Last Thursday proved a hoodoo for our baseball first and second nines. At Ord the first nine lost their scalps by a score of 3 to 0, while Rockville did the second nine still worse, getting five scores to Loup City's nest of goose eggs. However, Loup City regained some of its prestige the following day on the home grounds by besting Arcadia by a score of 13 to 7—nearly a 2 to 1 score.

Irvin Conger, our popular tonsorial artist, had a mighty pleasant trip played on him last Sunday morning by his brothers. On his way to his parlors on Sunday morning, where he was going to put things to right after Saturday's work, he was inveigled into going out to his brother, Stewart Conger's, home for the day, and of course he could not withstand the feast of good things for dinner he knew were in store. In his absence his brothers took charge of his shop and placed a carpet of linoleum on the floor, polished up the furniture and did other good things to the parlors. It was a brotherly act, to say the least, and proves the Conger brothers are most loyal and generous to one another. Of course, Irvin feels mighty good over it all, and well he may.

Mrs. A. L. Zimmerman entertains the ladies of the Entre Nous club this afternoon.

The white wife of the black pugilist, Johnson, committed suicide in Chicago last Thursday. A fitting finale for the disgrace she brought on her family and herself by her mesalliance with a negro.

Loup City is now one of the best lighted little cities in Central Nebraska, thanks to the Electric Light Company, who have put in a 24-hour service of as fine electric lights as can be found in any city of its size, and better and with more complete service than many of the cities double its population. Thanks to E. G. Taylor, he was not content to give our people simply night service, but made the plant so extensive that those who wished daylight service, either for light or power, could be accommodated. The Northwestern office is among those who are more than pleased with it, as it enables us to run our machinery during the daylight hours with electric power, thus making our facilities for turning out work much easier and enlarging the service without adding employees, where otherwise we should have been compelled so to do. All honor to such enterprising men as E. G. Taylor and many others, who are the power behind the throne that is rapidly bringing Loup City to the forefront as one of the best and busiest little cities in the best state west of the Missouri.
