work.

## NEVER TOO OLD.

Our good friend, Willis Fulliton of Austin, was in to see us last Saturday, his face wreathed in smiles over the fact that a brother of his back in Indiana, who in his 78th year had again entered into the ranks of the matrimonially inclined. Some three years ago, Mr. Fulliton attended the golden wedding of the brother, and now after passing through fifty years of wedded life and lost the companion of those fifty years, he again weds. Following is the account of the last marriage of his aged brother, who has again renewed his youth, his children all being married and settled in life and he is making for himself a new home.

Married—By Rev. William McCaughey, of Greenville, Ohio, at the home of Dr. T. C. McCaughey, June 2nd 1912. Mr. David H. Fulliton, of Wadena, Ind., and Mrs. Henrietta M. Ware, of Hoopston, Ill. The ceremony was performed in Mr. Caughey's simple and impressive style and was witnessed by the immediate friends of the bride only.

After a session of pleasant social discourse a delicious wedding breakfast was served.

The groom is a wealthy and retired farmer of Benton county, Ind. He has a pleasant home and a plentiful supply of good things of this world to which to take his new wife. She is the sister of the officiating minister; also of Dr. T. C. McCaughey, Mrs. Gildersleeve, of Hudson, Ill., a sister of the bride was present. Also a number of nephews and nieces, extending their congratulations and expressing their wish that their pathway may still be strewn with many flowers.

The bride and groom left on the 2 o'clock train this afternoon for their future home in Wadena, Ind., where they would be glad to welcome their many friends at any time.

## Never Too Young

After giving in the above news, Mr. Fulliton, still smiling, gave us some more wedding dope, which came nearer home. His youngest son, Howard Fulliton 22 years of age, who owns a Kinkaid section near Lakeside up in the sandhills, came down to Grand Island last week Wednesday, June 12, where he was met by his sweetheart, Miss May Bowen of Rockville, the two were united in the bonds of hymen and immediately returned to their ranch home, without the young couple coming home to receive the parental blessings, which are ready and in waiting, writing as a reason time was too precious, and a later season of home coming would have to suffice.

## Nebraska Roads Appeal to Automobile Tourists.

That Nebraska has the foundation for good highways was evidenced by the runs in the interests of good roads, which are being made under the auspices of the Commercial Club of Omaha. A recent test resulted in the 117 miles between Sioux City and Omaha being made in four hours and forty minutes, the test being the more satisfying because the run was made the day after heavy rains.

With more publicity of the roads in Nebraska, it will be easier to get the automobilists from the east and west to make the trip across the state instead of through Kansas as many do now. Plans are being made by the Commercial Club for a tour across the state to get the roads properly marked.

"Nebraska's roads are the equal of any of the Middle Western states" said a tourist recently. "As soon as the roads are improved, as they easily can be, the majority of the tourists will take the Nebraska route."

## THE CHURCHES

**SWEDESH CHRISTIAN.**  
Sunday June 23, Sunday school 10:30 sermon 11:15. "Man's Greatest chance."

On midsummer day, June 24, the Swedish church holds its picnic at Brown's grove. Program begins at 10:30 a. m.

**D. A. LEEPER, Pastor.**

## \$13,000 OPERA HOUSE FOR LOUP CITY

Excavation Begun Monday Morning on the New Daddow Opera House, Which When Furnished Complete Will Cost Nearly \$13,000—Other Improvement Notes

The "Big Four" company commenced breaking ground Monday morning for the new Daddow \$13,000 opera house to be erected at the southeast corner of the public square in this city, and the work will be rapidly pushed to completion. The building is to be 45x100 feet, one story and basement, of brick, with pressed brick front on the west and south, and Mr. John Ohlsen has the contract for the same. The basement, which will be of cement, will be divided in four parts, with an office room in front 14x27 feet, one large room 45x50 feet, and at the rear will be the dressing rooms in the basement under the stage, with furnace room for the heating of the entire structure. The floor above the basement will be divided as follows: An office at the west end, with probable cloak rooms, the main auditorium and the stage at the east end 21x45 feet. The auditorium will have a flat floor surface from the stage some forty feet westward, and from that to the rear of the auditorium will be a raised floor. Over the west end of the auditorium will be a balcony and the seating capacity of the opera house will be between 800 and 900 chairs. It is estimated the building when complete will cost at least \$13,000. In addition to our city this much needed and up-to-date opera house, Mr. Thos. Daddow has shown splendid public enterprise and is deserving of the sincerest praise from our people. We will speak further of the enterprise as the work progresses.

