

Rain Tomorrow!

If the weather man predicts rain for tomorrow you arrange your plans accordingly. Are you doing the same for the rainy day of your life?

No man can tell you when the day of adversity is coming and the only safe thing to do is to build up a Bank account against that day.

This bank affords you a rare opportunity for saving by accepting any deposit from a dollar up, and will pay you 4 per cent interest, compounded semi-annually.

THERE IS PLENTY OF WATER IN THE Big Horn Basin and Yellowstone Valley

All of the rivers and irrigation canals are now running bank full. The writer has just returned from an extended inspection trip through the Big Horn Basin and Yellowstone Valley, where he found that the farmers have all the water they can use for irrigation; crops are accordingly fine.

Opportunity for Investment. Money invested in Government Irrigated lands, Carey Act lands, or deeded lands in Big Horn Basin, at present prices is sure to bring large returns for the reason that the farmers of this country are beginning to understand that the Basin and Yellowstone Valley have an ample water supply and that the water comes down from the mountains just at the time when it is needed for irrigation.

PERSONALLY CONDUCTED EXCURSIONS

Come with me on one of our personally conducted excursions, first and third Tuesdays, and let me show you the crops that follow a reliable water supply. Write today for our new folder, free, telling all about these lands.
