THE NORTH PLATT VALLEY in North-West Nebraska, offers some wonderfully good opportunities to the man or woman with a little money to invest in irrigated land.

Excellent irrigated land can be had now for \$12 to \$15 an acre, but it is plain to those watching the development of the North Platt Valley that this low price is just about to fade away.

The farmers of this valley are now reaping an abundant harvest. Alfalfa, corn, wheat and garden vegetables yield good profits. There are also good openings in the live stock business. If you are interested in the North Platt Valley, write for our booklet describing it. It is free.

WEDDING BELLS.

Two of our most popular young people were joined in the holy bonds of wedlock at the home of the brides parents, Mr. and Mrs. David Doner, of Washington twp. Miss Lenna Doner of Sherman county and Mr. Claud E. Gusner of lower Custer county, Neb. were the contracting parties.

Promptly at high noon of Wednesday October 30, 1901, the bridal party filed into the beautiful and well decorated parlor. The bride was attended by Miss May Peacock, and Miss Bessie Gusner, while Lewis and Arthur Gusner did the honors as groomsmen. They were preceded by Rev. Appleton of Arcadia, who later said the solemn words which made them man and wife.

The happy couple were the recipients of many beautiful and useful presents, after which congratulations were extended. The guests were then conducted into the dining room where a sumptuous wedding dinner awaited them and all did justice to the occasion.

As the sun sank low in the west the guests once more wished the newly formed family a long, happy and prosperous voyage down the river of life and then departed for their respective homes. The NORTHWESTERN extends warmest congratulations and may they love and live forever.

FARMERS INSTITUTE.

A farmers Institute will be held in Loup City, Neb. on the 5-6 of December 1901.

The management is putting forth greater efforts this year than ever before. The point has now been reached where the Institute force is no longer made up of volunteers, whose personal interests may often hinder their fulfilling the engagements made with the Institute management; but the speakers are now regularly engaged, and when advertised to speak, will be on hand.

In each instance the Institute speaker has not only scientific knowledge of the subject in hand, but has also made a success in the line it presents. This is deemed necessary to the highest efficiency in the work. In the selection of these workers the superintendent found himself in competition with some of the most active Institute managers in this country.

In securing the services of Hon. M. F. Greeley and Mrs. Bertha D. Laws, Superintendent E. A. Burnett, brings to Nebraska, two of the most popular Institute workers of the United States.

The University Regents who have this work in hand are determined to push it to the front.

If the Institute at Loup City is not a success it will not be because the Institute force is lacking in energy, for eternal work is their watchword.

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "she was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use. It is for sale by Odendahl Bros.

Came Near Dying.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. ALL CASES OF **DEAFNESS OR HARD HEARING ARE NOW CURABLE** by our new invention. Only those born deaf are incurable. **HEAD NOISES CEASE IMMEDIATELY.**

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.
