The Boers are still pushing on into Cape Colony, notwithstanding the persistent efforts of Lord Kitchener to stop them. The last reported movement was into territory not before invaded.

The adjourned session of the Republican county convention will be held in Loup City, Tuesday, Sept. 17th, next Tuesday a week. All Republicans should be in attendance and have a gala day.

The medical authorities of Santiago, Cuba, report that there has not been a case of yellow fever reported there since Dec. 1899. The sanitary regulations introduced by Uncle Sam is responsible for the change. There has not been a year before since Santiago was founded that it has escaped the scourge.

France and Turkey have parted company and the present prospects are that they will chew another neck. Turkey has appealed to Prussia to mediate between them, but the Kaiser's reply was to "pay up and keep out of trouble." There seems to be good prospects for another show for the Missouri mole.

"The fellow that rocks the boat," got it in the neck at Hancock, M. D. last week. He was a young man from Penna., by the name of Rinehart, and was on pleasure bent on the broad Potomac. The lunatic could not resist the dampoolishness that pervaded his entire carcass but had to rock the boat, which contained ladies, just to scare them of course. One young lady was thrown out and drowned, and a coroner jury has placed an indictment after his name upon the court records, of "murder in the first degree." May they make it stick. 'Tis hard on his relatives, but when there is a fool in the family the quicker the Lord takes him the better.

The municipal and great private improvements now underway in New York city, according to the Scientific American, would aggregate nearly \$700,000,000. Three immense bridges now more or less under way across the East river and which are municipal affairs, will cost \$20,000,000 each and one across the North river, now under contemplation, will cost \$60,000,000 and is a railroad structure. The three first will have a span of 1,500 ft. each and are highways for the general public and street railway. The latter will be one of the wonders of the age, and has a span of 3,100 ft. and will bring the western systems of railroads into the city, instead of having to transfer all passengers and freight across the river as at present. The commercial and industrial activity in the United States during the past half decade surpasses the wildest hopes of the boomer. The question is how long will it continue and what will the end be like.

Bartley is back in the pen and Governor Savage has said by his actions that the parole was a mistake. Generally speaking we have no censure for the governor, yet while we believe that evil doers should be punished we can't help thinking that Bartley has received a sufficiency, provided he reimbursed the state to the last farthing. Four years in penitentiary garb, to a cultured man, means many living deaths, while the stigma that would follow him through the balance of his years even he was free, could but add torture to his declining life. We are poor seekers after revenge, and when justice is meted out the world should be content. Bartley, now, is a sacrifice upon the altar of politics, and his hurried return to a prison home virtually compelled by the action of the Republican convention, is more the result of an inordinate desire upon the part of some would be leaders to

crush the future ambitions of Governor Savage than to extend punishment for a crime sufficiently expiated if the money was returned. "Vengeance is mine" sayeth the Lord.

KILLED BY LIGHTNING.

During the storm last Tuesday night, Mr. Carl DeLaMotte (jr) who lives northwest of Hazard was struck by lightning and died in about fifteen minutes from the time of the shock. Mr. DeLaMotte was at work putting up hay when the storm came up, and as it was then about 7 o'clock he thought best to unhitch for the night. He was in the act of dropping the tongue of the rake which he was using when the lightning struck him. A man on the stack was also badly shocked as well as the two horses which Mr. D. had been driving.

The funeral was held in the German Lutheran church, east of Hazard Tuesday p. m., and his remains were laid to rest in the cemetery near by.

The death of this young man was a sudden shock to the entire community who all join in extending their heart-felt sympathies to the bereaved family.—Litchfield Monitor.

Stood Death On.

E. B. Mundy, a lawyer of Harriett, Tex., once booted a grave digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure electric bitters saved his life. This remedy expels malaria, kills diseased germs and purifies the blood; aids digestion, regulates the liver, kidneys and bowels, cures constipation, dyspepsia, nervous disease, kidney troubles, female complaints; gives perfect health. Only 50 cents at Odendahl Bros' drug store.

He Owe His Life to the Forethought of a Companion.

While on a camping trip in Webster county, Mr. S. I. Stump, of Norman town, W. Va., had a severe attack of bloody flux. He says, "I firmly believe that I owe my life to the forethought of one of the company who had taken along a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy."—Procure a bottle of this remedy before leaving home. It cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamship, and at such times and places it is most likely to be needed. The safe way is to have it with you. Thousands of travelers never leave home on a journey without it. For sale by Odendahl Bros.
