

### The Price of Cream

The dairymen of Loup City and vicinity are receiving the highest price for their butterfat than they have ever received at this time of year.

Our competitors are paying much lower prices in the surrounding towns that have no local creamery than they are paying in Loup City.

To prove this absolutely, just call up Ashton, Rockville, Arcadia, Litchfield, Hazard or any of the nearby towns and satisfy yourself with regard to this price business.

We are the cause of these splendid prices you are receiving for cream at Loup City, and if there was no Creamery in Loup, you would be receiving the same price as the dairyman are receiving at the surrounding towns.

Patronize the local creamery because it furnishes you with the highest cash market, pays the same price to everybody and gives you a square deal every day in the year.

Our price this week is 27 cents for butterfat delivered here. We solicit your business.

### A Frank Talk on Typewriters

Somehow, the impression has gained ground that there isn't much difference between the various makes of typewriters on the market.

You may think the same thing. It would take a good, sound, logical argument to convince you that all typewriters do not have the same efficiency and that a stenographer cannot secure the same results on every machine.

We are ready to make that argument and to show you by actual demonstration that

### The L. C. Smith & Bros. Typewriter

will do more work, better work, with less fatigue to the stenographer, than any writing machine ever made.

How is this possible?

Here are a few reasons:

1. It is ball bearing throughout—others are not.
2. All operations are controlled from the keyboard.
3. It is the lightest touch machine made.
4. It does not "smut" the carbon.
5. The ribbon reverses automatically.
6. The type is so protected that it is not battered by collision.
7. One motion of the hand returns the carriage and operates the line space.
8. It has an inbuilt biller and tabulator.
9. No trouble to write on paper as small as a postage stamp.
10. It is built for service.
