IS A MATTER OF MUST

Heavy Hand of Uncle Sam is Felt in Island of Cebu.

LOGEGA AND HIS FORDE SURRENDER

Maxillot's Submission Will Mean Pacification of the Provinces—Lack of Food Distresses Insurgents—Constabulary Punishes the Insurgents.

MANILA, Oct. 28.—The constabulary reports a fight with insurgents near Passi, province of Iloilo, island of Panay, in which twenty-five insurgents were killed and three captured, together with a quantity of arms and ammunition.

The news from General Hughes regarding conditions in the island of Cebu is encouraging. Logega has surrendered with his entire force, with one cannon and several rifles, while General Hughes is negotiating for the surrender of Maxillot, who styles himself "governor militar politico."

His surrender will mean the pacification of the province.

Lack of food and the harassing effects of the aggressive tactics now pursued by the Americans forces are having the influence upon the natives. In many places where rice is doled out by the government only enough is given for one meal, so that it is hardly possible for any large quantity to find its way to the insurgents.

It is believed that the recent manifestations in the island of Samar were chiefly due to the lack of food, the insurgents finding it necessary to make outlets to the coast in order to obtain supplies.

The first labor problem growing out of the new tariff has arisen. A hat and umbrella factory, employing 600 hands, has found it necessary to close. The lawyers are making a protest to the commission, urging protection, as the same goods from Germany can be sold at half the price it takes to manufacture them here.

Dispatches from Cabaletan, Samar, say that stringent and energetic measures are being taken to suppress the insurrection in that island. General Smith has notified all the presidents and head men of the Pueblos that in order to avoid trouble they must surrender all arms and turn over the persons implicated in the Balingiga massacre before November 6, threatening that otherwise the presidents will be sent to the island of Guam, the villages destroyed and the property confiscated.

Marines in charge of Major Littleton W. Waller have been stationed at Balangiga and Basey and ten gunboats are patrolling the Samar coast.

Most of the towns in the Southern part of the island have been destroyed.

Novel Cadet Loveman Noa, commanding the gunboat Mariveles, which had gone ashore at Nipa Nipa, South Samar, to prevent smuggling, was attacked by the insurgents. He lost his revolver and was shot and wounded.

Lieutenant J. Van Schleich reports that in an attack by insurgents on the municipal police and scouts at Sabang one scout was killed and two of the police were captured. The insurgents secured two Krag-Jorgensen rifles, two shotguns and 200 rounds of ammunition.

WAR ON TEXAS BORDER.

Eighty Members of the Wall Faction Said to Be Seeking Revenge.

NACOGDOCHES, Tex., Oct. 28.—County Judge McDonald of San Augustine county has appealed to the governor for rangers on account of the intelligence that reached here today that about eighty members of the Wall faction had assembled at Tobe, Sabine county, and were making preparations to march on San Augustine for the purpose of avenging the death of the six Walls who have been killed on the border, the latest killing being that of Eugene Wall last week. The opposing factions have been armed ever since the killing and the news from Sabine county caused the partisans of the other faction to take steps so that they could not be surprised.

Hanged From the Same Gibbet.

POPLAR BLUFF, Mo., Oct. 28.—Steven Clark, white, and Zeb Crite, a negro, were sentenced to be hanged from the same same gallows here on December 20. Clark stabbed Alice Giles to death while in a jealous rage. Crite in September last called Thomas Graham to his door and shot him dead. Will Gatlin and Ike Torrence, negroes, were arrested as accessories and the former was found guilty of murder in the first degree last night.

LAST HOURS OF ASSASSIN

Czoizgost Spends Final Day Immured From Vision of Man.

AUBURN, N. Y., Oct. 28.—The time that Leon F. Czoizgost, assassin of President McKinley, has to live is reckoned by hours now, but there has been no relaxation of the stringent rule under which the prisoner has been secluded since his confinement. Auburn prison was closed yesterday to any who sought the assassin and so it will remain until the prisoner has paid the penalty which the law enacts.

In fact, the plan to deprive Czoizgost living of any notoriety has been extended to Czoizgost dead. Immediately after the execution the clothing of the murderer, with the vast accumulation of mail that came to the prison for him, will be turned and if possible the request of the parents of the dead man for his body will be evaded. It is feared that the removal of his body to Cleveland would lead to scenes of an unfortunate nature and the prison officials are very anxious to avoid anything of the kind. The plan of burning the clothing and letters of the murderer will prevent the exhibition of relics by those who pander to the morbid.

