Geo. W. Wolfe for

Representative Much favorable comment is expressed over the report that Supervisor George W. Wolfe of Harrison township be made the republican candidate for Representative before the coming primaries. In an interview with Mr. Wolfe, he admitted that if the republicans of Sherman county had no other preference for that distinguished honor, he would be pleased to make the race and in event of his successful nomination and subsequent efection, he would to the best of his ability give the people of Sherman county a satisfactory representation in the lower house. We do not know of a man in the country who could and would give better returns for such confidence reposed in him, nor make a more creditable servant of the people in that law-making body. In his present official capacity as supervisor from his district he has made good and worked perpetually for the best interests of his constituents and the country, and we believe he will make equally good in the higher trust imposed. By all means, let us have George W. Wolfe for our next representative.
