Help Those Sick Kidney's

How many times have you had your work, your sleep, or your leisure hours interrupted by recurring pains in the region of the kidneys? Did you ever experience anything more unpleasant and annoying? You probably neglected it too—let yourself believe it wasn't serious—be over it in a day or two. When the kidneys give you warning of inability to perform their duty, assist them in every way—help them to get rid of poisons that are accumulating—waste matter they cannot throw off. They are weak and need strengthening. See that they are built up back to normal—and it won't be many days until you are built up, eager for work and enjoying your rest and leisure hours. It's your own fault.

All you need do is take

Mr. Jacob Albers, as guardian of Mrs. Werner, insane patient from Ash-ton at the state asylum at Engleside, went down to Hastings last Thursday, returning Friday noon with the patient, whom he placed in the home of George Woznick, where she will be cared for. Mrs. Werner, who is about 50 years of age, was committed to the asylum some two years ago, and was found by the authorities to be harmless, and might be termed more weak-minded than otherwise. She seemed to mourn over her restraint there and it was thought by the asylum authorities and by Guardian Albers that she would be as well and in much better frame of mind were she to be brought home and cared for than to be held at the asylum. In compliance with that idea, Mr. Albers brought her home and placed her at the home of Mr. Woznick, the estate of the woman being amply sufficient to pay her board and give her the necessities of life.
