SUICIDE BY DROWNING.

County coronor, G. W. Hunter was called to the telephone Tuesday forenoon, it being a summons to come to Litchfield and hold an inquest over the dead body of Mrs. Ira Williamson, of that town, whose body was found in the water, near the grist mill south of town about 8 o'clock in the morning. The coroner left the county seat at about 12 m. and the inquest was held in the afternoon. On arrival of the coroner the body was removed from the creek bank to the Williamson residences. At the inquest it was learned that the husband was absent from home on the night that the drowning occurred. Mrs. Williamson retired in the evening with her oldest daughter, but in the morning when the daughter, a girl of about ten years, awoke she was alone in bed. This circumstance, however, caused no alarm on the part of the child, as it was the usual custom of the mother to get up early in the morning and go about her work. The circumstances were such as to convince the jury that she must have gone to the bridge spanning the stream, near the mill and jumped off. She leaves a husband and three children.

AN EDUCATIONAL SUGGESTION

It is now the time of year for farmers to consider the matter of sending their sons and daughters to school for the coming winter, and the editor of this paper feels like giving a little advice on this point. We are a staunch friend of the public school for their work in general, and what most boys and girls need is a course in business. If they remain on the farm they certainly need it, and if they seek a position in the city they must have it. There are several good business colleges in the west, but all things considered, we believe the Grand Island Business & Normal College of Grand Island, Nebraska, offers more advantages than can be found elsewhere. This school is particularly strong in securing positions for its graduates and those who want to be sure of employment will regard this an important point. The expenses are very reasonable and students are not required to pay for some until they have time to graduate and earn the money. Exceptional care is also taken as to the moral surrounding of the students. The College sends out a very attractive little paper free, and we would advise all who are interested to write for it.

There is to be a grand musical and novelty entertainment given at Pilger's opera house in this city, on Tuesday evening, Nov. 18. Couldn't Stand a Shawl.
When Sir John Tenniel, the famous cartoonist, was asked why he had never married he replied: "Well, if I had married a girl she would always have wanted to be going about all over the place, and that would not have suited me, while, on the other hand, if I had married an elderly lady she would have worn a shawl, and that I could not have stood."

A THANKSGIVING DINNER

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membrane lining the stomach, producing a swelling after eating, heartburn, headache, sour rising and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures catarrh. Kodol cures indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach.—Odendahl Bros.

The Swiss Teach Democracy.

The Swiss girl is taught to be humble and practical from the moment when, at the age of 4, she enters the infants' school, until at 18, when she returns finished from pension. There is absolutely no difference between the treatment of the masses and the classes. They sit together at school, are taught the same subjects by the same masters, receive the same punishment and the same praise.
