CANTON CITIZENS DO HOMAGE TO M'KINLEY'S MEMORY.

LOVE OF THE BEREAVED WIFE

She Lays the Customary Bouquet on Her Husband's Bier and Judge Day Eulogizes His Dead Chieftain in Appropriate Words.

CANTON, O., Sept. 15.-There was a general observance of McKinley memorial day in the city which claimed him as its own. From almost every pulpit there was reference in prayer or address to him and his work. His favorite hymns were used. The address that attracted most attention here was that given by Judge William R. Day, McKinley's secretary of state, and a friend and adviser of McKinley for years. The address was delivered in the First Methodist Episcopal church, of which McKinley was a member. A portrait of the late presiding. Tillamook also has been saved dent, around which were the folds of the Stars and Stripes, emblematic of his patriotic spirit, was displayed.

In the Catholic church a special mass was said and some of the priests made references to McKinley, they having known him personally.

Although deeply conscious of the fact that just one year ago her beloved husband died, Mrs. McKinley did not vary the program followed by her for several months. All days to her, have been memorial days. Her usual trip to West Lawn cemetery was taken this forenoon and she laid love's offering of flowers on the casket that contains the remains of the nation's martyred chief. Mrs. Garrett A. Hobart, who is her guest, went with her into the McKinley tomb, and also laid. a bouquet of flowers on the coffin. Their drive took them to the Mc-Kinley family burial lots, where bouquets were laid by Mrs. McKinley's direction. During the day there were. many visitors at the McKinley vault,

Judge Day's tribute to his martyred chief was, in part, as follows. "This tragedy which fills our hearts with grief has a lesson for the living, and calls upon the law-makers to enforce laws for the suppression and punishment of those who teach or practice the dreadful tenets of this code of lawlessness and ruin."

Referring to the early life of Me he heard the call of his country to Kinley, he said: "From the high school her sons and at once stepped into the ranks as a defender of the union. His associates in arms, officers in his regiment, included such lawyers as Hayes and Matthews and their companionship. While a valiant soldier he determined to adopt the legal profession as his calling should he survive the perils of war."

Referring to the Spanish-American war Judge Day said: "He determined to do all within his official duties to benefit the Cuban people, to relieve the strain on our people, and if possible to accomplish these ends without an appeal to arms. These purposes are the key to his Cuban policy steadily pursued, with much accomplished when the unlooked for happened in the treacherous anchoring of the Maine, by which she became the easy prey | Constabulary in Luzon Kills Eighteen of malicious persons bent on her destruction. The timber losses in Clackamas county have been immense and the whole length of the Clackamas river presents nothing but vistas of ruined settlements.

In eastern Multnomah the fires are under cortrol and no further damage is feared unless weather changes. In southern Oregon excellent work has been done by the ranchers and the des struction confined to a comparatively limited area. report of the statistitian of the Department of Agriculture shows the average condition of corn on September 86.5 on August 1, 1902, 51.7 on September 7, 1901, 80.6 at the corresponding date in 1900 and a ten-year average of 78.8. Except in Kansas and South Dakota, which report a decline of 12 points and 2 points during August, no material change of condition is reported from any of the principal corn states, and except those of the south and the state of Michigan they again report condition averages in excess of their respective averages for the last ten years.

Notwithstanding its marked decline during August, Kansas reports a condition of 91, or 25 points above its ten-year average, while Nebraska and Missouri exceed their respective tenyear averages by 35 and 22 points respectively; Indiana, Ohio, Illinois and Iowa by 16, 11, 14 and 10 points respectively and Pennsylvania, Wisconsin and Minnesota by 6, 4 and 3 points respectively.

The crop, however, is so late that throughout the entire northern portion of the belt prediction of more than an average crop are invariably made contingent upon the immediate advent and continuance for some days of the most favorable conditions of weather.

The average condition at harvest of winter and spring wheat combined was 80, against 82.8 last year, 69.6 in

1900 and a ten-year average of 78.9. Ohio, Michigan, Indiana and Illinois report 13, 18, 15 and 21 points and North Dakota, South Dakota, Nebraska and Missouri 20, 20, 25 and 24 points respectively above their tenyear averages, the condition in Minnesota differs only one point from the state's ten-year average, while Pennsylvania and California report 5 points below the ten-year average, Iowa 12 points below and Kansas a condition of 49.23 points below the ten-year average of the state.

The average condition of oats when harvested was 87.2, against 72.1 last year, 82.2 in 1900 and a ten-year average of 79.7. While correspondents report the harvesting of an exceptionally large crop of oats, there are indications that the crop will be very deficient in quality, this will be reported on more fully in December, when the yields per acre are sent in.

Of the ten states having 1,000,000 acres or upward in oats, Iowa alone reports a condition comparing unfavorably with its ten-year average.
