

**REGISTER OF THE U. S. TREASURY
USES PE-RU-NA FOR SUMMER CATARRH**

**Summer Catarrh
Afflicts Men and
Women.**

HON. JUDSON W. LYONS, Register of the United States treasury, in a letter from Washington, D. C., says: "I find Peruna to be an excellent remedy for the catarrhal affections of spring and summer, and those who suffer from depression from the heat of the summer will find no remedy the equal of Peruna."—Judson W. Lyons.

No man is better known in the financial world than Judson W. Lyons, formerly of Augusta, Ga. His name on every piece of money of recent date makes his signature one of the most familiar ones in the United States.

Two Interesting Letters From Thankful Women.

Miss Camilla Chartier, 5 West Lexington St., Hartford, Md., writes:

"Late suppers gradually affected my digestion and made me a miserable dyspeptic, suffering intensely at times. I took several kinds of medicine which were prescribed by different physicians but still continued to suffer. But the trial of one bottle of Peruna convinced me that it would rid me of this trouble, so I continued taking it for several weeks and I was in excellent health, having gained ten pounds."—Miss Camilla Chartier.

Summer Catarrh.

Mrs. Kate Bohn, 1119 Willoughby Ave., Brooklyn, N. Y., writes:

"When I wrote you I was troubled with frequent headaches, dizzy, strange feeling in the head, sleeplessness, sinking feelings, faintness and numbness. Sometimes I had heartburn. My food would rise to my throat after every meal, and my bowels were very irregular. "I wrote you for advice, and I now take pleasure in informing you that my improvement is very great indeed. I did not expect to improve so quickly after suffering

Hon. Judson W. Lyons.

for five long years. I am feeling very good and strong. I thank you so much for Peruna. I shall recommend it to all suffering with the effects of catarrh, and I consider it a household blessing. I shall never be without Peruna."

For those phases of catarrh peculiar to summer, Peruna will be found efficacious. Peruna cures catarrh in all phases and stages. If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

The hold-up church cannot give the world any uplift.

The dutiful are the beautiful.

**TORTURING
DISFIGURING**

**Skin, Scalp and Blood
Humours**

From Pimples to Scrofula
From Infancy to Age
Speedily Cured by Cuticura
When All Else Fails.

The agonizing itching and burning of the skin, as in Eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurements, as in acne and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry, without rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent, to cool and cleanse the blood. This complete local and constitutional treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all else fails.

Sold throughout the world. Cuticura Resolvent, 50c. (in terms of Chocolate Cuts Pills, 25c. per box of 100). Cuticura Soap, 50c. (in terms of Chocolate Cuts Pills, 25c. per box of 100). Cuticura Ointment, 50c. (in terms of Chocolate Cuts Pills, 25c. per box of 100). Write to J. C. Kennerly, Sole Proprietors, 107 North Dear St., Boston, Mass.

Best Cough Syrup. Taste Good. Use in pure, undiluted form.

Became Wealthy in Old Age.

**Remarkable Career of Capt. Ford, the Pioneer Plate Glass
Manufacturer—Business Success Achieved After
Man's Allotted Span of Life.**

This industry is the cradle of the plate-glass industry of the United States, says an Albany (Ind.) special to the Indianapolis Sentinel. The first polished plate-glass manufactured in the country is still in use in the front window of a New Albany clothing store. There are two plates, each about 6x14. Capt. John B. Ford, who erected here the first factory in the United States for the manufacture of polished plate-glass and whose name is a household word throughout Southern Indiana, is still living at 91 years of age, at Tarentum, Pa.

He came originally from Kentucky, and located at Greenville, near here. He was a "natural born" inventor and invented and manufactured a machine for chipping straw. He soon moved to New Albany, where he built steamboats. His attention was attracted by a little factory at Lenox, Mass., which was manufacturing a crude form of rough plate-glass for skylights. He set his wits to work and designed the first machinery for the manufacture of polished plate-glass. This machinery was made at New Albany foundries. He interested his cousin, Washington C. De Pauw, a man of large means, and they operated the first plate-glass manufactory, which was a huge success, but they could not agree as to business policy, and Ford sold his interest to De Pauw. Ford then established factories at Louisville and Jeffersonville, which failed.

Capt. Ford's history from this time furnishes the most remarkable instance on record of a man building up an immense fortune in his old age. He was 78 years old when he started for New York, but was smooth-shaved

and looked much younger. He did not have money enough to buy his railroad ticket. He arrived in New York penniless, but his wonderful genius for organization enabled him to interest big New York capitalists, who furnished the money with which he built and put in operation two immense plate-glass factories—one at Tarentum and the other at Creighton, Pa. Later he founded Ford City, sixty miles east of Pittsburgh, establishing there a factory employing and introducing all modern accessories. About four years ago he sold his factories, which were all in his own name, to the plate-glass trust for \$10,000,000, and he has been living in retirement since.

