Shafter's Cows in the Pound.

General Shafter owns three Jersey cows which roam at will over the Presidio reservation. Several times the animals have wandered beyond the reservation, but until the other day were found and returned by people who knew to whom they belong. One day of last week they failed to return to be fed and milked and a search party eventually found them in the public pound, along with a lot of other beasts. The poundmaster refused to release the cows until his fee of \$3 per cow was paid.

Century's Service by Father and Son.

William Barrow, timekeeper at Gillow's cabinet works, Lancaster, England, has been in the employ of the firm for sixty-six years. Although over 80 years of age, he is still active, being invariably the first on the premises every morning and the last to leave at night. His father held the keys before him, having joined the house of Gillow's in 1801, so that the present year crowns "a century of service" by father and son.

Just a Spite Case.

Mrs. M. A. Radcliffe, of Denver, Colo., who was arrested on charge of illegal voting, has been discharged by the court, not a particle of evidence being presented. It was a case of anti-suffrage spite, and the accusers were well raked over for their meanness. So the case of the first woman ever charged with illegal voting turns out a boom-crang.

Charleston Wants the Liberty Bell.

The managers of the South Carolina exposition, to be held in Charleston, opening next December, have asked to have the Liberty bell in Independence hall, Philadelphia, loaned to them for exhibition during the continuance of the fair. They plead that it would excite patriotic enthusiasm.

Consolation and Comfort.

Who is it that does not wish to be out in the open air or alive in some field of sport, whether it be with the bat, rod or gun; whether we go coasting over the hills and vales on the wheel or sailing over rough waves or into serene coves, it is all sport, and the springing muscles seem to need it. It is bound to happen that some mishap will occur. Thus it is that we have sprains in abundance. Light sprains, sprains that cripple, sprains that give great pain, sprains that rob us of sleep, but sportsmen of all kinds have come to know that there is nothing better than the old reliable St. Jacob's Oil. Have it with you for use; you may rely on its cure of the worst sprain and restoration to the comforts of life.

Girl Commercial Traveler.

Myrtle Bruce, a 17-year-old girl of Omaha, is making a success as a commercial traveler. Last month her earnings in salary and commissions amounted to \$90. She has been on the road three months and already has a line of trade that it takes many men years to control. She declares her intention of sticking to her business until she can command a salary as large as any man in her line west of the Missouri river.

The Home Laundry.

There is no reason why the clothes cleaned at home cannot be ironed up to the same standard of excellence that comes from sending them to the laundry. All that is necessary to attain the desired object is the purchase of a package of Defiance starch at any grocery. Use it once and you will understand why clothes ironed at the laundries have that mild, glossy appearance. All first-class laundries use Defiance starch. If there is no grocery in your neighborhood that keeps it they will send for it on request. Made by the Magnetic Starch Co., Omaha, Neb.

WOMEN AS READERS.

Reasons Why They Do Not "Read Up" on Politics.

The criticism often has been made that in railroad trains, waiting rooms, dining rooms, street cars, everywhere, men are absorbed in the daily papers while women either do not read them or merely skim the fashion and society columns. Women, it is said, take no interest in current events, and hence are not fitted to participate in public affairs. A philosophical explanation may be found in the old adage, "They have no need of keys who have no doors to unlock." Men of all classes scan the daily paper to learn the latest development in politics with as much avidity as the average school girl seizes upon the next chapter in the serial story. They observe the political situation in other countries, because, in a measure, it is interwoven with their own. They feel the keen interest because they themselves can help in the making of this history. It is natural that men should be deeply interested in matters which they themselves have power to shape and control. Why should women give that close attention to public affairs? Who cares for their opinion after it is formed? For how much does it count in influencing government? It is said that the next year after the women of Colorado were enfranchised more works on political economy were sold than in all its previous history. The women of that state are today as careful readers of the newspapers as are the men. Give women everywhere the same incentive and they will become as well informed. It is true that the masses of women do not keep so closely in touch with current events as do the masses of men, and yet thousands of this generation have an intelligent understanding of them where ten of the past had no knowledge whatever. There is not one of the vital questions crowding upon us so closely and rapidly at the present time which affects women as deeply as it does men.—Susan B. Anthony in Chicago Chronicle.

CARNEGIE PAYS OLD DEBT.

Gives Generous Interest on a Small Loan of Long Ago.

Who would not be a creditor of Mr. Andrew Carnegie? An American firm doing business in London recently asked its patrons to suggest ideas for the distribution of Mr. Carnegie's wealth. Mr. Henry D. Lennox of Glasgow advised that the millionaire repay a loan of 11 shillings made by his aunt to aid the Carnegies to emigrate from Dunfermline in 1847. Mr. Lennox computed that at compound interest £9 was due. Mr. Carnegie has investigated the matter and found that Mr. Lennox was quite right in his claim. The debt will not only be paid, but the children of Mrs. Lennox will be endowed with a sum sufficient to keep them in comfort as long as they live. Mr. Carnegie said in his letter: "When the Carnegies left Dunfermline they were so poor that the mother had to borrow money to take them to the United States. My aunt, though a poor woman herself, helped them out to the extent of 11 shillings, but the promise to return the loan evidently escaped the memory of the beneficiaries, because they never repaid the sum borrowed. My aunt is dead, but she left two daughters, one of whom is the wife of a humble joiner in Dunfermline, while the other is a maiden lady engaged in a small drapery business in Edinburgh. Don't you think that if Mr. Carnegie knew this he would be willing to do handsomely by his mother's friends?" Mr. Carnegie called in person on the children of his benefactor, and thanked them for the generosity of their mother. From minus 11 shillings to plus £70,000,000 is a financial transformation that would have staggered the good genie of Aladdin's lamp, but Mr. Carnegie found it not overhard.—London Express.

