HERBERT S. NIGHTINGALE.

Eight hundred thousand coal miners in Great Britain are out on strike. That's enough to make the matter interesting to those concerned.

A man in Iowa got a 20 year sentence in the penitentiary for stealing two small chickens. Huh! High cost of living, ain't it?

The latest, of national repute, to join the Roosevelt column is Beveridge. But then every one knew where the senator stood.

At Madison, Wis., last Friday, La Follette said he was in the contest to stay, and yet many ardent supporters as Fincher and others have turned their backs on him and are shouting for Teddy. But then, he has Francis Harrison, and that's something worse than nothing.

The detective, Franklin, who fessed up to trying to bribe the jurors in the McNamara cases at Los Angeles, has been let off with a heavy fine the understanding being that he is to give damaging evidence against attorney Darrow, who has been indicted for complicity in furnishing the money. If Darrow is guilty, it is to be hoped he will have to join the McNamara's at San Quentin.

The newspapers just now are flooded with propositions from managers of the various presidential candidates of all parties to furnish free plate matter lauding their several favorites to the skies, which is all very well for the makers of the boiler plates, and fine for the candidates, but not very advantageous to the poor suckers of newspapers who accept. So much of this gratuitous kind of stuff gets on one's nerves. It is about time the newspapers of the country get wise to this graft on the part of candidates and conclude to let those who want to dance pay for the tiddling. We know of one newspaper who will not be a sucker along those lines.

The gravity of the situation in Mexico has been such that President Taft last Saturday issued a proclamation virtually warning American citizens not to go into that country and those residents there to leave the country. As Loup City has an interest in an old resident of this country, Will Waite, who is and has been residing there for some years, they will be anxious regarding him. Taft also warns Americans to express no sentiment either with insurgents on the other side, and in fact to give aid nor encouragement in any way pro or con regarding the trouble in that lurid government.

The Methodists of Nebraska are now engaged in a highly laudable undertaking to boost the endowment fund of the Nebraska Wesleyan University from a hundred thousand to a round half million dollars. The plan of campaign is unique, in that effort will be made to secure the entire amount in a state-wide whirlwind campaign of subscription taking to be accomplished in the brief period of eight days. Preliminary to this an educational campaign is being conducted that all Nebraskans may learn more of the Wesleyan, which ranks at the head of our several denominational schools of higher learning with an enrollment of nearly one thousand students.

Either the big candidates on the democratic side—namely, Mr. Metcalf for governor, Mr. Morehead for lieutenant governor, and Mr. Thompson for senator are discharging much dough to our democratic contemporaries, or the boys are mighty easy fellows, as the three gentlemen above-named are occupying column after column each week exploiting their wonderful qualities for the offices they seek. But of course the aforesaid papers have no need of financial oil for their publication machinery, and the boiler plate stuff makes good fillers. Later we are informed by one of our democratic brethren of the quilt that they are getting 10c and 12½¢ per inch from each of the three gentlemen for the boosting. Either the candidates are out for honor alone or there must be a gold mine in each of those offices.

The M. W. A. battle over the raise in rates is waging merrily on, and the insurgents are shouting that it is the worst graft yet put up. At Hastings and other cities the other day, Chief Mogul Talbott's name was roundly hissed and his picture turned to the wall. As we understand the situation the members, under the new schedule will have to pay a much higher rate to the thousand insurance than even the blooded old line insurance companies charge, and to us older members in years it looks like rank robbery, and as the most of us are from Missouri on the proposition it will be necessary for the Talbott contingent to put up pretty stiff argument to make us see to the contrary. At the rate charged, about three times over the old rate, it makes it almost necessary to drop it, and that's undoubtedly what thousands upon thousands will do when the three times higher rate is in force.

Adam William Schaupp

Died: At his residence, 120 North Catalina avenue, Monday, February 19, at 1:20 p. m. Adam William Schaupp aged fifty years, six months, twenty-nine days.

Mr. Schaupp was born at Linn Grove, Adams County, Indiana, July 21, 1861. He was early employed in his father's drug store there, and later went to Nebraska where he became a member of the C. M. Jaques Grain company, afterward establishing a prosperous fuel business in Lincoln, Nebraska.

He married Miss Emily Martin of Geneva, Indiana, April 10, 1887, and took her to the home he had prepared for her at Loup City, Nebraska. During the time of depression in years of drought he was the personal friend and benefactor of many destitute farmers, himself furnishing food, fuel and clothing in times of need, and loaning money for which he asked neither interest nor payment. The town of Schaupp's Siding, Nebraska, was named by the farmers who traded with him there, and today many of them remember him as their benevolent and faithful friend.

In young manhood he was baptised and ever after witnessed to his faith by proving himself diligent and just in business, free from all unclean habits, providing for his family, and giving of his means and personal interest to the poor with whom his business interests brought him in constant contact.

