The dreaded bubonic plague seems to have gained a foothold in Havana, two genuine cases having been found. Strenuous measures are being taken to prevent its spread.

Bonds for the proposed new court house for Greeley county were defeated last week, according to the unofficial returns, by one majority. The official count may change that result.

The national convention of the new Roosevelt party has been called for August 5th at Chicago, and representatives of 40 states join in the call for the formation of the wing.

The Lincoln Daily Star has now thrown off its thin mask as an independent paper and gone over soul, body and britches into the democratic camp.

On another page will be found the record of the Johnson-Flynn fight at Las Vegas, N. M., July 4th, which appears to have been a bigger fiasco, if possible, than the Johnson-Jeffries fight two years previous.

The St. Paul Republican last week spoke of a pop party. Oh, yes; that's so. There used to be such a political affair in this state. Well, well; how small matters are forgotten in the whirlwind of time.

Just think of it. The black pug made \$46,000 out of his fight with Flynn, and proposes to retire from the ring after Labor Day. That should be enough to keep his nigger-loving white wife for an awhile.

A movement is on foot among Nebraska republicans to petition both Taft and Roosevelt to withdraw from the presidential race in favor of some third party. Frank Harrison is said to be at the head of the suffle. Is it a move on Frank's part to substitute LaFollette?

According to the Zephyrills (Fla.) Colonist, its editor, our redoubtable Geo. H. Gibson, has received direct from Teddy Roosevelt a huge bandana handkerchief to be worn on his left arm. Teddy seems to have developed into George's class with a vengeance.

Voliva, the Zionist Leader, predicts that Chicago will be destroyed like Sodom and Gomorrah for its sins and that only Zion City will be saved. Wonder if Voliva has in mind the political overthrow of Teddy there some two or three weeks since.

A friend tells us that Rockefeller, the Standard Oil magnate, is for Teddy and then a moment later assures us Teddy was responsible for the prosecution of the Standard Oil monopoly. This must be a case of Rocky being smitten on one cheek and then turning the other also for a dose.

The Union Pacific has taken off six main line passenger trains, claiming they have never carried 60 per cent

of their capacity. A large number of train men are thus thrown out of employment or reduced in rank. Is this the first stroke of the alarm bell in the approaching presidential campaign?

Judge E. C. Calkins of Kearney died Monday in Omaha. He had been in failing health for some time, his death following an operation at the Presbyterian hospital.

If Charles D. Hilles' face changes as often and radically as shown in his pictures in the papers, he would make one of the best detectives on earth. Maybe that is why he has been put in manager of the Taft campaign.

Our high schools are teaching Latin, Greek, geometry, algebra, "language" and what-not which they ought to be teaching arithmetic, farming, carpentering, merchandising, engineering and every other practical subject that would make young men and women happy and contented with successful, productive work.—Central City Nonpareil.

A good friend of the editor, who is sadly afflicted with "Rooseveltitis," remarked the other day that the writer was the only Taft man here. "Rooseveltitis" is defined as a new term for political blindness, with which our friend seems to be sorely afflicted. However, the scales will fall from his eyes this coming November, when he will have to make rapid mathematical calculation to keep track of the Taft vote.

A nation-wide movement has been started at Washington to have both Taft and Roosevelt get out of the presidential - running as the only sure-thing for the election of a republican president. With both out of the way, it is claimed republican success is sure. A petition to that effect in Loup City and Sherman county we fully believe would get the signature of nearly every republican in the county.

At the rate the "Big Noises" are repudiating Roosevelt's third party where is Teddy going to get his support, outside of Millionaire Pinchot, sonny Garfield, the Morgan syndicate, the Medill McCormick Harvester trust, with even Medill getting "cold feet." Cummins of Iowa, Hadley of Missouri, LaFollette, Gov. Osborn of Michigan and a whole raft of other prominent progressives, can't stomach the new-born political curiosity and will have none of it in their's, and it looks as though wet nurses in sufficient number would not be found to properly bring it through the teething period.

Sandy Griswold in the Omaha World Herald reports the Johnson-Flynn fight in a gruesome manner, contending that Flynn would have whipped the "nig" if the referee had not stolen the fight for the latter, while the Associated Press reports in the dailies are to the effect that Johnson really "played horse" with the "hopeless white hope," who never really had a "look-in" on the winning purse at the "baby show." Sandy evidently developed a heavy yellow appetite, while the Associated fed on real dope provender. Just why a reputable daily allows such a miserable departure from straight facts is difficult to say.

