For An Ideal Vacation.

Near every settlement of importance in the mountain regions of the West are deep canons wherein the people at home, as well as those from abroad, seek, in the summer season, the coolness and pleasure of camp life. High up the mountain side, on the shores of mountain lakes, or on the banks of mountain streams, summer hotels are conducted for the convenience of those who prefer to have all of the recreation and none of the labor incident to summering in the mountains. It may be said that wherever there is a mountain in Colorado or Utah there is also an interesting canon, and the searcher for a spot in which to summer will find no difficulty in suiting his taste, no matter how critical it may be.

To enable persons to reach these famous pleasure resorts, the Union Pacific has put in effect Summer Excursion rates lower than ever made before.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

His Last Hope Realized.

[From the Sentinel, Okla. Mont.]

In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors bought him one small bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The reason for bowel disorders being at hand suggests this item.—For sale by Odendahl Bros.
