It is a very rare occurrence when you can pick up a daily nowadays and not read of some aeroplane accident, in which one or more bird men are dashed down to death from their flights in the air. All of which leads to the thought, "Is it worth while?"

"Banking by mail" is the latest innovation entered into by the government in connection with the postal savings system. Hereafter deposits may be made by mail and withdrawals likewise effected through the same agency. However, "banking by mail," and also by female, is as old as the banking system. Gladup, Uncle Sam, you're lagging in the traces.

Pity the poor mail carrier. After August 1 the maximum weight for parcel post packages will be increased from eleven pounds to twenty pounds. Who knows how soon, at this rate, route carriers will be compelled to drive great four-horse transfer wagons over their routes, or more likely auto transfer trucks, to meet the increasing demands? Good-bye express companies; take keer o' yourselves.

An observer wishes to observe that he observes one nery thing among some of Loup City's young bloods, and that is hovering about the entrance to the Chautauqua tent after the dear girls had paid their own way into the show and gallantly offering to escort them home. But what if the darlings like it that way or are too ashamed of them to stand for company in public, heh?

Last Thursday the new laws passed by the last legislature went into effect which did not have the emergency clause or which have not run against the referendum snag in the political whirlpool or stuck in the injunction sandbar. There are 138 which did not have the emergency clause, but three of these have been put to the bad temporarily. The Nebraska City armory appropriation of \$20,000 has been suspended because of the filing of the referendum petitions, while the employer's liability law is held up by the same process. The new insurance code law is in the courts and awaits a run of the legal game before it can be put into effect or knocked out entirely. Another bill which did not go into effect last Thursday was the electrocution law. This does not go into effect until October 1, because of the provisions to that effect in the bill. This does away with legal penalty by hanging and substitutes the electric chair.

Visions From Storkland
A baby girl was born Tuesday evening, July 22, 1913, in this city to Mr. and Mrs. Lee Bly. Lee has now one of those seraphic smiles that won't come off. Congratulations to the happy parents.

The happy report reaches us by wireless from Litchfield that our editorial friend, Jack Rightenour of the Monitor became the happy papa last Monday, July 21, of a fine 10-pound boy. 'Rah for the new Litchfield editor.

Luther Goodwin

Receives Bad Fall

While at work last Monday afternoon

on the farm of Mr. Norstedt, a few

miles west of this city, Luther

Goodwin in some way fell from a load

of grain, striking on his head. I

was not thought at first that he was

badly hurt but later developments

proved to the contrary, and he was

brought to town Tuesday and taken

to the home of his sister, Mrs. S. N.

Sweetland. Just how seriously he is

hurt cannot be determined as we

go to press this morning.

The Chautauqua

The Chautauqua on at present had

up to yesterday proved somewhat dis-

appointing when compared with former

Chautauquas, but Wednesday's

program went far towards redeeming

the first two days, which by common

consent might have been vastly im-

proved upon. But yesterday could

not have been bettered, if we rightly

judge of the temper of attendants on

the amusement game. The two per-

formances of the Military Girls were

Crown, Kimball, Price & Teeple, Packard, A. B. Chase, Schaeffer, McPhall and other high grade makes of pianos to select from at Schwaners.

Glacier National Park
Newly Revealed
Wonderland

This region of majestic, glacier-capped mountains—the climax of the rugged grandeur of the Rockies—is reached by the Great Northern Railway from Glacier Park Station, at which point the Railway Company has constructed a hundred thousand dollar hotel. An automobile road has been built from this station to the interior of the Park. A detour of from one to four days can be made at the very moderate cost of from \$10 to \$25, including hotels, automobiles, launches and coaches, covering distances of from to forty to one hundred and fifty miles.

As all hotel and transportation arrangements in the Park are under the supervision of the Great Northern Railway Company, the comfort and enjoyment of tourists is assured. In making a tour of the Pacific Coast, a tour into Glacier Park will prove to be one of the most interesting features.