## A Change Needed

(Central City Nonpareil)  
One of these days there will be a revolution in the methods on which our present high school system is based. Thoughtful people are beginning to take an inventory of the results of the system and they find that the harm being done more than offsets the benefits. We are turning out a lot of boys and girls who are unfitted for the real duties of life but who have acquired a taste for society and so called "culture" that makes them dissatisfied with the practical problems of living. There has been too much emphasis on the "making of a life," rather than the "making of a living," too much of the pink tea, hand-embroidered product, rather than the efficient and productive. Manual training and domestic science are steps away from this tendency but they need to be emphasized more strongly than they have been if they are to cure the evil. A writer in last week's Saturday Evening Post discusses this matter in a very intelligent manner. Of his nephew, who has taken the regular high school course and will soon be thrown upon his own resources, he says:

My nephew is going to work soon in a world overwhelmingly industrial and commercial. He knows nothing worth mentioning about either industry or commerce. I doubt very much if he could explain, in their very simplest terms, the process by which a loaf of bread arrives in the kitchen, or how woolen cloth or a pair of shoes get to the retail merchant's shelves. I'm sure he doesn't understand the difference between a partnership and a corporation, because I asked him. No doubt he will find a job in this industrial and commercial world that he knows nothing about. There are many jobs in a city for a presentable high school boy of respectable parantage—who lives at home so that he requires only nominal wages. He will be taken in an office or wholesale house and set at some childish task, because he doesn't know anything. He must begin at the very bottom to learn the business—meanwhile depending pretty much upon his parents for support. He will be rather fortunate if by the time he is twenty he has learned enough to be practically self-supporting on the narrowest terms.

## \$30,000 Bonds For New High School Building

The committee appointed at the annual meeting of the school board composed of County Superintendent Carrier, Messrs. C. F. Beushausen, A. E. Chase, Mrs. W. S. Waite and Miss Emma Outhouse, looking toward the feasibility of securing a new high school building for Loup City, visited Arcadia and Ord last Monday. They found the high school building at Arcadia costing \$20,000 and the Ord building costing \$40,000. The committee, after consultation, and in accordance with the action of the annual meeting as aforesaid, concluded to circulate a petition among the people of Loup City township, securing signatures sufficient to call a special election to vote bonds in the sum of \$30,000 for the erection of a high school building, and the petition was placed in circulation yesterday. At the annual meeting it was the unanimous opinion that inasmuch as the present school house is badly overcrowded and additional school room is an imperative necessity, that the committee look the matter up and if after due consideration it was deemed the proper thing they were to take action along the lines which they have done as above. The pressing need of a new and commodious school building is patent to all, and we trust the petition will be signed by every patron of the school and the bonds be carried by an overwhelming majority.

## Editor Beaten By Four Men

Following is an account of a cowardly attack made by four unknown men who severely beat up the aged father of Mr. Gardiner of the Times of this city, who is publishing a paper in Blaine county. The fact of the editor being an old man in his 77th year, makes the act the more despicable.

Dunning, Neb., July 4.—Residents of this place are enraged at a cowardly attack made on County Attorney J. W. Gardiner, editor of the Blaine County Booster. While he was sleeping in his room Sunday afternoon, four men dragged him from his bed and beat and choked him into insensibility. The noise of the struggle attracted the attention of County Commissioner Wilson, who rushed to the defense of the county attorney. Mr. Wilson was also severely bruised.

According to the Dunning people the assaults is the outgrowth of local differences in that place over the taking out of hitching racks in certain streets. Mr. Gardiner published an article relative to the matter in his paper and the assault followed.

## Suffered a Broken Rib

S. F. Reynolds is laid up at home with a broken rib, the result of a fall from his wagon Monday evening. He was driving down to his slaughter house and was crossing the railroad track, when his team came to a sudden stop, throwing him heavily to the ground with above results.

We understand our old friend, Andy Gray is in a very precarious condition, cancerous growths over the face and body have broken out at an alarming rate and his life hangs by a very slender thread.

## Farmers Attention

Did it ever occur to you, that you are getting a much better price for your cream delivered in Loup City, than is being paid in surrounding towns, and country and all because there is a creamery located in Loup City. If it were not for the creamery located here, the price would undoubtedly be the same as at the surrounding points.

Why not give the Creamery the benefit of your patronage then, and help support, and build up a home industry rather than be sending your cream out of the country to larger towns and cities, that only care for us in proportion to the amount of business they get out of our community.

The Ravenna Creamery Co. is paying 24c for cream delivered at the creamery; compare this price with the prices being paid at other surrounding and nearby points.
