I have a good machine to do the work. Give me a call. **SECOND-HAND STORE**

Publication of the first sheets of the international map of the world, on the scale of one in a million, marks the beginning of a new epoch in cartography. For the first time we are to have a map of the world on a uniform system, in which all the sheets are arranged to fit together along the margins—uniform in their manner of reckoning longitudes from the meridian of Greenwich; uniform in their manner of reckoning heights in meters above the mean level of the sea. They will have the same method of indicating the relief of the land, the same conventional signs for towns and roads, the same styles of lettering

to distinguish between physical and political features. In a word, the whole map will be written in the same language, without difference even of idiom, and he who learns to read one sheet may read them all. Few realize the fresh importance acquired by the art of map-making within the last ten years. The beneficiaries on a large scale are the owners and users of motor cars. Only second to them as users of the products of cartographical science are the aviators. The flying-machine is curiously dependent upon the map. An aviator must learn to read maps as he must learn to humor a petroleum motor or gasoline engine.—Current Literature.

**Taylor Trades for
Old Fair Grounds**

An important real estate transaction was put through by W. D. Zimmerman, whereby E. G. Taylor traded his recently acquired C. C. Cooper town property to Mr. Dzingle for the latter's forty acres south of town, formerly the old fair grounds land. Mr. Dzingle will stay on the land till spring and the Cooper cottage will be occupied by E. P. Daily of the Daily & Krebs Furniture Co., till Mr. Daily can get possession of his own property, now occupied by O. S. Mason. This will save all from moving around till spring.

**Democratic Leaders
Have Jollification**

The Wilson and Marshall Democratic Club held a banquet at the Milburn Tuesday evening at 8:30 and enjoyed a democratic pow wow among themselves. Plates were spread for twenty-three guests. John W. Long and R. H. Mathew gave talks of rejoicing over the success of democracy after sixteen years' strenuous work and failures to reach the pie counter. A Jeffersonian Club was organized with John W. Long as president, W. D. Zimmerman as Vice president and Edgar Draper secretary. The affair was confined wholly to the democratic brethren, no political corpse being allowed to get a look-in on the jollification.

**Boiler Plate Stuff
Catches Green Ones**

Last week the Northwestern received some three columns of boiler plate stuff exploiting the sermons of one Pastor Russell, who is making quite a sensation in the east over his predictions of the end of the world's existence, etc. This plate matter came free to the country newspapers, the managers of Pastor Russell paying the express charges on it. The stuff is great advertising matter for the sensational preacher, and the country papers are worked for free publication by sending them the matter in plate form, thereby saving several columns of typesetting. Of course, the Northwestern did not get caught in the grafting net of the money-making syndicate, who are making a fortune out of the talks of Pastor Russell, dumping the stereotyped advertising stunt into the waste metal receptacle. However many of our exchanges published it and thereby saved space that might better have been used in local news matter. But then Pastor Russell has the stereotyped and ancient Washington Letter beaten a mile. Rev. Dr. Leeper, we understand, gave a very interesting sermon on the above subject last Sunday morning.

**Thanksgiving Day
Next Thursday**

Next Thursday has been set apart as Thanksgiving Day, and will be observed very generally throughout the country. Services will be held in this city on that day and we understand our business houses will for the most part be closed the better part of the day. The Northwestern will be published a day earlier, also, that the force may join with other people in Thanksgiving. Our patrons will therefore hand in their favors a day in advance.

EXTRA SESSION

President-elect Wilson has indicated that he will call a special session of Congress just as soon as he gets into the executive chair. Good. The democratic party does not propose losing any time in getting in its former record for making mistakes.

Musical Sands.

Musical sands have been known for 1,000 years and it is believed that there is a reference to them in one of the tales of the "Arabian Nights." But nature produces much finer results. There is the Mountain of the Bell on the shores of the Red sea, which makes extraordinary sounds and boomings when the winds set the countless millions of particles rubbing against each other and vibrating.

A GIFT WITH A THOUGHT IN IT.

There's one very simple way out of the Christmas shopping problem: don't shop, but sit quietly at home and subscribe for The Youth's Companion. The chances are, too, that no present you could buy for the young friend or the family you delight to honor could confer so much pleasure as this gift of The Youth's Companion for a whole round year—fifty-two weeks' issues, and the fifty-second as keenly anticipated and enjoyed as the very first.

There will be stories for readers of every age; sound advice as to athletics; suggestions for the girl at college or making her own way in the world; good things for every member of the family—all for \$2.00—less than four cents a week.

The one to whom you give the subscription will receive free all the remaining issues of 1912, as well as The Companion Window Transparency and

Calendar for 1913, in rich, translucent colors. It is to be hung in the window or over the lampshade. You, too, as a giver of the present will receive a copy of it.

In the early hours of the morning, each one with a hand clasp, a good word and a smile, returned to their homes, having spent a most enjoyable evening. The Wiggle Creek neighborhood seem to never tire of doing some good deed. The latest thing is the fencing of their new cemetery, which took place last Friday. The fence consists of a woven wire four feet high with one barb wire along the top. The posts are large cedar ones, one rod apart.

A good rain covered Route 2 last Sunday night and Monday morning it turned to snow. The storm seemed to be the heaviest in the vicinity of Fred Johnson's, where some snow still lay on the ground Saturday, almost a week after it had fallen. The roads in this district have been bad all week. Along the divide they have been good. Winter wheat never looked better than at the present time. Some farmers are through husking corn. Corn is poor and will only make about ten bushels on an average.

Ernest Daddow and family and Ira Daddow and family spent Sunday at Tom McFadden's.

Dr. Jones was out to Ray McFadden's Monday and quarantined Ray's home for scarlet fever.

The people in the south-east part of Wiggle Creek district deserve a great deal of credit for the way they have turned out and clayed the sandy roads from Clarence Burt's to Henry Reed's mill box, also the road leading to the Austin bridge. This road, especially the one north of Hans Obermiller's for twenty rods, was of the worst. Here they also did some good engineering in placing the road on a ridge instead of putting it in the low sandy road-bed. Below are the names of those that gave their time for one or two days to help this good cause:

Homer Hughes and family and Frank Daddow and family took dinner at the home of Tom McFadden last Sunday.

Mrs. Russel Curry visited her parents, Mr. and Mrs. Peugh, last Saturday evening.