The hour of 7 on Tuesday morning is the time set by Warden J. Warren Mead for the execution. Various reports changing that time have gone through Auburn. One rumor places the time at 7 o'clock Monday morning, but that is discredited by the fact that Superintendent of State Prisons Cornelius V. Collins will not arrive here until 3 p. m. Monday afternoon and none of the regularly summoned witnesses has yet reached Auburn.

LEAP TO THEIR DEATH.

Inmates of Eight-Story Building in Philadelphia Forced to Jump.

PHILADELPHIA, Oct. 28.—Nineteen known dead and property loss amounting to upward of \$500,000 is the result of a fire today in the business section of this city. The number of injured is not known definitely, but fully a score of victims were treated at various hospitals. Police and firemen tonight are searching in the ruins for bodies of those supposed to have been burned to death. The buildings destroyed were the eight-story structure, 1219 and 1221 Market street, occupied by Hunt, Wilkinson & Co., upholsterers and furniture dealers, and three-story buildings occupied by small merchants. The big furniture establishment extended back a half block to Commerce street and was owned by Henry C. Lea. Up to this time nineteen fatalities are reported. Such a disastrous fire, attended with so great a loss of life in such a brief time, was never before known in this city. Men and women died a lingering, agonizing death in the presence of thousands of spectators, who were unable to lift a hand to their assistance.

No News of Miss Stone.

WASHINGTON, D. C., Oct. 28.—The state department officials had no news to give out today regarding Miss Ellen M. Stone, the American missionary now in the hands of the Bulgarian brigands. They are continuing unceasing in their efforts to obtain her release and today messages were sent to Consul General Dickinson and to Mr. Eddy, the charge at Constantinople, urging renewed efforts for the establishment of communication between the missionaries and the captors of Miss Stone. The officials continued hopeful of ultimately securing her release.

WEST FOR IRRIGATION

Senator DuBois Declares Members of Congress Are Determined.

THE LANDS MUST BE WATERED

Construction Will Be According to the Scheme by Government—Money for Land Sales—A Movement All Along the Line to this End.

SIoux CITY, Ia., Oct. 26.—The Journal this morning publishes an interview with Senator Fred J. Dubois of Blackfoot, Idaho, on the object of irrigation in the west. Senator Dubois is quoted as saying:

"It is going to be a leading question for congress to deal with. There isn't any doubt but that conditions demand an immediate consideration of this matter and speedy action. I think these conditions bear a strong relation to the industrial situation in this country today. We are complaining of poverty among the people, when out in this great new western country there are over 100,000,000 acres of land that are not used because they are fit for nothing in the present condition, but which can be reclaimed for agricultural purposes by irrigation."

"In our state it is covered with sage brush. It is virgin soil, and it is the best soil in the United States, no place excepted. Sections that are irrigated through private or corporate means produce crops of grain, vegetables and fruit that no section of the country can equal. For instance, the soil will produce from 200 to 300 bushels of potatoes to the acre, and 25 bushels of wheat to the acre."

"We have the Snake river, a natural stream passing through Idaho, whose waters are used for irrigation purposes by private persons and companies. This river has a volume of water about like the Ohio river, and along its valleys canals and ditches are dug to drain the water out over the lands. I should say 2,500 miles of canals and ditches have been built by individuals and companies made up from a half dozen to a hundred farmers each. The most of the latter institutions are the co-operative plan."

"The plan I expect to promote this winter has been practically agreed upon by the senators and representatives in the western states which are interested. It is proposed that the government take hold of the matter of the development of these arid lands. The receipts of the land offices of the various states derived from the sale of government lands are to be applied as far as they are in excess of the salaries of the receivers, registrars, etc., to a fund to be expended in the building of reservoirs and canals on the high lands. Thus the great quantities of water that come from the snows on the mountains may be stopped from racing madly to the southlands and flooding the lower Mississippi out of its banks, causing loss of life and great destruction of property. The waters will be caught and corralled in the immense reservoirs, and thence out into the radiating ditches and released over the lands of the west as required by conditions or directed by law."

"You see this government irrigation will permit lands now unused to be reclaimed and sold to homeseekers by the government, which will raise more money each year for the irrigation fund. By this scheme of evolution every acre of arid land will eventually be made ready for cultivation in the great arid belt. California, Idaho, Wyoming, Montana, Utah, the Dakotas, Nebraska and other states are interested in this matter."