## Improvement Notes

Following the excavation for the opera house, the "Big Four" will break ground for the new hotel to be built by Mrs. Viola Odendahl, just east of the old St. Elmo Hotel, which we understand is to be two stories with basement, of brick, with pressed brick front, and up-to-date in every particular. Of this latter enterprise we will give full particulars later.

Still further, we have it from best authority that W. S. Waite has completed all arrangements for the erection of his new brick building adjoining the A. E. Chase store on the corner, which will be commenced

within a very short time, and of which Mr. Henry Ohlsen has the contract. Of this also, we will speak in detail at an early date.

Along electric light lines, the mill commenced grinding wheat by electric power Tuesday and will grind night and day now. The poles are all set, something over 300 of them in all, and just as soon as the car of wire arrives, which is expected daily, work of stringing them will be done as fast as large gangs can do it, and we may confidentially expect the plant to be in active operation over the city in the very early part of July.

Mayor Wes Pedler has the plans for a new blacksmith and wagon shop, which is proposed to be built on the lots just east of the Sweetland block, and will be 40x60 feet, the erection of which will be begun in a very short time. He will move the cottage now on the lots to lots just east of the present location.

Yesterday morning Contractor Henry Ohlsen began the foundation for the new German parsonage, which is to be of brick, 28x30 feet, one and a half stories, and work is being rushed on the same.

The new merchantile building of Felix Makowski, 25x100 feet, is up first-story and the brick masons are pushing the work rapidly.

The new postoffice building cement front is in, the walls up and the roof on. Work on the cement basement is progressing and the building will be finished contract time, the first of July. The Loup City Cement Co. people are letting no grass grow under their pedal extremities as they rush the work.

The new residence of County Clerk Dieterichs is expected to be ready for the family to occupy within another month.

The Will Wharton residence has the roof on and will soon be ready for occupancy.

The Thompson brick residence is also in a near state of completion.

The basement walls of the new Robbins brick building are in and the first floor will be laid by the last of the week.

## Driver Must Aid To Gain Results

Antagonism of Public to Automobiles Will Soon Pass

"Just one thing will finally end public antagonism toward the automobile, and that is intelligent co-operation between driver and non-motorist. And the motorist must work sincerely to bring this about. A campaign of education is needed." This is the view expressed by M. C. Moore, president of the Wisconsin state automobile association. The result, he believes, will be sane and uniform legislation.

"Take the warning signal problem," says Mr. Moore. "The public ought to realize that most of the motorists dislike the noise of the signal quite as much as the public does. On the other hand, all motorists should be compelled by law to use the signal only when necessary to warn. The city should know that unnecessary signal noise is made by only a few motorists of the 'joy-riding' type, and that the solution of the difficulty is the suppression of these motorists, not of the signal itself. But here again the motorist can lend a hand by warning or reporting these noise makers."

"Restricting the efficient signal in favor of the weak toned bulb horn does no good. It makes the automobile unsafe. The sole function of a signal is to warn, and to warn effectively it must have a volume of sound and meaning. It must be harsh and abrupt."

"The efficient signal is here to stay. Recognize its necessity and regulate its use—that is the only way. Then make this same law uniform throughout the country. A few cities have done this. It is time for the rest to act."

## Clear Creek Items

Mr. Bible, of Holbrook, Nebraska, is helping Mr. Clarence Stouffer build Mr. Kuhn's new barn.

Victor Lowery has returned home from the sand hills.

Russell Adams purchased a driving team of Harry Bellinger last week. Mr. and Mrs. George Zahn spent Thursday of last week at the home of Mr. and Mrs. Arthur Zahn of Mason City.
