FROZE TO DEATH.
When the U. P. train crue come back from their run to Boelus Wed nesday morning they brought the startling news of the death of a girl about sixteen years old, living about two miles south of that town. We did not learn her name, but the report says that she was in the habit of assisting her father with chores at the barn and on the evening of the blizzard (Tuesday) she took the milk pail and lantern and started out a few minutes ahead of her father. When the father came on to the barn he missed her and immediately instituted a search, but in the darkness and blinding fury of the storm could find no trace of her. Early next morning her body was discovered where, in her wanderings, her clothing had caught in a barbed wire fence, the milk pail and lantern by her side.

BIG SNOW BLOW.
This locality, and in fact the whole western part of the state experienced on of the worst snow storms last Tuesday that we have had for years. The storm lasted for about 24 hours and developed into one of our old time blizzards. The trains were delayed on account of the big drifts. On Tuesday morning the U. P. crue was ordered to hold the train at this place until further orders. On Wednesday morning they pulled out and got as far as Boelus and then returned, the drifts being so large that it was necessary for the company to send out snow plows to clear the track. The B & M passenger got as far as Ashton on its westward run Tuesday night and did not get to Loup City until Wednesday morning when she came in with two engines attached. All trains are again on schedule time and the weather is clear and cold. The trains west of here on the main line, had a much worse time of it than has been experienced here.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membrane lining the stomach, producing a swelling after eating, heartburn, headache, sour rising and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures catarrh. Kodol cures indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach.—Odendahl Bros

Let us speak of man as we find him. And censure only what we can see. Remembering that no one can be perfect. Unless he uses Rocky Mountain Tea.—Odendahl Bros.

The peculiar cough which indicates croup is well known to the mother of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experiment ing with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Odendahl Bros.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ, are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all foods into rich, red blood. Odendahl Bros.

Mrs. Johanna Soderholm, of Forgas Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by Odendahl Bros.