"The management of the land offices will remain with the government, but there might be state laws to regulate the distribution of the water. It would be necessary to legislate to preserve the great white pine forests that stand on the hills of the west in order to avert the rapid melting of the snows. Men from the east are buying large tracts of these timber lands to cut out the trees, but this can be checked. We have in the state of Idaho alone 12,000,000 acres of unused lands."

Packers Win Damage Case.

ONAWA Ia., Oct. 26.—The case of the Ralya Market company of Sioux City against Armour & Co. for \$175,000 damages for breach of contract on the sale of pork loins at a fixed price came up in district court on motion to abate the action, as the firm of Armour & Co. was a partnership and the action was abated by law upon the death of Philip D. Armour, Jr. The motion was sustained.

FEEL THE LOSS IN CORN CORN.

Dullness in Ocean Freights on Account of Decreased Exports.

NEW YORK, Oct. 25.—Numerous floating grain elevators loomed above the shores of the Atlantic basin, back of Governor's Island, and 124 berthed steamers, many of them tossing idly, attest an unprecedented dullness in ocean freights, says the World. It is due to the shortage of the corn crop out west. Corn exports are 30,000,000 bushels behind the same date of 1900. "Corn makes ocean freights—not wheat," explained Broker Lunham of Lunham & Moore, freight brokers and forwarding agents, Produce exchange. Experts estimate 100,000 tons of ocean cargo space tied up in New York, about the same in Philadelphia, and smaller amounts in Boston, Baltimore, Norfolk and New Orleans. Coal that was formerly carried to Europe for \$3.75 and \$4 a ton is now carried for \$2. General cargo from the gulf to Denmark that brought \$4.50 and \$5 a ton is now being taken for \$3.12. Ocean freights have fallen 20 per cent at least.

MUST PAY PENALTY SOON.

Murderer of William McKinley Has Not Short Time to Live.

ALBANY, N. Y., Oct. 25.—Leon F. Czoizgost, the murderer of President McKinley, will be electrocuted at 7 a. m. on Tuesday, October 29, at Auburn prison.

Warden Mead has selected Tuesday, so that final arrangements may be made on Monday. In doing this he is following the general custom in the state prisons relative to electrocutions. It does away with the necessity for making final arrangements on Sunday. The sentence of the court was that the execution of Czoizgost should take place during the week commencing October 28, leaving to the warden of the prison full power to select the day of the week in which to carry out the mandates of the law. This latitude is given the warden to secure secrecy as to the time of the execution and to guard against delay from accident, such as in 1893 caused a delay of an hour in an execution after the condemned man had been taken into the death house at Auburn penitentiary.

TO RE-OPEN IN SOUTH OMAHA.

Will Use Nebraska Plant While Rebuilding Near Chicago.

OMAHA, Oct. 25.—The Hammond company, which burned out in Chicago, is losing no time in starting its South Omaha plant. Charles S. Felch, assistant superintendent of the St. Joseph house of the company, arrived in South Omaha on the morning train and set to work at once putting the plant in condition for business. Men were employed the first thing to clean out the boilers, connect them up and get the power plant in condition. Other men are at work putting the remainder of the houses in shape. He states that killing will be resumed inside a week and ten days and the plant run to its full capacity. It has been idle since last spring, but has not deteriorated any and all that is necessary is to clean it up.

THE RAIN IS HELPFUL

Elements Take a Hand in Hastening the Deliverance of Miss Stone.

MAY FORCE BRIGANDS TO MOVE

In Such Event They Will Be Glad to Take the Ransom—The Mission Treasurer Thinks the Next Move Will Be a Call for Money.

CONSTANTINOPLE, Oct. 24.—Cold rains are falling in the district where the brigands who abducted Miss Stone, the American missionary, are concealed and a prolonged stay in the mountains is believed to be almost impossible, even for the brigands. Hence it is considered that they will hasten to release the captive as soon as they can secure the ransom and then disperse to their homes.

No word has come to the missionaries today, though W. W. Peet, treasurer of the missions here, to whom they would communicate, is hopeful. Mr. Peet is not expecting news until he is asked to forward the gold, which he estimates will weigh between 300 and 400 pounds.

PARIS, Oct. 24.—M. Saratoff, the former president of the Macedonian committee, has written a letter to the Temps, dated from Paris, emphatically denying the reports that he is an accomplice in the abduction of Miss Stone, the American missionary, and that he is even now at the head of the band of abductors. He says he has been living quietly in Paris for the past month.