He was the first man in the United States to discover that natural gas could be used as fuel for manufacturing purposes. He built his factory at Tarentum alongside a coal bed, expecting to use it for fuel. His workmen, in making soundings, discovered gas, and he was not long in harnessing the new fuel and making it do his work. In his long career of large manufacturing endeavors he never had a strike, because he always paid the highest wages that could be paid in the business. It is difficult for New Albany people to realize that the old man who left here without a penny, borrowing money to buy his railroad ticket, is now a multi-millionaire. He is afflicted with cancer, which will soon end his career. He has built at Greenville, Ind., his old home, one of the finest Methodist churches in the state, and his other bequests within the last two years amounted to at least \$500,000.

Short Name Is an Advantage.

**Of Very Great Practical Value if You Should Happen to
Be a Presidential Cabinet Officer—Abbreviations
Generally Used in Signing Official Documents.**

The present cabinet is made up of men with shorter names than any set of cabinet officials in many years. Five of the nine advisers of the President bear names of only one syllable each. These are Secretaries Hay, Root, Shaw, Postmaster General Payne and Attorney General Knox. Secretary Moody has not a long name; neither has Secretary Wilson. Secretary Hitchcock has nine letters and two syllables in his name. Secretary Cortelyou has nine letters and three syllables. His is the hardest of all the cabinet names to pronounce. All the others are plain. The predecessors of these men, however, did not have long names, and if the letters of all the men who immediately preceded them were put together the results would be almost the same as at present—in fact, just one letter's difference. Secretary Hay succeeded Secretary Day, the same number of letters. Secretary Root succeeded Secretary Alger, a gain of one letter. Secretary Shaw took the place of Secretary Gage, the same number of letters. Mr. Payne came into the cabinet when Charles Emory Smith went out, the same number of letters.

The value of a short name in departmental work is appreciated by heads of departments and their assistants. The thousands of documents to be signed daily make it laborious and tedious work to repeat a long signature so often. In fact, hundreds of men have wished that they could have attained equal fame and importance under shorter names. It is nearly always the case that when a new cabinet officer takes charge he will begin by signing his name in full, like "Benjamin B. Smith," but he will not keep this up long, and in a month will have reached the conclusion that "B. B. Smith" is good enough for all official papers. In some especial document he may sign his name in the full style, but he reserves that as a sort of special affair, like a Sunday suit of clothes.

The Might of a Lie.

**Task of Overtaking an Untruth Has Well Been Described
as a Hopeless One—How Fabrication Wrecked
Political Career of John G. Carlisle.**

Probably the most impossible, hopeless task on earth is to overtake a lie. The other day ex-Speaker John G. Carlisle, now a successful lawyer for great corporations, with an old-fashioned home in North Washington square, passed along Pine street with the easy gait of a plow horse. Two citizens saluted him and when he had passed on one remarked: "There used to be the making of a president in that man. The entire country looked up to him. If it had not been for his Cynthia speech the northern democracy would have been solid for him, and, of course, he owned the southern wing. The speech ruined him. He retired from politics with a broken heart and settled in New York to make a little money."

Here is an extract from that famous, heart-rending speech: "I deny that the United States is a nation! It is a vicious system that has destroyed sovereign states and oppressed nine millions of people in the south. If a state has no right of secession she certainly has no right of revolution. The most infamous order ever issued was that of the attorney general only a few days ago, which caused sixty companies of sol-

diers to march to South Carolina to take charge of the ballot box and overawe the voters of that poor, carpet-baggered state, the paradise of carnal-baggers and scalawags. But the day will come when South Carolina will rid herself of the barbarous political buzzards of the north that have fed on her carcass for the last eleven years and robbed white and black without discrimination."

For ten years Mr. Carlisle tried to run down that report of his Cynthia speech, but it had too big a lead. At one time he thought it overtaken and side-tracked, but several years later the Tribune of this city resurrected it in the original form. Mr. Carlisle explained: "I did not say that the government is a 'vicious system,' but that at that time the policy of the administration was vicious; I always held that the constitutional right to secede did not exist; there was no verbatim report of the speech, for no reporter was present; an opposition paper picked up from the audience a few stray recollections of what I said, strung them together and published them." But the lie never was nailed and Carlisle's hopes of political honors were dashed.

At the Postoffice.

