The U. P. freight train was derailed last Saturday noon on its homeward run. When within about a mile and a half of town the rails spread and the baggage car and coach and a refrigerator car were completely derailed, the engine alone standing on the track. MANUAL OF SOIL CULTURE. Send me a 2 cent postage stamp and I will mail you free a copy of Campbell's Soil Culture Manual, a valuable work that every farmer ought to have. J. FRANCIS General Passenger Agent Omaha.

John H. Powers fusionist candidate for state office said in his speech at the Parel school house last Tuesday night that while traveling over the country he stopped off at a station and saw three or four men standing around. He said some might take them for tramps but he thought that they were respectable looking men, so he ask them where they were going, and they answered that they were going east in search of work. The idea of a man going east hunting for work when work is every where hunting for him. Show us such a man and we will show you a man that wont work when he finds it. Workmen are everywhere wanted, and at \$2.00 to \$2.50 per day. A few days ago a young boy of 17 was offered \$2.50 per day to go with a threshing machine.

Wes. McCombs, a farmer living five miles south of town, after hunting the country over for a hand, came to town, and only succeeded in getting one by offering to pay \$45.00 per month and board and the young man left a job that was paying him nearly as well to accept it. Farmers are compelled to keep their children out of school to get their hay put up and their corn husked because everybody is so busy that they cannot get help at any price. Mr. Powers is indeed hard up for an issue when he has to patch up such a story to go before the people with.

One Use for a Book. When in India several years ago Winston Spencer Churchill, Lord Randolph Churchill's son, presented a copy of his first book to Gen. Tucker, who previous to his South African command was to command at Secunderbad. "Do you like it?" young Churchill inquired of the general. "Haven't read it. Is it meant to read?" "Why, yes." "Why you'd told me so before. I keep it hanging up in my dressing room and tear off a page every morning to wipe my razor on."

DR. BLACKBURN'S ATTRACTION.

It is safe to say that never since the opera house was completed has there been such crowds therein as are attending performances being given this week by Dr. W. M. Blackburn's Electric Appliance Company. Heretofore school commencement exercises have held the palm for crowding the house, but they are not in it with the attraction of the house this week. The performances are of the vaudeville variety composed of songs, dances, impersonations, trap-pee performances, character sketches, farces and classical singing. Everything is of a clean and humorous character calculated to keep people laughing continuously with nothing of a degrading or immoral nature. Dr. Blackburn carries a full line of electrical appliances and electric belts which he sells to the people in the audience after an interesting talk on various diseases to which the human family is heir. Each night there is given away free several pieces of beautiful silverware, glass-ware etc., to parties holding proper drawings. The engagement closes tomorrow night and next week the company will be in Broken Bow. They are all right and Broken Bow people can count upon a very entertaining attraction.—Grip. Alliance Neb.

This company will exhibit in Loup City at Pilger's opera house for a week beginning Monday, Oct. 20. Monday evening admission free.

"I dreaded the change of life which was fast approaching. I noticed Wine of Cardui, and decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax."
