50.000 NEEDED TO HARVEST WESTERN **CANADA'S CROP**

Will Take 160,000 Altogether to Take Care of Yield of Prairie Provinces.

One hundred and sixty-two thousand farm hands will be required this year to harvest the grain crops of Manitoba, Saskatchewan and Alberta. Of this number the local help will prowide about 112,000, which will leave about 50,000 extra farm hands. There is, therefore, a great demand for this class of laborers in all parts of Western Canada. In order to meet the requirements it has been arranged to grant very low railway rates from all boundary points reached by Canadian railways. In order to secure these rates it will be necessary for you to call on one of the following authorized agents of the Canadian government: M. V. McInnes, 176 Jefferson Avenue, Detroit, Michigan; C. A. Laurier, Marquette, Michigan; J. S. Crawford, Syracuse, N. Y.; Thos. Hetherington, Room 202, 73 Tremont Street, Boston, Mass.; H. M. Williams, 413 Gardner Eldg Toledo, Ohio: Geo, Aird, 216 Traction-Terminal Bldg., Indianapolis, Indiana; C. J. Broughton, Room 412 Merchants' Loan & Trust Bldg., Chicago, III.; Geo. A. WOULD CURB SILENT ORATORS

Representative Mann, the minority leader of the house, is on the trail of those who obtain "leave to print" their remarks in the Congressional Record and who then intersperse these remarks with "applause," "loud applause," "tumultous applause," and other complimentary annotations indicating that the house was in a state of frenzy, while "the distinguished gentleman" was speaking.

Representative Mann has been glancing over the records containing the debate on the Free List Bill and the Arizona-New Mexico statebood resolution. He is understood to have picked out one oratorical gem, in particular, that has been made the subject of a little satirical comment on the part of the minority leader. This speech seems to have met a most wonderful reception.

The erator, according to the Record, started off smoothly, but was in-

terrupted by the plaudits of his colleagues almost before he left the post. As the member warmed up, the house warmed with him, and adjectives had to be called into play to describe just where the reception received by the gentleman. The applause, it appears, was "loud," "prolonged," "insistent," "tamultuous," "on both sides" and "insurgent."

A scrutiny of the official reporter's notes does not indicate that the house was in a state of frenzied approval while the modern Demosthenes let flow his burning eloquence.

Mr. Mann has served in six congresses continually since 1897-six years from the first Chicago district and later from the second. He is a native of Illinois and a lawyer by profession,

CHURCH HEAD AS A WITNESS

Recently President Smith, head of the Mormon church, gave testimony before the congressional committee investigating the sugar trust relative to the formation of the Utah-Idaho Sugar company. For the head of a strong church society, he has found time to devote to affairs of purely secular character.

President Smith has reached his present high stage of efficiency by sedulous attention to business. At 8 years old he wielded a goad over an ox team when the great exodus of the Mormon sect from Illinois began. He worked at manual labor in Utah; he was a missionary to the Sandwich Islands; in 1858 he was ordained high priest and member of the high council Off and on from 1860 to 1877 he was a missionary of the faith in Great Britain. In 1866 he was ordained an apostle. He has been president of the church since the death of Lorenzo Snow, in 1901

The numerous and varied duties he had discharged before he was called to the headship of the church had rendered him familiar with every detail of its administration. Besides, he came to the headship by prescriptive right. He was in the Mormon royal line, so to speak. He was a nephew of the great Joseph Smith, revealer of the Book of Mormon.

Asked if he thought it best for a man to have but one wife, the husband of five wives and the father of forty-three children replied:

"In these days of the high cost of living there is no doubt that the average man is much better off with one wife. If a man cannot support one wife decently it would obviously be impossible for him to support more."

The gentle Eliza was sitting drearily in the darkened room, waiting miserably for a 'visitor, whom she feared would never come. To tell the truth, Eliza and William had quarreled bitterly the night before. But what is that? A ring, a step, a masculine voice. She waited not, but threw

herself into the visitor's arms. "Oh, my darling!" she sobbed, with her head upon his bosom. "I am so glad you have called. I did so long to make up and io my best to pay you for bringing light into my life. Let us settle peacefully once more with each other."

"Well, miss," said a strange voice, "I'm willin', I'm sure. But my in' structions is that if you don't I'm to cut off the gas!" And it was only then that Eliza

160 acres free will also have a greater reason to feel pleased.

Notwithstanding the great addition to the acreage this year over last and the large crop that will be ready for harvest there is no reason to become alarmed that the harvest will not be reaped successfully. There will be a great demand for these low rates during the next couple of months: he sure to make your application to any of the agents above mentioned that may be in your territory at as early a date as possible. Harvesting will commence about the 25th of July and continue for five or six weeks, when threshing will begin and there will be plenty of work until November.

which have been with us so long, un less it is a laggard desire to be humanitarian. The restriction thrown around birds by the laws of the states, and the difficulty and cost of getting aigrettes, has given many milliners a good reason not to carry them in stock. The expense of buying one is the best reason for their unpopularity.

The milliners, liking the effects of the aigrette, have determined to use many other materials to take its place therefore the new hats are trimmed with silken wheat in the form of an aigrette. Some of it is in the natural color and a great deal of it is dyed to match the hats or frocks.

One sees much blue and green and purple. The green is the most popular for summer use, as it is refreshingly cool.

Laces of Every Kind and Description Are Among the First in Popular Esteem.

Among the favorite trimmings are laces of all kinds, among which are Venise, Italian, filet and Milan laces. Gold and silver laces are also used on some of the more elaborate gowns. Polygamy no longer is practiced by Mormons and the man who is caught taking a plural wife is promptly excommunicated, said Mr. Smith. He added that he still supports, but does not live with, the wives he married prior to the decision of the Supreme Court of the United States that polygamy was unlawful and before the church issued its famous manifesto forbidding plural marriages.

CONSUL ACCUSED IN SCANDAL

William H. Michael, United States consul at Calcutta, whose dismissal as a result of the recent investigation of the Day portrait voucher was recommended in a report of the subcommittee of the house committee on expenditures, was formerly chief clerk of the state department. The alleged misappropriation of the

state department funds occurred in connection with the purchase of a portrait of Assistant Justice Day of the Supreme court, former secretary of state, and amounted to \$1,600. Only \$850 was paid to Albert Rosenthal. the artist who painted the picture. The committee during its investigations traced to a single voucher the sum of \$2,450. On this voucher was written "for portrait and frame of ex-Secretary Day

The testimony having showed that the \$1,600 unaccounted for was in the hands of Morrison as disbursing clerk and of Michael as chief clerk, the

committee holds that the money was misappropriated either by Michael and Morrison jointly, or by Michael alone.

The mysterious finding, of the voucher for \$2,550, which was reported lost when the committee began its investigation; but which later was discovered by a messenger on the floor in the distourising, cleak's office, is criticised by the committee in I's report as beyond human belief.

That both Morrian and Minizell should be remoted from office for the good of the public sex 'ce was the opinion of the committee.

Neither the president nor the secretary of state, according to the report, has the right to pay for portraits of former secretaries of state from the ergercy fund from which came the morey to pay for the portrait in ques-