In 1908 he moved to Pasadena, in the interest of his daughter's health, and has established a prosperous feed and fuel business in this city with his son, H. R. Schaupp, a junior member of the firm. He was a member of the First Methodist church of this city, of the Masonic lodge of Lincoln, Nebraska, the Modern Woodmen and the Knights of Pythias.

He is survived by his wife, Mrs. Emily Ossie Schaupp, his son, H. R. Schaupp, wife and child, Dawn Lenore of Pasadena, his daughter, Vera Schaupp Frickey, his father, John Schaupp, and brother, Calvin Fred, of Salem, Oregon, a brother Fred, of Virginia, Nebraska, and sister Eva Schaupp Liddy, of Linn Grove, Ind., one little son, Adam, having preceded him to rest.

The funeral services will be held at the home, 120 Catalina avenue, Saturday afternoon at 3 p. m., the Rev. Matt S. Hughes conducting an A. F. & A. M. service.—Pasadena Daily News.

County School Notes.

From the Superintendent's office

Arizona has been proclaimed the forty-eighth state of the Union. Teachers in districts No. 6, 9, 12, 17, 23, 25, 29, 35, 49, 50, 52, 56, 61, 63, 69, 71, 73, 74, and 77 have reported during the past week. The superintendent has decided to require six certificates of attendance to entitle a pupil to one certificate of award and three certificates of award to entitle the pupil to a diploma of honor.

Certificates of award were issued to the following pupils this week: Alfred Burt, Ida Schultz, William Holler, Lloyd Durell, Grace Jung, Letha Mallory, Venice Mallory, Paul Macleisnki, Harry Elv. Wallace Ebele, Cecil Hand, Cecil Draper, Ruth Adams William Adams, Mary Adams, and a Diploma of honor to Myrtle White, Mari White and Venen White. According to the reports received by the county superintendent thus far, Miss Klea McNulty, Primary teacher at Ashton has the largest enrollment, Miss McNulty has an enrollment of 58 pupils and the attendance is good.

J. C. Wall, district No. 55, wrote the county superintendent commenting on the school notes, he has an attendance of 25. They celebrated Lincoln-Washington birthday with an appropriate program.

The following points on "Punishments" are interesting and helpful. I. Punishment serves two purposes reformation of the offender, and to deter others from committing the

same offence. 2. Corporal punishment is sometimes necessary, but should be used only after other means have been exhausted. 3. Private personal appeals are most effective. 4. The punishment should be regulated as much by the character of the offence as by the character of the offender. 5. Ridiculing and humiliating a child are not proper means of punishment.

One of the most comfortable school buildings that the superintendent has visited thus far is a new building, having been built only about four or five years. It was boarded up inside without being plastered. It would be a good plan to have a county building committee whose duty it would be to superintend the construction of the school buildings of the county.

There are some people who seem to think that a little child's time is worth nothing and waste it by putting it in charge of a teacher without education and skill and inspiration. Six or seven years of a child's life wasted means sixty or seventy years of effective manhood or womanhood wasted.

The following are a few significant expressions heard from people in different parts of the country.

"Our teacher is doing good work and every one seems to be pleased with her efforts."

"The teacher is often late and seldom reaches the school house before 8:50."

The teacher is doing good work in the school room but gives no attention to the pupils while at their play.

She is a good teacher and we are going to have her in our school another year if a raise of wages will keep her.

The next teachers examination will be held March 15th and 16th. All teachers who expect to ask for re-issuance should read the new rules on certification which will go into effect July 1, 1912.

All the sisters were present save the wife of this editor, and she would have been if we had not neglected to fork over the invitation which reposed in our pocket securely till after the good time was over—a man's contemptible carelessness, you know. Is it any wonder some men are baldheaded?

Mrs. Ira Williams and children, with the exception of Miss Irene, left Tuesday afternoon for their new home at Hood River, Oregon. Mrs. Williams has left a host of friends here who will regret her going and follow her with kindest of wishes for the future happiness of herself and interesting family. Old Rate Continued Until March 16th.

Owing to the expressed wish of many of the readers of the Northwestern, and also of the Times, Bro. Beushausen and the writer have consented to delay the raise in subscription rates till the night of March 16, after which time the rate of \$1.50 per year will be charged by both papers in spite of three months' notice of

the raise, before doing so, there proves to be a large number of our readers who delayed a little too long, and on the first day of March were found a number who had put off the matter of getting under the dollar wire till too late, but their persuasive talk and a number of other requests of delay in putting the advanced price in operation, causes us to change the final date at which you can get the paper for another year at \$1 to March 16th, as stated above. Now, we trust all who wish to take advantage of the low rate will call at the captain's office early, as the evening of the 16th of this blustering month we will absolutely quit blustering about the raise and make it operative. That's more than fair, is it not?

You can still get the Northwestern for one year in advance at \$1, if you get in before the morning of March 17th. Save that half dollar and be happy that much.
