The Loup City Merchant, "Don't-go-elsewhere-to-get-cheated" advertises 25 lbs 50-60 Prunes \$2.25 as a special low price offer,

Leschinsky sells prunes 50-60 size, the same same goods and bought of the same wholesale house as the "Don't-go-elsewhere-to-get-cheated" Prunes, at the regular retail price of 3 lbs for 25c. Out of how much money does "Don't-go-elsewhere-to-get-cheated" beats his customers, in his 25 lb deal as compared with Leschinsky's regular price.

To every child, boy or girl, 8 years of age or under, who will hand to us the correct answer on a slip of paper, giving their name and age, on or before the 1st of March '13, I will make a present of a 1-4 pound of my best Cream Candy.

### High School Bonds Election Saturday

Saturday of this week will be held the bond election for our new high school building. At this election, all women who have children of school age or are property owners in their own rights have a vote. On our first page is a cut of the handsome high school building at Auburn, this state, which can be duplicated for the \$30,000 in bonds asked for. Vote in the interest of our children.

Aprons of the publishing of the picture of the new high school building at Auburn on our first page, it might not be out of the tune we are now singing to give some of the features of the structure. The basement contains a large gymnasium with locker room, shower baths and other toilet facilities, also one manual training room and domestic science room. There are no posts nor columns in the gymnasium, which is 50x60 feet in size. The heating plant is entirely outside the building and below ground surface. The first floor contains a large library and reading room, with office adjoining, and with private toilet and store room. At the rear of the building in opposite corners, are the chemical and physical laboratories, and in the center is located a lecture room with elevated floors. Between laboratories and lecture room is located a splendid store room a dark room and two book rooms. Adjoining the library and reading room on one side is the girls' locker room, with a toilet room of sufficient capacity and on the other side similar accommodation for the boys. The second floor contains a large study room, 50x60 feet, with four large recitation rooms adjoining, one teachers' room, with private toilet facilities, one office room with private toilet room and two store or book rooms. The building is splendidly lighted, has a system of steam heating, thoroughly ventilated, wired for electricity and in fact planned in such a way as to be up to the standard of the Boston school house laws.

President-elect Wilson plans visiting the Panama canal and also the Phillipine Islands during his term of office.

President-elect Wilson gives it out that he will not name his cabinet till after March 4th. What sadness to the army of aspirants.

Some cook in the dailies yesterday gave a recipe for watermelon cake. In the name of that juicy fruit, what is the use of starting the watermelon appetite at this season of the year.

Congressman Dan Stephens of Nebraska has introduced a bill in the lower house providing for the election of second and third class postmasters by the patrons of the offices. It is provided that while only adherents of the party in power may be candidates, members of all parties are qualified voters. Maybe yet the Loup City postoffice can secure its postmaster by a vote of the patrons of the office. And why not? Why should a few big fellows at the head of the party decide who the patrons of the Loup City postoffice want?

According to the Chicago Record-Herald the controversy of the Modern Woodman of America over the proposed increase of rates, which has now been abandoned, had an injurious effect on the membership. This was over 1,000,000 at the beginning of last year, but the order entered the year with a membership of 960,968. There were 80,222 members in temporary suspension over sixty days and less than six months and 27,298 members in temporary suspension less than sixty days. Now that the advanced rate question has been abandoned, it is believed that many of these will return, that being the cause for their retirement.

Russel Snyder, a son of Mr. Charles Snyder, of Ravenna, has received an appointment from the Animal Husbandry department of the Agricultural school of the University of Nebraska, as Dairy Inspector, and entered upon his duties January 1st. His work consists of making complete and official records of the dairy herds throughout the state, making a seven-day test of the production of milk and butter fat, determining the amount of feed and expense of producing same, and appraising the value of the product. His territory comprises a half dozen counties in central Nebraska, and his headquarters are at Central City. Russel Snyder was one of the honor men of his class, graduating from the Agricultural college in 1912, and the appointment came to him as an acknowledgment of his ability and studiousness. He is less than twenty years of age. He is a Sherman county boy, having been born and raised on the Snyder ranch, at Verdurette, a few miles northwest of Ravenna.—Ravenna News.

