

Something New!

The FIRST NATIONAL BANK of Loup City hereby gives notice that they have purchased one of the world famous "TISCO" Manganese Steel Sales, recently tested at Canton, Ohio, in the presence of one of their officers by experts cunning in the art of Burglary.

Also, that they have ordered a new system of SAFE DEPOSIT BOXES to be placed in their strictly fire proof vaults as soon as received from the factory.

Further notice will be published in this space within a few weeks that this new equipment has arrived and we then promise to show our friends and the public one of the best protected banks in the state of Nebraska.

Yours respectfully,

L. HANSEN, Cashier.

LETTER FROM C. T. MCKINNEY

Arrested for Forgery

Likes California, But Oh! You Nebraska

Tehachapi, Cal., Nov. 20th, 1919—Mr. J. W. Burleigh, Loup City, Neb., Dear Mr. Burleigh:—I am glad to read through Northwestern columns that Sherman county has redeemed herself and lined up with the state for republicanism.

In your issue of Nov. 10th, you mention the famous Venatchee Valley of Washington, and what a relative of Mr. Pilger's is doing there in raising and shipping apples. You know that is what we are doing here on our 1000-acre tract; that is, we are developing water and putting out apples and pears, and Tehachapi fruit, commercially, will soon rival that of Washington, and what a relative in fact the family orchards here have grown both apples and Bartlett pears for forty years of quality, size, color, flavor and keeping qualities that cannot be surpassed anywhere. So, of course, the stories of immense fortunes made from apples and pears interest me, and what a relative Mr. Pilger's relative has orders for more apples than he can fill only corroborates the statement often made that there is a shortage of both apples and apple land. Ten acres of Wenatchee, Wash., land in seven-year-old Yellow Newton Pippin Apples, with house costing \$2,000, has just sold for \$53,000—that is \$3,300 per acre—and the crop this year brought \$10,000 cash. Guess that is going some, eh? But it is a true statement, and will give you some idea of what we are coming to. Not far from us Bartlett pears for term of years have averaged 10 tons of fruit to the acre that brought 25¢ per pound—that is \$1,250 per acre. Do you know how the value of land that will produce \$1,250 per acre? Now, I know how I accepted statements like the above when I first heard them, and I expect you will accept them in about the same way—the only "cure" is to come and see for yourself, so I won't weary you with any more facts of that kind.

Where we live, here at Tehachapi, the altitude is 4,000 feet and we have some winter; 10 degrees above zero is the coldest known in 23 years. Last winter it was 17 degrees above zero on the coldest day which is about the average coldest day during the winter. The Southern California natives think the winters here something awful, but after seeing 34 degrees below zero and a few blizzards in Nebraska, I don't think we will agree with them or suffer much with such mild cold. We are in good health, are more than pleased with our location and investment here, but let me tell you, I would like to see an ear of corn—I would like to see some blue-stem pasture, and when we have closed out our 1000-acre tract in ten-acre orchards, we are going to migrate to old—there, I pretty near said Nebraska. We can make money faster and easier here than in Sherman county, but for a permanent home, I think our investment will have out there some day. Sincerely yours, C. T. MCKINNEY.

Arrested for Forgery

Thursday evening Sheriff Williams arrested a young man going by the name of Roebuck, who arrived on the motor that evening, on a phone message from the chief of police of Grand Island that the suspect was wanted on a charge of forging a check on a St. Paul bank and cashing it at Grand Island. The sheriff met him at the motor, but the fellow put up so smooth a talk that he was not arrested till later in the evening and placed in the cooler. Yesterday afternoon the chief came up and took the suspect to the Island in an auto. From circumstances, the different stories of the fellow, the number of grips and bundles, the possession of two new revolvers, some \$280 in cash, several valuable rings, his attempt to get his stuff over to the B. & M. in time to get out west on the train, and his talk to the sheriff, his renting of two different rooms in the city telling different tales to the landlady of each, etc., there is little doubt he is a crook of no mediocre caliber. He claimed to be a printer and was coming up here to work in the Times office while Roebuck's livery barn, but on returning for more bundles he was told Editor Beushausen he would return in a few days and be ready for work. After his talk with the sheriff at the motor he made two trips up town with his belongings, leaving some in E. G. Taylor's office and in McLaughlin's livery barn, but on returning for more bundles he found the motor had gone around the "Y" hence he could not get them over to the B. & M. and out on that train. The chief expressed himself as confident that while the arrest was on a minor charge of forgery of a \$3 check, it was in fact an important criminal, wanted for crimes of much greater magnitude.

Painful Accident

Yesterday morning, while Alfred Cook of this city was hauling hay on the John Daddow farm south of town and while going down a draw, he in some manner lost his footing and fell from the top of the load to the ground, alighting on his right elbow. After the fall, he regained his position on the load and drove to the destination. Just how he fell and how he climbed up again, he was unable to remember. A physician was later called and found the arm so badly swollen that he was unable to make an examination, which cannot be done till the swelling is reduced, so it is impossible at this writing (Wednesday afternoon) to say just how serious the injury may be, though friend Cook avers the elbow must have been driven up through the shoulder by the way it feels. We trust the arm may not be found broken or dislocated.

Last Thursday evening, after the mid-week meeting, a number of the members of the Presbyterian church, having learned that the day was an anniversary of the marriage of Dr. and Mrs. A. J. Kearns, descended upon the home of the unsuspecting couple and presented them as a memento of the occasion, their heartfelt congratulations, accompanied by a dozen cut-glass tumblers and sugar and creamer. Rev. Montgomery, in behalf of the friends made the presentation speech, which was feelingly responded to by Dr. and Mrs. Kearns, and all departed in a few minutes leaving the recipients in bewilderment as to how their friends had knowledge of the event. May they live to celebrate double the number of years represented by that anniversary.

The Lincoln papers this week contain pictures of the State University debating squad, of which Clifford L. Rein of this city is one of the four debaters, who are to meet an equal number of debaters from the University of Illinois at Urbana, in that state, tomorrow evening, the subject being "Resolved that the movement of organized labor for the closed shop should receive the support of public opinion." The former squad taking the negative, Clifford is along with the top-notchers in debating circles.
