Quite a number have asked the Northwestern editor whether Jenner's Park would be among the free attractions of the Harvest Festival. At this writing we have not seen Mr. Jenner, who is a member of the Harvest Festival committee on arrangements, but we have no hesitancy in hoping that the committee will include the Park in the list of free attractions, if they have not already made the arrangements to do so. In this we are in line with the wish of many with whom we have talked. What say the committee?

Some mills cut prices and offer new wheat flour to their trade as soon as it is threshed. We prefer to hold old wheat on hand and have our merchants sell old wheat flour until the new wheat is in condition to grind. This is one reason our flour trade is increasing about 100 per cent each year. You better buy a few sacks of old wheat flour and keep the housewife happy. Special prices on 500 pound lots.

Out of deference to the sorrow which has entered the home and the funeral of Mrs. Currier, the boys staid only a few moments and left quietly without giving us any music from their band which accompanied them. They were a lot of jolly fellows and those who go over from Loup City or from anywhere else, will be treated the best in the world.
If you are having, or have had, some trouble with your phone line, don't howl, because the company is engaged in placing the lines in certain portions of the city in cables and under ground. They are running cables from the central office north some three blocks and two blocks north are to have cables underground running east and west quite a distance. Doing this work and thus eliminating much of the overhead-wire nuisance, will cause more or less disarrangement of the lines for possibly several weeks before they get the new system perfected. With this change there will be comparatively few overhead wires, the cables will hang some 400 and over of the talk-talky things. We call attention to the above so you may not cuss long, loud and deep, if you can't think through your telephones whenever the spirit moves you. However, the company is engaged in a good work and when it is finished the pleasure will be yours. The company also intend putting in new and up-to-date switchboards and make the system just what it should be—better than the best.