### Freak Legislators Butcher Printers

Every legislature has its freak members, and the present Nebraska session is no exception. One of them this time happens to be Representative Bollen of Crofton, who had a bill in the legislature to cut the printers off in their youth and beauty, that is the country newspapers, and instead of having the constitutional amendments printed in the papers throughout the state, proposed their publication in pamphlet form for distribution to the voters, entailing a large sum for some job printer in the city and their distribution by mail like other circulars. However, Mr. Bollen, if he had any graft in sight from some lucky aspirant for the job of printing the amendments in book form, is not liable to profit thereby, as the members of the legislative body sat down on the idea with a heavy, cold, sickening thud. The papers throughout the state will very probably remember the fellow in the future. It's funny, though, that up bobs some jimson weed law-maker at each session, who, after securing all the aid possible from the newspapermen in his bailiwick in securing his election, turns around and knocks on the papers which boost him and try to gain a little notoriety by so doing. We remember a certain member of the lower Nebraska house some years ago, who after securing his election in a large part by the good work of the newspaper fraternity of his district, introduced a measure in the house cutting legal advertising in newspapers in two, and boastingly proclaiming that if he could get his measure passed and made law, he could be elected to congress or the United States senate without the aid of any d-d paper on earth, as he expressed himself. However, while the measure passed the house in the rush of its dying minutes, the senate, with our glorious Judge Wall championing the newspapers, killed the bill and the matter passed into history. Later the knifer of newspapers tried to lift himself out of obscurity again, but he was never after able to reach first base in his desire for office. Even his name has been forgotten and only his deeds remembered.

### Special Prizes Attractive to the Hustling Candidates

#### Six Days to Win a Diamond Ring.

There are just six days in which to win one of the fine special prizes, the first of which is a beautiful diamond ring. A complete list of these special prizes will be found on another page. The two special prizes will be awarded to the two candidates turning in the most money on subscriptions, both new and renewal, between the beginning of the contest Feb. 3rd and March 5th. Each candidate turning in \$25.00 on subscriptions who does not win one of the two special prizes will be awarded a beautiful gold pocket. This special prize period includes all subscriptions turned in by the candidate or subscriber, from the beginning of the contest.

This, however, is not the close of the contest, and March 5th, should not be confused with the awarding of the capital prize, so there is plenty of time for anyone to start in and make a good fight for the automobile. Any candidate can collect \$25.00 in a short time, and win one of the special prizes, and in addition the votes that are secured will count toward winning the automobile, so there is an opportunity for everyone to be repaid for their efforts.

Below is the standing of the candidates at this week's count:

### COMING TO GRAND ISLAND

**UNITED DOCTORS, SPECIALISTS WILL BE AT KOEHLER HOTEL**  
Mar. 3rd to and including  
Mar. 8th. One week only  
Hours 10 a. m. to 8 p. m.

Remarkable Success of these Talented Physicians in the Treatment of Chronic Diseases.

### Offer Their Services Free of Charge

The United Doctors, licensed by the state of Nebraska for the treatment of deformities and all nervous and chronic diseases of men, women, and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of the medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

These doctors are considered by many former patients, among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard indeed to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs and those afflicted with long-standing deep seated chronic diseases, that have baffled the skill of the family physician, should not fail to call.

According to their system no more operations for appendicitis, gall stones, tumors, goiter or certain forms of cancer. They were among the first in America to earn the name of the "Bloodless Surgeons," by doing away with the knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two-ounce bottle of your urine for chemical analysis and microscopic examination.

Deafness often has been cured in sixty days.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Remember, this free offer is for one day only.

Married ladies must come with their husbands and minors with their parents.
