**Only 4 Days Remain of the
Northwestern's Voting Contest**

**Thousands Waiting Eagerly the Closing Hour of the race for Suprema cy
Hurry! The Crucial Test is at hand. Be Sure Your Ship Escapes
The Rock of Defeat! Contest Closes April 7th. at 9 o'clock p. m.**

At nine o'clock the door at the Northwestern office will be locked and everyone who has votes to turn in will be given plenty of time to have the Contest Manager to make out the ballots, it may take an hour or even longer, the idea is to give everybody a chance to turn in their subscription money before we close the contest. So be in the office by nine or you can't get in.

The counting of the ballots on Monday night April 7th at the close of the great contest will be done by Miss Pearle Needham, deputy county treasurer; W. J. Root, assistant cashier Loup City State Bank and Lawrence Polski assistant cashier Loup City National Bank.

These people have consented to act as judges and make the final count April 7th, in the contest to determine the winners of the prize. They will make the official announcement of winners after the final count of votes is made. In their hands is placed complete supervision of the vote and the determination of winners.

STANDING
The standing of the candidates as it appears in this paper will be added to the ballots in the ballot box. We have carefully counted every ballot, and have tried to make a correct count, but to play fair we want every candidate to carefully go over her ballots and see that we have not made a mistake and should there be mistake come right into the office and we will go over the ballots and correct any mistake should there be any. However we have been as careful as we could, and are sure we have made no mistake. But if any candidate thinks otherwise please notify us at once.

"Here they come down the stretch!" You have been to the races, haven't you? Sat in the grand-stand and waved your hat and hurrahed yourself black in the face as you crowded forward to see the finish. Someone cries, "here they come down the stretch" and you rise on your tiptoes screaming at the top of your voice in

the hope of encouraging your favorite. What a sight to thrill the nerves of any lover of sport. No race that was ever run was watched with keener interest than the great popularity race which has entered on its last lap now. The people of this country are craning forward, so to speak, to cheer the candidates who are now on the home stretch.

Go it! Go it!

These are the cries you hear at the races. Can't you imagine the air ringing with the similar cries of the populace. Why? Most of those people have paid hard money to assist some particular candidate to score on her competitors and naturally they are excited. If you have received assistance from many of your friends and well wishers, for goodness sake hustle now! Show them that you are worthy of the confidence they have placed in you. Who will be the first under the wire Monday night at 9 o'clock? Nobody can tell.

While the leaders are doing famously—while it looks as though those ahead would surely be first—there is always some possibility of some candidate coming in with a "Garrison Finish." A Garrison finish is one where a winning racer keeps behind all the others till the last minute then gathers itself together for a great burst of speed and darts past the leader, coming first under the wire "by a short eye-lash." Nothing can equal the surprise of the vanquished racer under these circumstances.

Below is the republished list of standing of candidates as given last issue.