A young woman called at the post-office and bashfully inquired if there was a letter for her. "Business or love letter?" jokingly inquired the clerk. "Business," was the reply, accompanied by a blush of the deepest crimson. As there was no such letter to be found the young lady took her departure. She came back, however, after a little while and said in faltering accents: "Please, would you mind looking among the love letters?"

First Class in Grammar, Stand Up. Johnny never did like school. When his mother told him he had better study his lessons or his teacher would give him a bad mark, he got sulky. "Blame old teacher," he said. "Thinks she knows it all. First she tells us something and then, when we tell it back, she says it's all wrong." "Why, what's the matter, Johnny?" asked his uncle, who hasn't forgotten he was a boy himself. "Well, you see, Nunky, it was this way. She told us that postone meant to put off. Then she asked me to write a sentence containing the word." "Well?" "I wrote, 'Boys postpone their clothes when they go in swimming.'"

GRIPPE HURT KIDNEYS.

The lingering results of La Grippe remain with the kidneys for a long time. They suffer from over exertion and the heavy drugs of Grippe medicines. Doan's Kidney Pills overcome this condition.

AURORA, NEW MEXICO.—I received the free sample of Doan's Kidney Pills which I ordered for a girl nine years old that was suffering with bed wetting, and she improved very fast. The pills acted directly on the bladder in her case and stopped the trouble. J. C. LUCERO.

BATTLE CREEK, MICH.—My husband received the sample of Doan's Kidney Pills and has taken two more boxes and feels like a new man. He is a fireman on the Grand Trunk R. R., and the work is hard on the kidneys. Mrs. Geo. GIFFORD.

PLINY, W. VA.—The free trial of Doan's Kidney Pills acted so well with me, I wrote Hoff, the druggist, at Point Pleasant, to send me three boxes, with the result I have gained in weight, as well as entirely rid of my kidney trouble. My water had become very offensive and contained a white sediment and cloudy. I would have to get up six and seven times during the night, and then the voiding would dribble and cause frequent attempts, but, thanks to Doan's Kidney Pills, they have regulated all that, and I cannot praise them too much. JAS. A. LANHAM.

The hotel which advertises home comforts does not always specify the kind of home.

Some Eminent Bachelors.
Many eminent men whose names are household words and who have left their impress upon the world were bachelors. Beethoven, Schubert, Bellini, Cinarosa and Donizetti, all great German musical composers, were bachelors. John G. Whittier, our American poet, was a bachelor. Kant, the great philosopher; Erasmus, the scholar and philosopher; Leibnitz, the German mathematician; Humboldt, the philosopher; Galilei, who discovered the application of the pendulum and that the earth revolves; Hugen, the German astronomer, who discovered Saturn's ring and one satellite; Leibig, the chemist; Dr. Hahnemann, the originator of homeopathy; Dr. Franz Joseph Gall, the originator of phrenology, and Guericke, the inventor of the air pump, were all bachelors.

Champion Circulation Liar.
The champion circulation liar has been discovered. His lair is in Japan, where he is acting as editor in chief of the Thundering Dawn, a Buddhist organ just started in Tokio. Here is his "greeting to the public":

"This paper has come from eternity. It starts its circulation with millions and millions of numbers. The rays of the sun, the beams of the stars, the leaves of the trees, and the blades of grass, the grains of sand, the hearts of tigers, elephants, lions, ants, men and women are its subscribers. This journal will henceforth flow in the universe as the rivers flow and the oceans surge."

EXPERT TESTIMONY.
Coffee Tried and Found Guilty.
No one who has studied its effects on the human body can deny that coffee is a strong drug and liable to cause all kinds of ills, while Postum is a food drink and a powerful rebuilder that will correct the ills caused by coffee when used steadily in place of coffee.

An expert who has studied the subject says: "I have studied the value of food and the manufacture of food products from personal investigation and wish to bear testimony to the wonderful qualities of Postum Cereal Coffee. I was an excessive coffee drinker, although I knew it to be a slow poison. First it affected my nerves and then my heart, but when I once tried Postum I found it easy to give up the coffee, confirmed coffee fiend though I was. "Postum satisfied my craving for coffee, and since drinking Postum steadily in place of the coffee all my troubles have disappeared and I am again healthy and strong. "I know that even where coffee is not taken to excess it has had effects on the constitution in some form or other, and I am convinced by my investigation that the only thing to do if health and happiness are of any value to one is to quit coffee and drink Postum." Name given by Postum Co., Battle Creek, Mich.

Friendship is all well enough in its way; but when a man wants to make a touch it is better to strike an acquaintance.
