

Gibson carried eight townships out of the thirteen in the county and tied on one. Dietrichs carried the other four.

The corn crop of the United States is 850,000,000 bushels short this year which will give us the old proverbial streak of lean and streak of fat.

There were two great draw backs to the success of republicanism in Sherman county this year: One is that Bryan could not be here, and the other that Brown did not have time for one more issue of the Times before the election. Could these two things have happened we feel confident that the whole county ticket for the republicans would have been saved.

A man went into a store in a neighboring town and asked if he could rest four or five hours, says a Georgia paper. The proprietor, who had just found a nest of new born mice in the coffee grinder, told him he could, and then ask him why he didn't go to the hotel. The young man replied, "I am suffering from nervous prostration, and the doctor said to get a quiet place to rest, and as I see you don't advertise, I know that I couldn't find a quieter place." And with that he settled back in his chair and watched the swallows build a nest in the cheese case.

The fact that the state of Nebraska is again swinging around to its old position in the republican rank cannot be doubted, if election returns count for anything. The republicans elected their supreme judge and both regents of the university by about 13,000 majority and all the populist counties have elected a part of the republican officers, if not all. The signs of the times cannot be gotten around: The people are thinking and a full stomach is the best convincer. Our crops were poor 'tis true, but the money market is easy and if we want a dollar we can get it, which was not the case under a democratic administration.

There does not seem to be any reason for men going wild because a candidate of the opposite party happened to be elected. It is generally supposed that one man has just as good right to an office in the United States as another, and if he has "personal friends" enough to elect him why should the bosses of the opposition go into hysterics about it. It is not supposed that any man has a mortgage on those offices and when the time of the county clerk elect is out he will greet his successor with a warm shake of the hand and a God speed on his journey, be he who he may. He wants his friends to know that he does not own the court house.

There seems to be agents running around over the county enlarging photos and selling picture frames to any and all who are induced to invest. In many cases they jot down an order for photos when in fact no order has been given, that is if they can manage, by some hook or crook to get hold of the likeness of the person. Then in due time the work is ready for delivery, when they notify the party and in a few days call with the picture and frame. In no case is the frame included in the order, but by their representation that it is of a superior quality and would cost double the price ask by your home dealer, they manage to sell it for an outrageous price. Now if you will take the trouble to enquire the price of picture frames at your local furniture store you will find that you can be supplied with equally as good or even better material at a less cost.

And the victory is ours and the pops are on the run.

We will say to Frank Badura and to Johnny Minshull to:

That to hold the reins forever tisn't likely they can do.

There must be a change in office in the court house over there.

Which will make all things seem brighter 'round the grassy court house square.

We have met them with surprises. We have busted up the ring:

THE NORTH PLATT VALLEY

in North-West Nebraska, offers some wonderfully good opportunities to the man or woman with a little money to invest in irrigated land.

Excellent irrigated land can be had now for \$12 to \$15 an acre, but it is plain to those watching the development of the North Platte Valley that this low price is just about to fade away.

The farmers of this valley are now reaping an abundant harvest. Alfalfa, corn, wheat and garden vegetables yield good profits. There are also good openings in the live stock business.

If you are interested in the North Platte Valley, write for our booklet describing it. It is free.

Look out for the Original Nicols Vaudeville Co., at Society Hall, Friday Nov 15, 1901.

"Uncle Jack" Ford and family started for Cheyenne, Wyoming last Tuesday noon where they will make their future home, and where their son Morg. and family and son-in-law D. L. Adamson and family have located. Mr. Adamson's family went with them. Uncle Jack, as he is called by all who know him, has been in business here for many years having been among our early day settlers. He leaves many friends who join the NORTHWESTERN in wishing him and his good old lady a bright and happy future. Mr. Ford before leaving for his future home came to our office and with a warm hand shake bid us good bye and left us an official atlas of Nebraska and a very pretty cane, saying that it was all he had to leave, and asking that we send him the paper for a time. We cheerfully comply with his request and treasure his gifts with deep appreciation. They shall ever be preserved as tokens of lasting friendship.