"Mission Style" Furniture.

The very newest thing in the way of furniture is called the "mission style," and was first suggested to the inventor by seeing an old Spanish mission chair brought from California in 1894. Its quaint outlines and interesting construction indicate the possibility of a scheme of handmade furniture built on the old early English architectural lines. Its name, "mission furniture," is aptly applied. There is a restfulness to the eye and hand in the different pieces, and though generally straight in line, there is nothing angular in effect. Persons accustomed to lavishly carved framework might not approve of its unconventional and simple structure. Built of native ash, stained in browns, grays and greens, it is guiltless of ornament, and no carving, not even a molding, diverts attention from the severely straight lines. There are solid-looking chairs for the dining-room with rush and leather bottoms, quaintly shaped writing tables for the library, cabinets for china, and all sorts of comfortable rockers in which to indulge in an afternoon siesta.

The Canning of Fruits.

In the early work of excavation at Pompeii, in the pantry of one of the old and mostly destroyed palaces, an earthen vessel was found, which, when opened, showed a quantity of well preserved figs. Examination proved that they had been cooked and put into the vessel while hot. The cover had a small aperture through which the steam escaped and drove out the air also. The aperture was then securely closed with wax, and the fruit remained sweet for twenty centuries. From this arose the modern practice of canning fruits, vegetables and meats.

A METHODIST BISHOP GIVES PE-RU-NA GREAT CREDIT.

BISHOP GRANT, OF INDIANAPOLIS.

Bishop A. Grant, of Indianapolis, Ind., writes the following letter:

Indianapolis, Indiana. }
3349 N. Pennsylvania Street. }
Peruna Medicine Co., Columbus, O. }
Gentlemen: "I have been using Peruna for catarrh and can cheerfully recommend your remedy to anyone who wants a good medicine."—A. Grant.

Prominent members of the clergy are giving Peruna their unqualified endorsement. These men find Peruna especially adapted to preserve them from catarrh of the vocal organs which has always been the bane of public speakers, and general catarrhal debility incident to the sedentary life of the clergyman. Among the recent utterances of noted clergymen on the curative virtues of Peruna is the above one from Bishop Grant.

Writes His Recommendation for the Famous Catarrh Remedy, Pe-ru-na.

The day was when men of prominence hesitated to give their testimonials to proprietary medicines for publication. This remains true today of most proprietary medicines. But Peruna has become so justly famous, its merits are known to so many people of high and low station that none hesitates to see his name in print recommending Peruna.

The following letters from pastors who use Peruna speak for themselves: Rev. E. G. Smith, pastor of the Presbyterian Church, of Greensboro, Ga., writes:

"My little boy had been suffering for some time with catarrh of the lower bowels. Other remedies had failed, but after taking two bottles of Peruna the trouble almost entirely disappeared. For this special malady I consider it well nigh a specific."—Rev. E. G. Smith.

Rev. A. S. Vaughn, Eureka Springs, Ark., says: "I had been prostrated by congestive chills and was almost dead; as soon as able to be about, I commenced the use of Peruna. I took five bottles; my strength returned rapidly and I am now enjoying my usual health."—Rev. A. S. Vaughn.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Jackson in "Mythology."

The Memphis Commercial-Appeal has been delving into the life of Andrew Jackson with startling results. A correspondent writes to the paper that its legend "giving the pedigree of Jackson, running back many centuries to the Scottish kings, making of him a descendant of Sir Robert Bruce, is the boldest venture into the unknown past to be found in historic mythology."

Rose Bush 100 Years Old.

A rose bush that has attained the age of 101 years is one of the interesting sights at the old Salem homestead in Middle Haddam. The bush was planted in the year 1800 by Mrs. Lucilla Hurd, and it is stated on good authority that it has borne roses every year for 100 years. Mrs. Hurd, who planted the rose bush, was 94 years of age when she died.

The Museum's Rich Endowment.

It is now estimated that the Metropolitan Museum of Art in New York will get about \$6,000,000 from the estate of Jason S. Rogers, of Paterson, N. J., the old old fellow who used to talk with H. Cressola by the hour about the finances of the museum, but never in twenty years asked a question about the contents of it.

Easy Come, Easy Go.

The man who creeps along bent over, with his spinal column feeling in a condition to snap like a pipestem at any minute, would readily give a great deal to get out of his dilemma, and yet this is only the commonest form by which lumbago seizes on and twists out of shape the muscles of the back. This is commonly known as backache, a creek in the back, but by whatever name it may be known, and however bad it may be, 10 minutes vigorous rubbing with St. Jacob's Oil on the afflicted part will drive out the trouble and completely restore. It is a thing so easily caught, it may be wondered at why there is not more of it, but because it is so easily cured by St. Jacob's Oil may be the very reason that we hear so little of it.

Every man knows worse of himself than he knows of others.
