They fight because they get angry, or because they hate one another, or because they think it glorious to conquer and dominate. Therefore, men must be elevated morally as well as intellectually before they will stop fighting. They must learn that the command of the Almighty, "Thou shalt not kill," was addressed to men collectively as well as individually. Now trade serves to make men acquainted and to break down prejudices and antipathies. It enlists their enlightened self-interest on the side of peace. It holds them in restraint and affords an opportunity for their moral nature to assert itself. It educates them morally and intellectually and brings them to abhor war, with its looting, its slaughter, its hate and all its cruelty. Education makes for peace, but it must be education of the heart and the conscience as well as the intellect before it will put an end to international murder en masse.

WARM, WITH HEAVY SHOWERS.

Crop Conditions for the Week in Nebraska.

UNIVERSITY OF NEBRASKA, LINCOLN, Neb .- The past week has been warm, with heavy showers in the northern counties. The daily mean temperature has averaged one degree above normal in eastern counties and two degrees in western.

The rainfall of the week was heavy n the central and northeastern counties, generally ranging from one to three inches but in a few instances reaching nearly six inches. In the southern and southwestern counties the rainfall was light, being generally less than half an inch.

Winter wheat has ripened rapidly and 'narvesting has commenced in southern counties. A few reports indicate that the heads are rather short, but well filled with plump berry. Oats have improved in northern counties, but continue to indicate a small crep in southern. Spring wheat is generally doing well. Corn has grown well, but is backward and needs warm weather, and in southern counties mor rain. In the northern counties rain has delayed cultivation, and corn is generally getting weedy. Considerable alfalfa hay was damaged in western counties by rain while curing. In southern counties the dr" weather has damaged grass in pastures and meaddows, but in the northern counties the prospect is for an exceptionally heavy hay crop, and the pastures and range are unusually fine. Peaches promise a good crop.

WILL TAKE BACK THE STAMPS.

Internal Revenue Collector Receives a Ruling.

OMAHA, June 29 .- J. E. Houtz, collector of internal revenue, has received a ruling from Commissioner J. Y. Yerkes in regard to the redemption of documentary stamps after July 1. The circular sets forth that banks or stationers cannot act as agents for the presentation of claims for their customers, but may purchase imprinted stamps which they had previously secured and sold. As the bona fide owners thereof they may present claims in their own names for the redemption of such stamps without regard to the number purchased from each customer.

In presenting claims for the redemption of stamps a number of formalities will have to be gone through with by the applicant. In all cases where claims are made by banks or stationers for the redemption of stamps thus purchased it will be necessary, in addition to evidence now required in support of claims, for each claim to be accompanied by a certificate duly signed by the party from whom the stamps were purchased, setting forth the absolute sale and transfer of said stamps to the claimant.

Admission Fee to the Pen.

LINCOLN, Neb., June 29 .- Governor Savage has announced that after July 1 an admission fee of 10 cents will be charged for visiting the penitentiary. On visitors' day, which is the first Tuesday of each month, no admission will be charged. The same courtesy will be extended to visitors to the Sunday services. This admission fund will be used to help defray the expense of putting in a prison library, the former one having been destroyed.

NEBRASKA SOLD WAR HORSES.

Two Thousand of Them Gallop for English Army Against the Boers.

LINCOLN, Neb., July 1.—During the last two years Nebraska farmers and stockmen have sold to England over 2,000 horses for service in the war in South Africa. The price paid has varied from \$30 to \$90, but the general average has been \$35 per head. Most of these horses came from the western part of the state and were sold at South Omaha or Kansas City, where the English purchasing agents maintained headquarters. There is still a good demand for the tough animals known as "war horses." The dealing just now is inactive, but it is said that the purchasing season will soon open and that there will be a ready market for all horses that can

When England began purchasing horses in America the agents demanded young, thoroughbred animals and the price paid sometimes went as high as \$100, but they took only animals that were selected with great care, and were sound in every bone and fiber. The extravangance of these operations was soon demonstrated and the English agents in America were instructed to be less particular in selecting the animals. Horses are extremely sensitive to climatic changes and conditions and it was found that even the best American horses could survive only about six weeks of active service in the South African war. The agents began experiment with common stock and it was found that the ordinary plains or range horses from Nebraska, Wyoming, Montana or other western territory could do just as effective work and live as long in South Africa as the high-priced thoroughbred horse.

OSCAR SHOUSE IS ACCUSED.

Arrested on Charge of Complicity in David City Ticket Robbery.

HASTINGS, Neb., July 1 -- Sheriff Simmering, with Superintendent Bigrell of the Burlington read and a couple of detectives, took a special train out of Hastings for Blue Hill, where Sheriff Simmering arrested Oscar Shouse on the charge of having been implicated in the robbery of the railway tickets at the Burlington depot at David City, May 27.

THE LIVE STOCK MARKET.

Latest Quotations from South Oraha and Kansas City.

SOUTH OMAHA. Cattle-There was a liberal run of cattle and as a result packers did not have to hurry in order to get all the supplies they wanted. It was late before the market opened and the tendency was to pound down prices all around. Receipts included close on to ninety cars of beef steers. Buyers went the rounds and bld lower on nearly everything. Sellers were holding for steady prices, so that it was late before much of anything was done. Some of the better grades sold at a reasonably early hour at just about yesterday's prices, but all others were very slow and in most cases a little lower. Packers did not seem to care much whether they got the cattle or not, so that it was rather late before the bulk of the offerings were out of first hands. Cow stuff also sold lower unless in the case of some of the choicer grades of heavyweight cows and heifers. They were not far from steady, but the light stuff and the commoner kinds, and particularly the grassers, could be quoted very slow and 5610c lower. Choice bulls were about steady, but others were lower. The same was true of veal calves and stags. The light receipts of feeders continued today, and, in fact, there were not enough offered to make a test of the market. The few that changed hands did so on a basis of just about steady prices. Hogs-There was a fairly liberal run of hogs and buyers went in from the start to get their hogs for less money. The opening market was weak to 21/2c lower, and after the first round it was gener-
