Contest Is Booming Special Inducements \$50 In Special Pizes

**Contest Closes March 31st
Special Prize Period March 19,**

The contest booming would be putting it mildly. About fifteen ladies, married and single, are working might and main; they are fairly flying. The contest manager has hardly time to eat his meals for answering the phone and waiting on the people who want to vote for their favorite candidate. The contest manager says he has never seen such enthusiasm as has developed in this contest to say the least of it. The Northwestern is proud of the candidates, they are from the best families in the county.

SPECIAL PRIZES

The special prizes mentioned in the big ad will be given away March 19th to the contestants who have turned in the most money between the dates of March 6 and March 19. The prizes will be given on the money ratio, the one who has turned in the largest amount will get the first choice and the one who turns in the second largest amount will get second choice until the prizes are all taken and every contestant who has turned in \$25 between the dates of March 6 and 19 including both dates, will get a nice hand bag. Now this will be easy. Just ask five of your friends to subscribe for four years each. Don't be afraid to ask a person for big subscriptions; they are the ones that count the most and besides, you are not asking for something that he is not getting value received from. You must remember the Northwestern is the official county paper and in a short time we are going to make improvements in the mechanical department, also we expect to develop the news gathering facilities of the Northwestern and hope to make it one of the best weeklies in the state of Nebraska.

Now won't you make a special effort this coming week to get the big results—one of the prize winners.

The house killed the bill allowing poll tax to be worked out, and increasing the same to \$3. Now pay your poll tax in round samolians and look pleasant.

It looks as if Nebraska would hereafter murder its murderers by electrocution, instead of the strangle hold. Murder, however, is murder, whether by state or criminal. It only lacks the consent of the senate.

Up to Monday of this week the legislature had frittered away forty-one of the sixty days and only five bills had reached the governor.

Ravenna defeated a 3-mill levy for a Carnegie library, last week Tuesday.

District Court

District court convened here Tuesday of this week, and as we go to press this morning is grinding away rapidly, making the docket shrink like the morning dew after a warm sun gets action. It is a jury session and has brought to town the handsomest and jolliest bunch of case-deciders ever compelled to do jury work, as the following list proves: Mike McKeon, Frank Kozel, A. R. Jacl, H. V. Capellan, H. Berent, Chas. 13ass, Ernest Brundage, R. D. Hendrickson, Tom Stanzky, E. C. Kilpatrick, A. E. Charlton, Paul Chileski, J. H. Witt,

Frank J. Stobbe, Sim Criss, E. P. Pray, Herman Polenz, A. B. Thompson, Jacob Wall, Myers Benson, John F. Peterson, Samuel Chilson, Andrew Pierson and Harris Johnson.

Tuesday was taken up with one jury case—the Acme Harvesting Machine Co. vs. Otlewski, the jury returning a verdict for defendant. Besides this case several minor cases before the court were disposed of. Yesterday the jury had the case of Bandur vs. Oltman before it, a controversy over wages, which was decided in favor of plaintiff. Today we understand will come before the court and jury the criminal arson case of State against Farrah, et al, arising from the destruction of the store of defendants at Ashton last summer.

The chances are that the present term will consume several more days, but as our business judge loses no time in rushing matters to a finish the time will be shortened as materially as is always the case with Bruno O. Hestetler holding on to the lead strings. We will give the rest of the proceedings next week.
