachers to get some rest and profitable recreation along with their work.

Supt. R. D. Hendrickson has proven courteous and accommodating to teachers at all sessions of the institute. The teachers generally have approved his plans and have spoken highly of the institute. He has certainly made himself master of all the special points in conducting institutes and in superintending the work of the teachers.

The county teachers are all loyally wearing the "Loup City Chautauqua" buttons, and many of them are planning to return Aug. 23 to attend the Chautauqua.

SHINGLES

That is all some people seem to know about the quality of shingles. If shingles were made just to spank children with almost any kind would do, but if you want to keep the rain out of your house for years without repair you will have to use a different standard to judge by.

If You Don't

you certainly will be punished for your carelessness. About the worst punishment that a big, grown up man can receive is to know that he has been "stung".
