in flerce cries of triumph. It was magnificent! Even as the crushing truth of what it all meant came to him, the fighting blood in his veins leaped at the sight of it-the pretchded effect of the shots from sea, the sham confusion, the disorderly flight, the wonderful quickness and precision with which the rabble of armed men had thrown itself into ambush!

Would the mainlanders rush into the trap? Had some keen eye seen those shadowy forms dropping through the mist? Each instant the ghostly pall that shut out vision seaward seemed drifting away. Nathaniel's staring eyes saw a vague shape appear in it, an indistinct dirt-gray blotch, and he knew that it was a boat. Another followed, and then another; he heard the sound of oars, the grinding of keels upon the sand, and where the Mormons had been a few moments before the beach was now alive with mainlanders. In the growing light be could make out the king's men below him, inanimate spots in the middle of the narrow plain. Helpless he stood clutching his pistol, the horror in him growing with each breath. Could he give no warning! Could he do nothing-nothing-At least he could join in the fight!

He ran down the hill, swinging to the left of the Mormons. Half way, and he stopped as a thundering cheer swept up from the shore. The mainlanders had started toward the hill! Without rank, without order-shouting their triumph as they came they were rushing blindly into the arms of the ambush! A shriek of warning left Nathaniel's lips. It was drowned in a crash of rifle fire. Volley after volley burst from that shadowy stretch of plain. Before the furious fire the van of the mainlanders crumpled into ruin. Like chaff before a wind those behind were swept back. Apparently they were flying without waiting to fire a shot! Nathaniel dashed down

into the plain. Ahead of him the Mormons were charging in a solid line. Physician in Address Before Medical and in another moment the shore had become a mass of fighting men. LEN H. CURTISS' achievements with his hydro-aerophane at San Diego Bay, Cal., have caused a marked sen-U sation in military and aviatorial circles. For the first time in the history of modern flight, the aviator rose from the surface of the water on which his machine rested, made wide, circling sweeps, and then alighted on the bay with the grace and ease of a gull. The hydroplane, which is fastened to the bottom of the aeroplane, consists of a steel, airtight, shallow compartment, seven feet wide and four feet long. A similar but smaller hydroplane is placed under the front control of the aeroplane, outriggers being attached to the lower planes of the latter to prevent the whole arrangement from tilting sideways while rushing through the water. The army and the navy had representatives and assistants present at Mr. Curtiss' flights with the new invention.

A TRIAL WILL CONVINCE ANY-**ONE---THE GREAT KIDNEY REM-**EDY NEVER DISAPPOINTS

A few years ago I was troubled with complication of kidney and stomach ail-ments, and although I tried two or three different doctors, I was unable to obtain a cure. Having heard a great deal about Swamp-Root, I decided to give it a trial and purchased a one dollar bottle of Mr. Alexander, the druggist. From the beginning I could notice a change for the better and after taking eight bottles of your medicine, I felt entirely cured and have not had any trouble since.

Had I begun using Dr. Kilmer's Swamn Root sooner I would have been a few hundred dollars to the good and saved myself a lot of suffering.

You may use my testimonial any time you wish.

Yours very truly, CHARLES E. HARRIS,

460 Sixth St., Marion, Ia.

I certify that Charles E. Harri signed the above testimonial in my pregence, be ing first duly sworn to the truth thereof this the 12th day of July, 1909.

Uncle Joe's Check.

Col. Henry Carson, sergeant-at-arms of the house of representatives, has the original check given by Speaker Joseph G. Cannon a few years ago to a book agent, and about which an interesting story has been told.

An agent visited the speaker and interested him in an elaborate edition of something which Uncle Joe didn't want, but bought. When the books arrived Uncle Joe examined them and decided at once that something had been put over on him. When the agent came for his money the speaker determined to make him indorse a terse sentiment on books, so he wrote out a check for \$73, the amount due, and on the back of it he inscribed:

"Pay to the order of Mr. Blank, in full payment for an edition which was not worth a d-, and dear at that price, but for the ease and grace with which he put it over your Uncle Joe it was well worth the money."-Hu-

CHAPTER IX .- Continued.

Buddenly he almost fell over a figore in mis path. It was an old woman mumbling and sobbing incoherently as she stumbled weakly in the direction of the temple. Like an inspiration the thought came to him that here was his opportunity of gaining admittance to that multitude of women and children. He setzed the old woman by the arm and spoke words of courage to her as he half carried her on her way. A few minutes more and a blaze of light burst upon them and the great square in which the temple was situated lay open before them. Half a hundred yards ahead a fire was burning; oil and pine sent their lurid by the blinding glare, Nathaniel saw the shadows of men. He caught the old woman in his arms and went on boldly. He passed close to a thin line of waiting men, saw the faint glint of just them unchallenged with his hill up which he climbed more slowly. weight he stopped for a moment to look back. The effect was startling. Beyond the three great fires that blazed around the temple the clearing was bathed in a sea of light; in its concealment of glant trees the temple was buried in gloom. From the gloom ; hundred cool men might slaughter five times their number charging across that death square!

Nathaniel could not repress a shudder as he looked. Screened behind each of the three fires was a cannon. He figured that there were more than a hundred rifles in that silent cordon of men. What was there on the opposite side of the temple?