LONDON, Oct. 24.—"Seven brigands held up a diligence that was proceeding to Cassari, in Sardinia, with a registered mail bag," says a dispatch from Rome to the Daily Express. "Shots were exchanged and two carabinieri who were escorting the diligence were wounded, while a woman passenger was killed. In the scuffle the postal clerk escaped with the registered letters."

Admiral Rogers has received a report by gunboat. He has notified the troops at the ports to be on their guard, owing to the massacre of the company of the Ninth regiment at Balangiga.

At Pambujan, Island of Samar, all of the buildings in the vicinity of the barracks were immediately raised. The central Filipino committee has issued a proclamation confirming Malvar as the success or Aguinaldo. Copies of the document have been widely circulated.

The arms and ammunition will be turned over to the Colombian liberals at Llanos-de-Casanare, for use by the latter against the conservative government in the Colombian department of Boyca. The expedition, which was sent by the Venezuelan government, departed openly, following plans arranged in Caracas.

HIGH PRICE FOR LIVE CATTLE

Bunch of Steers and Heifers Bring \$6.80 Per Hundred.

OMAHA, Oct. 23.—That choice cattle are bringing high prices at the South Omaha market was again demonstrated yesterday by the sale of a bunch of steers and heifers that sold at the highest prices of the season. The cattle were raised on a farm at Papillon owned by A. W. Clark. They were nearly two years old and were Whitefaces and Shorthorns. For nearly a year they have been on full feed and were given a ration of corn meal and alfalfa hay. When weighed at the stock yards they showed an average weight of 1,257 pounds and sold for \$6.30.

The highest price paid previous to this time was \$6.25 and that was for straight steers. The fact that out of the nineteen head marketed by Mr. Clark there were ten heifers makes this sale by far the highest of the season. It may safely be said that \$6.30 is the highest price ever paid at South Omaha for that many heifers.

Mr. Clark is a firm believer in the theory that it pays to raise good cattle and in making them fat before sending them to market. He has one of the best equipped feeding yards in the state and he seldom fails to top the market whenever he has cattle for sale.

MINISTER FOR THE ASSASSIN

Czoizgost Selects a Pastor Though He Had Renounced Religion.

AUBURN, N. Y., Oct. 23.—In accordance with Czoizgost' wishes, Rev. John J. Hickey, pastor of the Church of the Holy Family and the Catholic chaplain of the prison, has appointed Rev. Father Szandinski, pastor of the Polish church of Rochester, to attend Czoizgost in his last hours.

After his baptism Czoizgost never practiced his religion and as an anarchist denounced all its tenets. He will make a statement to this effect before his death.

The interview between priest and prisoner proved very unsatisfactory to both. It took place in the condemned man's cell and the conversation was carried on in Polish. During the interview Czoizgost said he had been baptized in the Roman Catholic faith in the Polish church in Detroit. He had abandoned the church early in life and had lost all faith in it.

BROOKER WASHINGTON IS MUTE

Alleged Interviews Concerning His Recent Dinner at White House.

NEW HAVEN, Conn., Oct. 23.—Booker T. Washington, who is here attending the Yale bi-centennial celebration, gave the following statement to the Associated Press: "I understand that some papers in certain parts of the country are printing alleged interviews with me. I want to state as emphatically as I can that I have given no interview and have refrained from any discussion of what occurred at Washington, although persistent efforts have been made to put words into my mouth."

Calcium on Anti-Toxins.

CHICAGO, Ill., Oct. 23.—Dr. Jaques Loeb of the University of Chicago, whose researches into the effects of salt solution in the animal system are attracting wide attention, read a paper tonight under the University Medical association, stating that he had discovered an anti-toxin for the poisonous effects of the common salt solutions in animals. He made the discovery in studying the segmentation of embryo in the cell and the beginning of its individual life. The salt solution, on account of the poison, killed the incipient animals. But when a calcium preparation was added to the salt solution 80 per cent of the segmented embryos lived.

Coray Again Named.

HARRISBURG, Pa., Oct. 23.—The democratic state committee held a special meeting to fill the vacancy on the ticket caused by the decision of the Dauphin county court declaring invalid the nomination of E. A. Coray, Jr., of Pittston, for state treasurer. Mr. Coray's name was again placed on the democratic ticket. He is also the nominee of the union and municipal league parties.

Trace of Miss Stone.

LONDON, Oct. 23.—It is reported from Sofia, says the Vienna correspondent of the Daily Mail, that United States Consul General Dickinson, has received intelligence from Shepherd that Miss Stone was seen at Jakouoda, on Turkish territory, about two hours' journey from the Bulgarian frontier.
