PRIVILEGES OF A HUSBAND.

Well Defined by Supreme Court of Minnesota.

The Supreme Court of Minnesota has decided that a man has a right to beat his wife, in moderation, if he has "good reason to believe that she has been unfaithful." He needn't know it, you know, so long as he believes it, with good reason. If he finds subsequently that he was mistaken, and that his reason, while good, was not all sufficing, he is expected to apologize like a gentleman.
