Route No. 2 is now as lucky in getting rain as it was unlucky the early part of the summer. The rain of Monday morning covered almost all the route except a few miles southwest along the divide. A half inch to an inch of rain fell. The corn on Route 2, except a few fields, is in fine shape. Southwest of the route, around Hazard and Litchfield, corn looks good.

Route No. 1 has had the least rain of any of the routes and is very dry now.
Ed Flynn came near getting hurt with the same horse that his boy was riding when he was almost killed. A shower of rain came up one day last week and he rode the horse in the field and Ed thought he would ride the broncho home, and had got one foot in the stirrup and had just thrown the other leg across the saddle when the horse commenced to buck and he landed behind the saddle and in striking the ground he badly sprained an ankle. It was a lucky thing that he got his foot out of the stirrup in time.

WEALTH IN IRRIGATION

Congress has just appropriated Twenty Million Dollars to Hasten the work of Government Irrigation

THE GOVERNMENT SHOSHONE PROJECT IN THE BIG HORN BASIN

will receive its share and be pushed to completion at once. Contracts for a twelve mile extension of the main canal were let June 27th. More than 150 farms now ready for settlers, and a large number of farms now being surveyed, which will be open to entry within a few weeks.

These rich lands, irrigated by the Government, can be homesteaded by simply repaying the Government actual cost—\$45 per acre, in ten yearly payments, without interest.

15,000 ACRES OF CAREY ACT LANDS just opened to entry—only 30 days' residence required. Under this law settlers buy water from the irrigation company at \$50 per acre, and the land from the State at 50 cents per acre, paying \$10 per acre cash, the remainder running over a period of ten years at six per cent.

Specially prepared Wyoming literature just off the press. Write for it today.
